Special Rules

Festungskompanie HQ (352) - p.23

Everything Must Fire On the Beaches

Use the Armoured Reserves rule on page 269 of the rulebook.

Fortified Defence

A Festungskompanie or Füsilierkompanie will always Defend.

A Füsilierkompanie may purchase fortifications (page 38 of Earth & Steel) as part of their force making them a Fortified Company.

Goliath Demolition Carriers

Remove the Goliath remote-control demolition carrier from a team equipped with one if the team moves.

Static Rocket Launcher Battery - p.44

Static Rocket Launcher

28cm sWG41 rocket launchers use the Stuka zu Fuss special rule (page 167 of the rulebook), but have only four rockets instead of six. As a result, they only have four attempts to range in. Treat them as Trained troops when rolling To Hit after ranging in. Once fired, the entire team is removed from the game.

Static rocket launchers are Nests and not part of any platoon. They may use any Command team as a Spotter, provided that the Command team has not moved since the start of the game. As none of these teams are trained artillery observers, they receive the same +1 penalty to range in as a Company Command team.

Veteran Festungs Grenadier Platoon - p.24

The Ostfront (eastern front) veteran Grenadiers defending the D-Day beaches were caught by surprise, but are still confident of their ability to hold the Ami's at bay until the Panzers arrived to finish the job.

Although the ones on Omaha Beach were not quite ready in time for D-Day, the Goliath (Goliath) remote-controlled demolition carriers emplaced as part of the beach defences could have caused many casualties amongst the first wave of the invasion.

The rules for remote-control demolition carriers are on page 217 of the Flames Of War rulebook.
