Pavis Quest

Pavis Quest is an unofficial and non-profit making modification of the rules for the HeroQuest Glorantha game. You must own HeroQuest Glorantha to use this modification. It is designed for playing mid power levels games set in Pavis, the Big Rubble and Prax. Unlike standard HeroQuest Glorantha it has a system for resolving fights using tactical combat.

Glorantha Heroes is an unofficial and non-profit making modification of the rules for the HeroQuest game. You must own HeroQuest to use this modification.

Please see <http://www.glorantha.com/> for details.

Basic Concepts

Dice

How effective each ability a character has is measured in Dice (D). The Dice are D1, D3, D4, D6, D8, D10, D12, D14, D16, D18, D20, D22, D24, D30, D50, D100. Modifiers such as +1 or -1 move the dice used up or down by one step. A Bonus or Penalty adds or subtracts from the result of a dice. Each Dice also as an average result listed in brackets. Skill levels are as follows:

Helpless: D1 (1)

Untrained: D3 (2)

Basic Training: D4 (3)

Trained: D6 (4)

Professional: D8 (5)

Elite: D10 (6)

Elite Leader: D12 (7)

Outstanding Individual: D14 (8)

Master: D16 (9)

Rune Lord: D18 (10)

Rune Master: D20 (11)

Greater Rune Master: D22 (12)

Lesser Hero: D24 (13)

Hero: D30 (16)

Greater Hero: D50 (26)

Superhero: D100 (51)

Each character starts with an experience dice depending on the starting level of the campaign. A Player Character starts as Trained (D6).

Dice in the Rules

Any time dice in the rules are described in multiples or sums such as 2D6, D8+D6 etc. it means you roll all the dice and take the highest result. Bonus (B) is added to the result and Penalty (P) is subtracted from the result. E.g. 2D6 B1 means roll 2 six-sided dice, take the highest and add 1.

Hero Points

Hero Points (HP) can be spent to increase the chances of success in play. PCs start with 3 HP. A PC gets 1 HP at the start of each game session and then another HP for performing a heroic act at the referee's discretion. A PC can never have more than 5 HP.

Experience Points

Characters gain Experience Points (XP) by succeeding in missions and quests. XP can be used to improve the character's experience dice. The cost is equal to the value of the dice moved to. This means, for example, moving from D6 to D8 costs 8 XP. XP can be spent to remove a character's special characteristics (if the referee agrees) at a cost of 4 XP. Certain magical abilities and statuses cost XP as listed in the magic section. Using certain magical abilities costs XP. Permanent penalties in runes can be regained for 4 XP. Player Characters start with 15 XP.

Keywords

Keywords are broad descriptions of the character and help to determine the kind of things s/he can do with other characteristics.

Runes

Each character has three runes.

Soul Rune e.g.

- An element - ☉☿♄♂♁

| Rune | Usual Description | Other Descriptions | Notes |
|------|--------------------|--|---|
| ☼ | Air | Storm, Wind | |
| ☿ | Animal | Beast | There is actually a specific animal rune of each kind which should be written as a qualifier to this. It will often be a stylized animal e.g. ☿ bird, ☾ horse, ☼ goat, ☿ ram, ☿ sheep, ☼ wolf, ☼ beetle, ☼ woodlouse, ☼ sakkar, ☼ lion, ☼ snake, ☼ water bird, ☼ bat, ☼ dog, ☼ bull, ☼ Praxian herd beasts, ☼ pig, ☼ cattle, ☼ bear, ☼ scorpion, bee ☼, wasp ☼, spider ☼, monkey ☼, cat ☼ |
| ☿ | Anti-Chaos | Chaos Fighter, Eternal Battle | |
| ● | Black Moon | Illumination, Liberation | |
| ☿ | Chaos | Beginning | |
| ☼ | Crescent Come Moon | The Hunt | Embodies ☼ but not the middle air. |
| ☼ | Crescent Go Moon | Empty Victory, Birth, Motherhood | Embodies ☼ |
| ● | Darkness | | |
| † | Death | Killing | |
| ☼ | Disorder | Conflict, Disruption, Fear, Rebellion | |
| ● | Dying Moon | Meeting. Madness, Woe, Suffering, Threshold Between Life and Death | Embodies ☼ |
| ☼ | Earth | Living Earth | |
| ☼ | Empty Half Moon | Full Victory, Revenge | Embodies ●† |
| ✱ | Fate | Inevitability | |
| ☼ | Fertility | Life | |
| ☼ | Fire/Sky | Sun | |
| ☼ | Full Half Moon | Descent into the Mortal World, Youth, Innocence, Desire to | Embodies ☼ |

| Skill | Description |
|------------------------|---|
| | four art sub-types. However having extra sub-types reduces the dice s/he rolls for skill tasks. The dice rolled in Arts tasks is XD + Skill -1 per Arts Sub Type over 2. The maximum dice with Arts -2 is D4 and with Arts -1 is D8. |
| Athletics | Any feats of strength, jumping for distance, climbing or causing damage with weapons. Standing firm to avoid being knocked back. Has sub-types such as Strength, Damage, Jumping, Stand Firm and Climbing. Also applies to Running. |
| Bravery | Not running away in battle or when faced with frightening creatures or situations. Can have sub-types such as Face Chaos, Following, Lead from the Front |
| Craft | Making practical objects or specialist farming skills beyond the norm for the Customs of a people. Has many subtypes such as Pottery, Bronze, Leather, Cooking, Ploughing, Brewing, Painting, Masonry and Wood. Which things a character can make depends on keywords and can be decided and discussed with the referee. A character with Crafts -1 can have one Craft sub-type, at 0 two Craft sub-types, at 1 three Craft sub-types and at 2 four Craft sub-types. However having extra sub-types reduces the dice s/he rolls for skill tasks. The dice rolled in Crafts tasks is XD + Skill -1 per Craft Sub Type over 2. The maximum dice with Craft -2 is D6 and with Craft -1 is D8. |
| Customs - Culture | Each <i>culture</i> is a separate skill. A character knows how to live in a particular culture speak its language/s and to follow its social norms, tastes, religion, rituals and routines. For farming or horticultural societies it includes this way of living. A character can use this skill with neighbouring friendly or neutral cultures at 1 worse or with neighbouring hostile cultures at 2 worse. A character will sometimes know multiple cultures. If increasing a neighbouring culture use the starting point gained from own culture. Combined with arts for Music. The maximum dice rolled in a Customs task with -2 Customs –Culture is D6. |
| Devices | Working with simple mechanical objects such as locks and mechanical traps including setting them and disarming them. Can have sub-types like Pick Locks, Disarm Traps. The maximum dice rolled in a Devices task with -2 Devices is D6 and with -1 Devices is D8. |
| Gymnastics | Balancing, tumbling, dodging, jumping for height and vaulting. Combined with Arts for Dance. Includes avoiding falling or being tripped. Can have sub-types such as Dancing, Dodge, Balancing, Tumbling, Vaulting, High Jump. Also applies to Running. |
| Healing | Providing first aid and understanding of how to treat illness. Can have sub-types such as First Aid, Treat Poison and Treat Disease. The maximum dice rolled in a Healing task with -2 Healing is D6. |
| Health | Being able to survive damage and endurance. Has sub-types Endurance, Resist Damage, Resist Disease, Resist Poison. A character's Wound Number is their average Health roll (not modified by armour). Any bonuses or penalties to Resist Damage adjust this. |
| Knowledge | Formal education – knowledge of law, history, geography, literature or oral tradition and philosophy beyond that required for life in a culture. The sort of things known depends on keywords. Can have sub-types such as History, Law Geography, Philosophy, Divination. The maximum dice rolled in a Knowledge task with -2 Knowledge is D6. |
| Leadership and Oratory | Being able to make a speech, inspire troops and command respect. As usual depends on keywords to determine the scale of leadership the character can exert. Can have sub-types such as Commanding Speech or Persuasive Speech. |
| Perception | Spotting and searching. Spotting ambushes, traps and hidden objects. Can have sub-types such as Spot Trap, Spot Ambush, Spot Hidden Object, Understand Motives. |
| Persuasion | Persuading someone to do what you want, including gifting and obligations in traditional societies. Has sub-types such as Intimidation, Reason, Fast Talk, Seduction. |

| Skill | Description |
|--------------------------|---|
| Literacy <i>Language</i> | Each language is a separate skill. The character can read and write the language. Usually will be own language when gained (as long as it is a written language). A character with -2 Literacy Language can't read or write that language at all and can't complete a task in it. |
| Riding | The character can ride. Has sub-types of different animals such as Horse, High Llama, Bison. Which sub-types a character can use can be discussed with the referee and depends on culture. There will be a penalty if riding an unfamiliar animal. The maximum dice rolled in a Riding task with -2 Riding is D6. |
| Stealth | Sneaking, hiding, ambushing and stealing things unobserved. Can have sub-types such as Sneaking, Hiding, Ambushing, Gambling or Theft. |
| Streetwise | Understanding how to live in towns and cities where not everyone is family. Knowing how to find contacts, deal with bureaucracy and buy and sell using cash. Can have sub-types like Fair Trade, Crooked Trade, Bureaucracy or Find Contact. The maximum dice rolled in a Streetwise task with -2 Streetwise is D6. |
| Survival | The character is used to surviving and making a living on the land. Includes hunting, tracking and gathering. The character understands the animals and plants of the wilderness and the dangers and opportunities to watch out for. The exact environment is indicated by keywords and the character will be at a penalty out of it. Can have sub-types such as Tracking or Gathering. The maximum dice rolled in a Survival task with -2 Survival is D6. |
| Tactics | The character knows how to deploy fighters in combat to the best advantage, get initiative, get the jump on enemies, supply troops, set watches and manoeuvre in battle. The maximum dice rolled in a Tactics task with -2 Tactics is D6. |
| Water Life | The character is used to surviving and making a living on the water – river or sea. The character can swim, find food in the water or banks and understands about the animals and plants that live there. S/he knows what dangers and opportunities to watch out for. S/he can operate boats or ships. Keywords and culture show the precise environment the character is used to and s/he is at a penalty in others e.g. a seafarer on a river or vice-versa). Can have sub-types such as Manage River Boat, Sailing, Swimming or Fishing. A character with -2 Water Life can't swim at all and can't make Swimming Tasks. The maximum dice rolled in a Water Life task with -2 Water Life is D6. |
| Weapon | Each weapon is a separate skill. Can be Sword, Spear, Mounted Spear (reduces penalty for using spear when mounted), Dagger, Axe, Trident, Flail, Mace, Shield, Bow, Mounted Bow (reduces penalty for using Bow when mounted), Crossbow, Sling, Bolas, Throwstick or Unarmed. Has sub-types Attack, Parry, Disarm, Push, Grapple and Trip e.g. Sword (Attack), Sword (Parry), Sword (Disarm). When attacking from a mount use the lower of Weapon and Riding. The maximum dice rolled in a Weapon task or Test with no weapon other than Unarmed at better than -2 is D6. |

Movement

Represents how far the character can move in an action. Movement has a value of 2D6. That means to determine how far they move roll 2D6 and take the higher of the two and then modify the result. Athletics and Gymnastics skill (not bonus or penalty) both adjust the bonus when Running or Flying. Water Life and Athletics modify Swimming. Player Characters have B4 Running and B1 Swimming. E.g. a character with Gymnastics 1 and Athletics 1 would run 2D6 B6 and a character with Gymnastics -1 and Athletics 0 would run 2D6 B3. In addition some characters have a direct bonus or penalty to only Running.

Learning

Learning shows how good a character is at learning new skills. It is modified by traits but starts at D10.

Traits

Traits are tendencies of the character. Traits come in opposing pairs. When a character gets a trait it has a save of 6+. If s/he gains the same trait a second time s/he has a save of 7+ and so on. If a character gains an opposing trait to one s/he already has then subtract 1 from the save of the existing trait.

The referee can choose when to invoke a character's trait to drive him/her to a particular action or to provide a penalty when a skill is used opposite to what the character trait is good at (providing a **penalty of 1** to the skill). If a character wishes to resist this s/he must make a save by rolling D10 and trying to get the trait's number or higher or spend **1 HP**.

A character can call on a trait if the referee agrees to help with a skill when it is being used in the way described for the trait. To do this try to roll below the save of the trait. The character gets a **bonus of 1** on the skill.

On the table below the opposed pairs are shown in the same row. The positive parts of the trait are listed which can be invoked by the player and the negatives invoked by the referee will be those of the opposing trait.

Some traits show a modifier to the character's Training ability. This is not gained again if the trait is gained again.

Relationships

A character can have the following relationships:

Followers: the character has a number of less powerful retainers that provide him/her with loyal support.

Companions: a companion is a loyal named character who supports the main character.

Patron: a patron is a higher status character who supports the character by providing protection, political support, help with the authorities etc. In return the character supports the patron acting as one of his/her clients, performing tasks as required and using time to wait in attendance.

Community: the character may be a member of a community which supports him/her. Examples include a family or clan or a temple. The community provides protection, political support and other help. In return the character supports his/her community with time, money and aid.

Generating a Character

Characters are unusual people in this game who have gone away to adventure in Pavis so this generation system doesn't produce standard people.

Special Characteristics

During character generation a player can select three characteristics which have been generated for his /her character. This is not allowed once other characteristics have been generated which depend on this characteristic. For example once a Culture has been accepted it can't be changed as several other

characteristics will have been generated which depend on it. For the selected characteristic make the roll an additional three times. The player may select any of these three results or stick with the original result.

Gender Keyword

Roll for gender on D10– 1-5 is Male, 6-10 is Female

Basic Skills

Everyone gets:

Athletics -1

Gymnastics -1

Health -1

Persuasion -1

Unarmed -1

All other skills start as -2

Unusual Characteristics

This table provides characters with unusual characteristics. Roll 2D8 times. Characteristics marked * save (roll 6+ on D10 to ignore: +1 required per time the characteristic is gained e.g. Altruistic x 2 has a 7+ save). As successful save can ignore the effects in bold. The referee can allow a re-roll of opposites or things which don't go together. A bonus (B) or penalty (P) with a skill adds or subtracts from the skill's result. Where a skill is listed as (0) or (1) it gets that value. If listed as T then the character is talented in the skill and can reach +2 in it either during generation or through later training.

| Roll D200 | Characteristic | Explanation |
|-----------|--------------------------|--|
| 01 | Agonising* | Character worries about failure. <i>S/he can be paralysed by indecision and gets very upset if friends or allies are hurt or killed.</i> |
| 02 | Altruistic* | The character acts for the benefit of others rather than him/herself. <i>S/he must help the innocent, not leave people behind.</i> |
| 03 | Arbitrary | Personality Trait |
| 04 | Artist | Arts (1T) B1 |
| 05 | Athlete | Athletics (1T) B1 |
| 06 | Badly Educated | Customs P1, Literacy P2, Knowledge P2 |
| 07 | Bombastic* | <i>Explain plans and actions in long speeches which give away plans and allows opponents to escape or thwart those plans.</i> |
| 08 | Callous | The character is able to act in a heartless manner if this is required. The character can attack innocent non-combatants, threaten hostages and has no compunctions about killing. |

| 40 | Faithless | Personality Trait |
| 41 | Fast | Running B2 |
| 42 | Fears (cause)* | Roll on the cause table. If a particular example of the feared thing is encountered for the first time the character flees. |
| 43 | Fighter | Weapons B1 |
| 44 | Flashbacks (cause)* | Roll on the cause table. When a particular example of the cause is encountered stand stunned D6 turns. |
| 45 | Forgiving | Personality Trait |
| 46 | Frivolous | Personality Trait |
| 47 | Generous | Personality Trait |
| 48 | Grasping* | The character is greedy for wealth. S/he must try to grab any available wealth and keep it for him/herself whenever possible. |
| 49 | Guardian Angel* | The character defends a particular kind of people (e.g. Citizens of Pavis, Lunars, Sable Tribe, women and children) and must act against all threats against them. Against a threat to the group the character cannot flee and must intervene to help them. |
| 50 | Gymnast | Gymnastics (1T) B1 |
| 51 | Hard Hitting | Athletics (Damage) B2 |

| Roll D200 | Characteristic | Explanation |
|-----------|-------------------|--|
| 52 | Hated (group)* | Roll on the group table. The character is hated by the listed group and cannot work with them. <i>If they are encountered in combat they attack the character even if they would normally be on the same side.</i> |
| 53 | Hates Water | River Life P2 |
| 54 | Healer | Healer (1T) B1 |
| 55 | Healthy | Health (1T) B1 |

Cultural Keyword

Pavis is a cultural melting pot following the Lunar occupation. All rolls within the table are D10 unless listed as otherwise. Each has a standard range which is the chances of having each of the standard runes and the standard background. Roll individually for each rune and for the background keyword. If the character doesn't have the standard background roll on the random background table listed after the /. The background keyword shows how the character was brought up. This will often be related to the profession or role of his/her parents. The character has moved away from this path for some reason but will have picked up some skills from it before moving on. The character gains the list of skills and bonuses for their culture and gender. Any skill listed is a cultural skill and starts at the indicated skill level (a weapon listed as -2 is no better but is still a cultural weapon which can be of significance later). Also listed is a personality trait which the character gets on a roll of 1-7 on D10.

Background Keyword Non-Standard

Re-roll any result which is the same as the standard background or doesn't make sense because of gender/culture e.g. in Pelorian culture men can't be wives but with the appearance of the Lunar Empire women can be in male roles. In Orlanthi culture men and women can swap roles.

Bonuses from Background Keyword

All these are increases to the basic skills gained and those gained from the cultural keyword. Some skills are listed in () and are increased to this value if currently below. Other skills show an increase from current value. Without a Talent in a skill it can't reach +2 so +1 is the maximum. A character can't take both options it is either an increase to the value in () or the increase not both in each skill. This is usually the profession the character took up as part of his/her family, as an apprentice or other trainee.

Runes

If a character already has some standard runes they need to be fitted in as Soul (must be an element, light or a moon phase), Power (must be a power or a beast rune) and as a Being rune. Roll randomly for the others. Re-roll opposites automatically unless the character has a moon phase and re-roll any that match the standard rune that the character didn't get. Also re-roll duplicates. Runes list some skills that a character gets unless s/he already has a better value in them. If a character has suffered a permanent -1 on a rune (as a result of returning from the dead) it costs 4 XP to remove it.

The character will have each soul trait on 1-6 on D10.

Rune Cults

The following is a list of Rune Cults that a character could be a member of. A player can choose to join one of these cults if s/he meets the requirement for membership of the type required. Some cults list special requirements. If in brackets it is not an actual requirement but failing to meet it would make a character be unusual. Some cults list skills which are gained at 0 if the character becomes an initiate and doesn't currently have a better skill. Some cults have sub-cults which can be worshipped only to members of the main cult. These give a limited range of abilities and list a rune the character must have to join the sub-cult. Some of these sub-cults are also listed separately have separate rows because a character can join them as their own separate cult or as an allied cult as well as a sub-cult e.g. from Orlanth/Mastakos, Orlanth/Barntar.

Pantheon Worship/Lay Members

Characters usually broadly worship their pantheon of deities taking part in general holy days and festivals as a minor participant or audience member. This has no particular cost or benefit and is parts of the Customs of their culture.

Common Religion

A common religion can easily be added to other religions or pantheons. For example Pavis can be worshipped as a lay member by anyone who lives in the city and Dormal is offered a form of worship by all sailors. This is just part of the customs of the culture of areas and of professions.

Spirit Tradition

If a cult is listed as a spirit tradition then the character can join that spirit tradition for 1 XP without matching any runes. Membership of a spirit tradition give 5% of their wealth to support the shamans of the tradition. They are busy on 5 special holy days of the tradition each year as well as pretty much the whole of sacred time (this is 6% of the year).

Spirit Society

If a cult is listed as spirit society then the character can join the spirit society if s/he has the spirit rune or a dying moon rune and is either an initiate of a cult which is also a spirit society or is a member of a spirit tradition which can include that spirit. The row called 'Local Spirit' represents the minor local spirits associated with landscape features in a region. With the agreement of the referee a character can contact these as though they are spirit societies. Give the local spirit a suitable name and a rune. Joining each spirit society requires 2 XP. The character can write the spirit society and its runes after the spirit or dying moon rune and use them. The character gets the Community relationship with the Spirit Society and such backing as it can give him/her. Membership of each spirit society requires 10% of the character's wealth to support the society and its shamans. A local spirit only requires 5% of wealth but there is no real community benefits as they tend to have no organised society. Both spirit societies and local spirits requires additional time beyond that of the tradition amounting to 5% of available time each week. A member of a spirit society can create and recreate his/her own charms and bind and rebind spirits.

Spirit Ally

Spirit Allies are local spirits which can become allies of a Spirit Society Member. They provide a single spirit. They can only be contacted at a particular time and/or location. Some examples are listed for the Praxian Tradition. Gaining a spirit ally costs 1 XP which also makes the associated spirit function available to be gained with a Bind Spirit.

Shaman

A character who is a member of a Spirit Society can become a shaman by impressing the other members by rolling spirit or other rune of the society getting 12+. Also the character must usually have an impressive array of spirits and good standing with the cult. Usually the test to become a shaman is possible once per season. Becoming a shaman costs 4 XP. The shaman spends 40% of available time working as a shaman. In return the shaman gets support from those s/he provides charms and services to. A shaman gains a fetch which is a spirit companion (which constantly reports back to him/her on events in the spirit world and guards his/her body when disincorporate) and can have spirit allies. A shaman can also create charms to be used by others.

Initiate

A character can choose to be an initiate of a minor rune cult, rune cult, ancient moon goddess, lunar new god, or the lunar goddess. If becoming an initiate of an ancient moon goddess the character can choose to approach the cult in the traditional or modern lunar manner. If approaching in the traditional manner use the runes before the /. A character can initiate to a number of allied rune cults. To initiate the character must have at least one rune that matches the cult. A character can replace a ☉ rune with a ☾ rune to join a cult. Also a character can replace a rune with a moon phase that embodies it in order to join a cult. The character gets the

Community relationship with the Rune Cult and such backing as it can give him/her. Cost of membership depends on how many runes the character approaches the cult through (matches). When approaching a cult through less runes than available the character is joining an aspect of the whole. Some cults have sub-cults which can only be joined as part of the larger cult which give limited additional powers. Some sub-cults can also be joined in full or as an allied cult and thus have a different row as well. An initiate will be busy for 5 holy days each year and for pretty much the whole of Sacred Time (about 6% of the year). An initiate usually spends about 2-4 hours a week at the temple or shrine mostly on one special day each week (the time is greater if the initiate is a member of an important cult, many aspects of a cult or joins sub-cults). An initiate of several cults will attend the holy days and weekly ceremonies of both. S/he also still attends normal festivals on the pantheon.

- Minor Cult, Sub-Cult of a Cult: 3% of the character's wealth, 1 XP.
- Lunar New God, Ancient Moon Goddess worshipped in the Modern Lunar Way:
 - 10% of the character's wealth, 4 XP.
- Rune Cult, Ancient Moon Goddess worshipped in the Traditional Manner.
 - Two runes: 5% of the character's wealth, 3 XP.
 - One rune: 5% of the character's wealth, 2 XP.
- Major Rune Cult
 - Three runes or 2 runes one of which is doubled: 15% wealth, 5 XP.
 - Two runes or 1 doubled rune: 10% of the character's wealth, 4 XP.
 - One rune not doubled: 5% of the character's wealth, 2 XP.
- Greater Rune Cult:
 - Three runes (including a doubled rune): 20% of the character's wealth, 7 XP.
 - Two runes including a doubled rune: 20% of the character's wealth, 5 XP.
 - Two runes not including a doubled rune or just a doubled rune: 10% of the character's wealth, 4 XP.
 - One rune not doubled: 5% of the character's wealth, 2 XP.
- Lunar Goddess:
 - 20% of the character's wealth, 6 XP.

Life Stage Cults

Some cults are associated with women's life stages – girl/maiden/adolescent (1), wife/mother/adult (2) and elder (3). A woman can move from one such cult to the next as her status changes with no reprisals paying only any extra SP, rather than all, required for the change. Rune or Glamour Points transfer over. Any magic functions already known can be retained or swapped for functions available to the new cult. Almost always these transfers will be within the local tradition e.g. Solar Pantheon, Lunar Pantheon, Storm Pantheon but variation is possible especially amongst earth cults from different regions and between earth or solar cults and lunar cults. It isn't compulsory to move along this path.

Illumination

Occasionally a character may be illuminated at the start of play. A Natural is illuminated because s/he started with the Black Moon Phase. The character has a ☾ (full moon phase) followed by an ∞ and then his/her moon phase and the black moon phase ●. Other characters can start as illuminated if the character can roll 10+ on any rune including another moon phase (a character would have at least D10 in that rune). If someone is illuminated from the Chaos rune roll D10. On 4+ add an ∞ and a black moon ● and a random moon phase. Any other illuminate just adds the ∞ rune. An illuminate subtracts 3 from the save for each Personality Trait. It is possible to be illuminated once play begins through instruction or circumstances but this is a different process.

Devotees

A character who is already an initiate of a minor rune cult, rune cult, ancient moon goddess, lunar new god or the lunar goddess can try to become a devotee of a cult. The character must roll one of the runes through which s/he approaches the cult and get 12+. Also a devotee must have a good standing in the cult, a good array of magic and often other requirements according to the cult. Usually the test to become a devotee is

possible once per season. The character must give up charms if he is a devotee of a Rune Cult but his/her feats are more powerful. The devotee can't be an initiate of other cults except sub-cults. Many devotees work full time for their cults as priests or rune lords in which case they are supported by the cult. Devotees of some cults gain a companion daemon, spirit or similar bound into something depending on the cult. A devotee spends the whole of a special day each week at the temple or shrine and spends another day each week on cult business (or much more if they work as a priest or rune lord). Cost in XP is in addition to that for initiate. The cost in wealth is twice that for an initiate:

- Minor Cult: 1 XP.
- Lunar New God, Ancient Moon Goddess worshipped in the Modern Lunar Way:
 - 4 XP.
- Rune Cult, Ancient Moon Goddess worshipped in the Traditional Manner.
 - Two runes: 3 XP.
 - One rune: 2 XP.
- Major Rune Cult, Lunar New God, Ancient Moon Goddess worshipped in the Modern Lunar Way:
 - Three runes or 2 runes one of which is doubled: 5 XP.
 - Two runes or 1 doubled rune: 4 XP.
 - One rune not doubled: 2 XP.
- Great Rune Cult, Lunar Goddess:
 - Three runes (including a doubled rune): 7 XP.
 - Two runes including a doubled rune: 6 XP.
 - Two runes not including a doubled rune or just a doubled rune: 24 XP.
 - One rune not doubled: 2 XP.
- Lunar Goddess:
 - 6 XP.

Sorcery School

For the Sorcery Schools listed a character can be a member if s/he has one of its runes or the Law runes and Literacy and Knowledge -1 or more. Membership costs 15% of the character's wealth and 4 XP. The sorcerer spends a day a week at the school, preparing and researching spells.

Independent Sorcerer

A character with the Law rune and Literacy and Knowledge -1 or more who isn't a member of any Rune Cult can be an independent sorcerer for 4 XP. The sorcerer spends a day a week preparing and researching spells. The character spends 5% of his/her wealth on magical materials.

Lunar Sorcerer

A character with a moon phase rune who is a member of a New Lunar God or an Ancient Moon Goddess approached in the modern Lunar manner can be a Lunar sorcerer if s/he has Literacy and Knowledge -1 or more. This costs 4 XP. The sorcerer spends a day a week preparing and researching spells. There is no additional cost in wealth.

Starting Magic

Common Magic

A character can have common magic abilities associated with his/her runes. A character starts with 2D6 P1 common magic abilities taken from his/her runes. S/he can choose which ones. A character can also spend 1 XP and subtract 20L from starting money (minimum 10L) for each extra Common Magic function s/he would like.

Charms

A character who is a member of a spirit tradition will have 2D6 Charms. For each charm choose a rune and a function from that rune. Half rounded up will have a value of D6 and the rest D8. In total a character cannot

have more than 6 charms. The charms can be taken from those available to the Spirit Tradition or Spirit Societies that the character has joined. A Local Spirit will be able to provide D4 charms associated with its rune – agree which ones with the referee. Characters who are a member of a spirit tradition can fairly easily gain or replace charms that are part of that tradition.

Spirits

A character who is a member of a Spirit Society will have D3 Spirits from that society. Choose a function from those available to it. Starting spirits have the same value as the character's spirit rune. A Local Spirit will be able to provide D3 spirits associated with its rune – agree which ones with the referee.

Glamours

A character who is an initiate of a lunar new god or an ancient moon goddess approached through the modern lunar way and who has a moon phase can is able to create glamours. To do so s/he must buy at least 1 Glamour Point (described in more detail in the Magic section) for 3 XP each. S/he gets all the augments available and can choose 2D6 other glamours plus 1 per Glamour Point bought.

Spells

The following kinds of characters can use spells:

- A Lunar Sorcerer.
- A member of a Sorcery School.
- An independent sorcerer.

Characters who are Lunar Sorcerers or Members of Sorcery Schools have access to the grimoires available to their cult or school. An independent sorcerer has to discover his/her own spells. Each sorcerer begins with D2 grimoires each associated with a single rune and will have 2D6 spells divided between them. An independent sorcerer chooses any rune/s and spells. Other sorcerers pick from those available to their cult (if it has only one grimoire than the character can only have that). A character can buy a new grimoire for 4 XP and a new spell for 1 XP.

Rune Magic

A character who is an initiate of a rune cult, lunar new god or ancient moon goddess is able to acquire the rune magic of the cult. A character can buy Rune Points (described in more detail in the Magic Section) to allow using Rune Magic. Each point costs 3 XP. If s/he has any points s/he will start with 2D6 rune magic functions plus 1 per Rune Point bought. They can be chosen from any cult or sub-cult of which s/he is an initiate or devotee.

Chaos Magic

A character with the Chaos rune or is an initiate of a lunar new god and has a moon phase can use Chaos magic.

Job Until Now

This represents what the character has been doing in Pavis or on the way to Pavis just before joining the group. This is what brought him/her into the position of becoming an adventurer. Some skills are shown in brackets and this level is reached unless the character is already better at it. Others show increases to skills. A character can't take both the increase and number in () minimum in the same skill. Without a Talent in a skill it can't reach +2 so +1 is the maximum.

Starting Equipment

Each character starts with one weapon plus up to two more that s/he has at least 0 skill or if it's a thrown weapon or a weapon which can be thrown then two of them. S/he also has one set of common clothing, a cloak and some kind of head covering. S/he will have a belt with a pouch and a scabbard for a sidearm if s/he has one and a pack or bag containing a few personal items such as a comb, a bowl, a spoon, a little cult statue, a small memento of home, some kind of firestarter and a blanket. If the character's Job Until Now had at least Riding (0) then the character will have a mount of an appropriate kind on 1-7 on D10. It will be a cavalry mount if the character came from a profession that could fight from a mount. Equipment will be bronze as even stone age Praxians have had prior experience outside Prax.

Wealth

Roll for starting wealth on this table adding any bonuses received so far. Some of this wealth can be spent in advance on extra equipment:

| D6 | Wealth |
|------------|--------|
| 1 or fewer | 3L |
| 2 | 10L |
| 3 | 30L |
| 4 | 50L |
| 5 | 100L |
| 6 | 200L |
| Each +1 | +100L |

Character Concept

This is a description of the character made up of two keywords. These keywords are free. E.g. Loyal Mercenary, Haughty Priestess, Cunning Tomb-robber etc.

Game System

Modifiers

Modifiers such as +1 or -1 change a D used up or down e.g. D6 with a modifier of +1 is D8. A modifier will state which dice it applies to e.g. a skill or rune.

Rolls

A roll is when a player throws all the dice applicable to an action and then takes the highest number shown on any of them as the roll. E.g. a player as a rolls a 4 and a 5. The roll is 5. The active character can spend one HP after the roll to replace one dice by rolling another 2 higher than it would have been. If this is done this dice

replaces that dice completely for this roll only. E.g. Olagwa is attempting a skill roll on a D10 and rolls a 1. He can spend a HP to roll again on a D14 but must accept the second roll.

Bonus and Penalties

These are applied to a roll to get a result so a penalty of 1 would subtract 1 from the roll and a bonus of 1 would add 1 to the roll. E.g. a roll comes up 5 but there is a penalty of 1 the result is 4. A bonus of 1 is written B1 and a Penalty of 1 is written P1.

Resistance

Sometimes instead of rolling an average is used when resisting. When this happens this is the average for the dice modified by Bonusses and Penalties. If there would be more than one D (because of magic for example) then each extra D adds 1. The following resistances are use in the game:

Wound Number = Average Health (Resist Damage).

Stand Fast = Average Athletics (Stand Fast).

Weapon or Shield Resist = Average Weapon Parry Damage.

Magic on a Passive Target = Average Difficulty.

A Passive target for magic is the character, the character's property, an ally or an ally's property.

Tests

Tests are one off results for things that happen quickly. The active individual makes a **Roll**. The highest number on any dice is the roll. Add any bonuses to the final result and subtract any penalties to determine the **Result**. If the **Result** is lower than 2 then the outcome is a **Major Failure** and the resisting individual or thing makes no roll to resist. A resisting individual can, instead of rolling, always choose to resist with a result of **3**. This would normally be done by individuals with low resistances (e.g. D3, D4).

If the outcome isn't already a Major Failure the resisting individual or thing makes **Roll** and determines a **Result**. Compare the result of active roll with the result of the resisting roll:

- If the active result is double the resisting or better it is a **Major Success**.
- If the active result is greater than the resisting result it is a **Success**.
- If the results are the same it is a **Draw**. In a test this is a **Success** for the active side unless listed as otherwise.
- If the resisting result is greater than the active result it is a **Failure**.
- If the resisting result is double the active result or better it is a **Major Failure**.

Trying Again in Tests

If a test is failed usually it can be attempted a second time after accepting any consequences for the failure and after a delay to decide what went wrong. The referee decides the delay required. Another try is not allowed after a Major Failure without spending a HP. A third attempt is only allowed by spending a HP and not at all if the second attempt was a Major Failure. After this no more attempts are allowed – the test is beyond the character. An exception is if the test is straightforward (D6 or lower difficult and the referee decides it is uncomplicated). In this case attempts are always allowed again after a delay. Some obstacles are like this such as climbing a low wall, a rope, scrambling up a slope etc. the referee can decide the characters will generally be able to do this though it may take some time. All combat tests such as rolls to hit etc. can be tried any number of times.

Tasks

These are longer continuous problems that may swing either way. They can be conducted by individuals or groups either against another individual or group or some environmental effect. They consist of a number of tests. The task continues until either side gets a **Major Success** at which point that side won the task. On a **Success** the other side loses 1D if they have more than one or reduces their D by 1 if they have only one. When multiple individuals are present one individual gets knocked out of the task per failure until only one is left. On a **Draw** both sides count as having a success (so both lose a D or are reduced) unless this would result in both having no dice. A Task is trying to deal with the whole of the problem so a second attempt is not allowed.

Saves

A save is always made on a D10 and requires a certain number to be rolled or higher.

Encumbrance

To determine any penalty for encumbrance consider what the character is carrying.

- Any penalty for wearing armour is shown on the armour table.
- There is a penalty for a Large Shield being carried either in hand or slung on the back shown on the weapon table.

Beyond this objects are classified as Big, Medium or Small and have an Encumbrance number (Enc):

| Big Items (3 ENC) | Medium Items (2 ENC) | Small Items (1 ENC) | 0 ENC Items |
|--|---|--|--|
| Composite Bow with bow case and arrows 3-7 JLS 4-5 Throwsticks Heavy Weapon (2H) Large Shield Backpack (and contents) | Self Bow with arrows and quiver Crossbow with bolts and quiver Heavy Weapon (1H or 1-2H) 4-6 Bolas Small Shield 2 JLS 2-3 Throwsticks Satchel (and contents) | Up to 3 Bolas Other Weapons (not Heavy or Bows) | Within reason knives, daggers, a belt pouch and contents |

A character is encumbered as follows:

- Light = Up to 7 ENC. No more than one Big Item.
- Medium = Up to 10 ENC. No more than two Big Items.
- Heavy = more than this (up to the maximum weight the character can carry).

The penalties for Encumbrance Are:

| Encumbrance | Penalties |
|-------------|--|
| Light | None |
| Medium | Gymnastics P1, Stealth P1, Swimming P2 |
| Heavy | Running P1, Gymnastics P2, Stealth P2, Swimming P3 |

It is usual practice to pile up baggage before combat whenever possible or keep it on a pack animal. This has the disadvantage that it is usually lost in a retreat.

Combat System

Time and Space

A square is 1.5m by 1.5m. A cube is 1.5m x 1.5m x 1.5m. A turn is about 10 seconds.

Size

A character normally has 0 size but work out size using total size is Large - Small. Other creatures can be of various sizes. Space is the number of squares the creature takes up. A humanoid standing up will have the largest dimension vertically but quadrupeds for example have length as the largest dimension. A creature doesn't take up the whole of each cube necessarily – they are just overlapping the space. The modifiers listed will reduce the Dice of skill until D3 and then each further modifier is P1. Increases will increase the Dice of skills until D30 and then give B1 each. Modifiers to Health (Resist Damage) are reversed (e.g. positive to negative) against falling.

| Size | Per Point | Space (Cubes) | Example |
|------|---|-------------------|---|
| -4 | -2 Athletics, -2 Health (Resist Damage), -2 Running, +4 Gymnastics (Dodge), +4 Stealth | 1 i.e. 1 x 1 x 1 | Pixie, Rubble Runner |
| -3 | -2 Athletics (Damage, Strength, Stand Firm), -1 Athletics (Other), -2 Health (Resist Damage), -1 Running, +3 Gymnastics (Dodge), +3 Stealth | 1 i.e. 1 x 1 x 1 | |
| -2 | -1 Athletics, -1 Health (Resist Damage), +2 Gymnastics (Dodge), -1 Running, +1 Gymnastics (Other), +2 Stealth | 1 i.e. 1 x 1 x 1 | Trollkin, Pygmy, Mostali, Crested Dragonewt, Newtling, Runner |
| -1 | -1 Athletics (Damage), -1 Athletics (Stand Firm), -1 Health (Resist Damage), +1 Gymnastics, -1 Running, +1 Stealth | 2 i.e. 1 x 1 x 2 | Wolf, Elf |
| 0 | No modifiers | 2 i.e. 1 x 1 x 2 | Human, Impala, Broo |
| 1 | +1 Athletics (Damage), +1 Athletics (Stand Firm), +1 Health (Resist Damage), -1 Gymnastics (Dodge Missile), -1 Stealth | 2 i.e. 1 x 1 x 2 | Lion, Dark Troll, Beaked Dragonewt, Morakanth, Scorpion Man |
| 2 | +2 Athletics (Damage), +1 Athletics (Stand Firm), +1 Health (Resist Damage), -1 Gymnastics (Dodge Missile), -1 Stealth | 2 i.e. 1 x 1 x 2 | Sakkar, Horse, Zebra, Sable, Great Troll, Cave Troll |
| 3 | +2 Athletics (Damage), +1 Athletics (Stand Firm), +1 Health (Resist Damage), -2 Gymnastics (Dodge Missile), -1 Stealth | 3 i.e. 1 x 1 x 3 | |
| 4 | +3 Athletics (Damage), +2 Athletics (Stand Firm), +2 Health (Resist Damage), -2 Gymnastics (Dodge Missile), -2 Stealth | 3 i.e. 1 x 1 x 3 | |
| 5 | +3 Athletics (Damage), +2 Athletics (Stand Firm), +2 Health (Resist Damage), -3 Gymnastics (Dodge Missile), -2 Stealth | 4 e.g. 1 x 2 x 2 | High Llama |
| 6 | +4 Athletics (Damage), +2 Athletics (Stand Firm), +2 Health (Resist Damage), -3 Gymnastics (Dodge Missile), -2 Stealth | 4 e.g. 1 x 1 x 4 | |
| 7 | +4 Athletics (Damage), +3 Athletics (Stand Firm), +3 Health (Resist Damage), -3 Gymnastics (Dodge Missile), -3 Stealth. Massive Damage. | 5 e.g. 1 x 1 x 5 | Bison |
| 8 | +5 Athletics (Damage), +3 Athletics (Stand Firm), +3 Health (Resist Damage), -4 Gymnastics (Dodge Missile), -3 Stealth. Massive Damage. | 12 e.g. 2 x 2 x 3 | Rhino |
| 9 | +5 Athletics (Damage), +4 Athletics (Stand Firm), +3 Health (Resist Damage), -4 Gymnastics (Dodge Missile), -3 Stealth. Massive Damage. | 16 e.g. 2 x 2 x 4 | |

| Size | Per Point | Space (Cubes) | Example |
|------|---|--------------------|--------------|
| 10 | +6 Athletics (Damage), +4 Athletics (Stand Firm), +4 Health (Resist Damage), -4 Gymnastics (Dodge Missile), -4 Stealth. Massive Damage. | 20 e.g. 2 x 2 x 5 | Allosaurus |
| 11 | +6 Athletics (Damage), +5 Athletics (Stand Firm), +4 Health (Resist Damage), -5 Gymnastics (Dodge Missile), -4 Stealth. Massive Damage. | 24 e.g. 2 x 2 x 6 | |
| 12 | +6 Athletics (Damage), +5 Athletics (Stand Firm), +4 Health (Resist Damage), -5 Gymnastics (Dodge Missile), -4 Stealth. Massive Damage. | 36 e.g. 3 x 3 x 4 | |
| 13 | +7 Athletics (Damage), +6 Athletics (Stand Firm), +5 Health (Resist Damage), -5 Gymnastics (Dodge Missile), -5 Stealth. Massive Damage. | 45 e.g. 3 x 3 x 5 | Triceratops |
| 14 | +7 Athletics (Damage), +6 Athletics (Stand Firm), +5 Health (Resist Damage), -5 Gymnastics (Dodge Missile), -5 Stealth. Massive Damage. | 54 e.g. 3 x 3 x 6 | |
| 15 | +7 Athletics (Damage), +7 Athletics (Stand Firm), +5 Health (Resist Damage), -6 Gymnastics (Dodge Missile), -6 Stealth. Massive Damage. | 63 e.g. 3 x 3 x 7 | |
| 16 | +7 Athletics (Damage), +7 Athletics (Stand Firm), +6 Health (Resist Damage), -6 Gymnastics (Dodge Missile), -6 Stealth. Massive Damage. | 80 e.g. 4 x 4 x 5 | |
| 17 | +8 Athletics (Damage), +8 Athletics (Stand Firm), +6 Health (Resist Damage), -6 Gymnastics (Dodge Missile), -6 Stealth. Massive Damage. | 96 e.g. 4 x 4 x 6 | |
| 18 | +8 Athletics (Damage), +8 Athletics (Stand Firm), +6 Health (Resist Damage), -6 Gymnastics (Dodge Missile), -7 Stealth. Massive Damage. | 112 e.g. 4 x 4 x 7 | Brontosaurus |
| 19 | +8 Athletics (Damage), +9 Athletics (Stand Firm), +7 Health (Resist Damage), -7 Gymnastics (Dodge Missile), -7 Stealth. Massive Damage. | 128 e.g. 4 x 4 x 8 | |
| 20 | +8 Athletics (Damage), +8 Athletics (Stand Firm), +6 Health (Resist Damage), -6 Gymnastics (Dodge Missile), -6 Stealth. Massive Damage. | 150 e.g. 5 x 5 x 6 | |

Ambush

If one side is aware of the other and is hidden an ambush may occur. Roll the worst Stealth of the ambusher's vs the best Perception of the targets. On a draw or success the ambushers automatically win the initiative. On a success the ambushed side loses 1 action and on a major success 2 actions on the first turn.

Initiative

If an ambush hasn't decided the initiative the leader of each side rolls Tactics vs Tactics. On a success that side chooses to go first or second. On a major success the other side loses 1 action.

Turns and Actions

Each side gets one turn and then the other side gets one turn. A turn for both sides is 10 seconds. Each individual gets 2 actions per turn. An action can be used to do the following:

| |
|---|
| No more than once per turn attack a target including loading a bow with an arrow in hand or use magic on something other than self or a carried or worn object. |
| Get out an item (including a JLS, arrow or bolt) |
| Leadership Action (B) |
| Load a crossbow (with bolt in hand) |
| Move (B) |

| |
|---|
| Pick something up |
| Put away an item |
| No more than once per turn Recover |
| Stand Up |
| Tactics Action (B) |
| Use magic on self or a carried or worn object |
| Resist a Grapple |

Dropping an item doesn't take an action. In addition a character can use Bonus Action Magic once per turn immediately before or after any action marked (B) as long as the magical function targets him/herself or something s/he is wearing or carrying.

Sequence Within a Turn

In general, the referee should decide which is each side's board edge – usually the side they entered from. Each individual on the side whose turn it is takes actions, including any bonus actions or Follow Up Attacks (see later), starting from the rightmost figure from their board edge and working left. Where two figures are equally positioned left to right then the figure furthest forward act first then the next furthest forward and so on. A Tactics action can change this sequence.

Reaction Magic

Any Bonus Action Magic which would help resist something that happens to a character in someone else's action can be cast as a Reaction. A Reaction does not require or use any Actions. Examples would be bonus magic which protects the character in some way such as Boost Armour in response to getting hit, Augment that includes Parry in response to an attack against the character or an Augment that includes Bravery if a Fear resistance is required.

Spotting, Detecting and Concealment

Figures have different targeting Senses listed in the section below. If a target isn't Concealed a figure automatically spots targets in Line of Sight (LOS) and can target them for actions. A target can be Concealed by the light level, smoke or fog, concealing terrain, cover or using certain magic. If a figure is Concealed it can use Stealth to avoid being spotted. In this case the spotting figure must roll Perception vs Stealth and get at least a Draw or it cannot spot the target. Add the total Bonus provided by Concealment to the stealth rolls. Examples of Concealment are shown below. A target must be spotted to take a targeted action against it from more than range 1. To move towards or place a target within an area ability a figure must detect broadly where the target is. To do this a figure can use a non-Targeting sense such as hearing or tracking scent or detection magic. The referee can also decide that it is possible to use an area or move towards the last location where the target was last detected if it seems appropriate.

Light Levels

These affect senses and may provide Concealment. They are:

Light: Light Dominates Darkness. Sunlight or a brightly lit area.

Twilight: Darkness and Light are in conflict such as dawn, dusk, firelight, candlelit or torchlight. Lights have a limited range of effect. Night under the Full or Half Moons.

Night: Darkness dominates Light. Night under the stars or Crescent Moon.

Darkness: no Light. Underground or in a sealed room with no artificial light.

Fog or Smoke

Affect Senses and may provide Concealment. Can be haze or fog.

Concealing Terrain

Things like undergrowth can be Light or Heavy and may provide Concealment.

Cover

Can provide Concealment – Partial Cover hides 50-75% of the target and full cover 76%-99%. Complete cover is beyond Concealment as it means the target is not in LOS.

Magic

The Concealment of magic is listed for each ability.

Targeting Senses

All creatures have the sense Vision which can be used for targeted actions unless listed as Blind. Some creatures have other senses listed and some abilities grant other senses. Senses use the Perception skill. Concealment values are listed for each sense in certain circumstance. Where a range (R) is listed there is no Concealment up to this range from spotter to target and then it increases by 1 for each multiple of the range. E.g. if R5 then there is no Concealment at 0-5, 1 at 6-10 and so on. Total up all the Concealment e.g., if using vision at night against a target in light terrain at range 10 the Concealment is 2+1 = 3.

| Sense | Function |
|---------------|---|
| Vision | Normal vision. Needs light. |
| Night Vision | Normal vision adapted to low light. Not good at seeing colour. |
| Dark Sense | A kind of echolocation. Doesn't detect colours is. |
| Earth Sense | Sensing air movements, earth masses etc. Doesn't detect colour or details. |
| Magical Sense | Senses the power of things living and non-living. Can see the runes and the power of runes of things. Provides little detail of the physical world. Unaffected by light levels, fog or smoke. |

| Light Levels | | | | |
|--------------|-------|----------|-------|----------|
| Sense | Light | Twilight | Night | Darkness |
| Vision | LOS | R10 | R4 | No LOS |
| Night Vision | R5 | R20 | R8 | No LOS |

| Sense | Partial | Full |
| Vision | R15 | R8 |
| Night Vision | R15 | R8 |
| Dark Sense | R8 | R3 |
| Earth Sense | - | - |

Non-Targeting Senses

Creatures are assumed to have hearing as a non-targeting sense unless listed as Deaf. Others can have tracking scent. To detect the approximate location of a target using hearing is automatic if in a fairly quiet environment in which the target isn't trying to be quiet (e.g. calling out its location or making lots of noise). Otherwise a Perception roll is required against the target's Stealth if it is trying not to give away its location. The referee can impose penalties as follows to Perception:

- Noisy environment such as a fight: P2
- Range 10-19: P1, 20-29 P2 etc.

If using tracking scent use Perception against a D6 with the following penalties:

- Light wind blowing the scent away P2 unless a trail leads from within 1 square to the target and following the trail
- Strong wind blowing the scent away P5 unless a trail leads from within 1 square to the target and following the trail
- Target doesn't smell strongly (e.g. a non-living thing) P2
- Range 50-99 P1, 100-149 P2 etc.

Weapons and Attacks

A character is allowed an item in each hand or a two-handed weapon in both. The off-hand is at -1 weapon skill (for a sensible off-hand weapon -2 or more for others) unless using a shield or just a hand attack. A Small Shield can be used with a two-handed spear but at -1 shield skill. A Small Shield can also be used with a sling at no penalty even though a sling is otherwise two handed. Sometimes a character has more than two hands. In this case one extra hand can attack as part of the same attack action (with an off-hand penalty) but still only one hand can parry at a time. Those attacks marked ✱ are possessed by all humanoids. Those marked ▼ are possessed by certain creatures and are listed amongst their abilities. Others are held weapons.

| Weapon | Range | Attack | Parry | Damage | Save | Special |
|-------------------|-------|--------|-------|--------|------|--|
| 1-2H Weapon in 2H | | B1 | B2 | +1 | | Modifier to normal weapon stats when in two hands e.g. P1 with B2 would be B1. |
| Bash | 1 | 0 | N/A | P1 | N/A | Unarmed. ▼ |
| Bastard Sword | 1 | 0 | P1 | B1 | 4+ | Sword. 1-2H, Cut and Thrust, Heavy |
| Battle Axe | 1 | 0 | P3 | B1 | 6+ | Axe. 1-2H, AP1, Heavy |
| Bolas | T20 | P1 | N/A | N/A | 7+ | Bolas. If the attack gets a draw or success and target moved last turn it falls down. Removing the bolas requires an action and a successful test using either Athletics or Gymnastics. Difficulty is D6 against a successful hit or D8 against a major success. Difficulty is +2 for creatures without hands. |

Any Weapon Skill: the ability can be used with any weapon skill (and that weapon) or with unarmed.

Attack: modifier to weapon skill.

APn: if the weapon damage would fail to equal or exceed resistance against a target in Medium+ armour add up to n to the result but only so as to equal resistance (in other words more likely to cause a single Hurt against an armoured target). AP -1 means that the attack does no damage on a draw with resistance (usually only weaker materials against Heavy+ Armour).

Cut and Thrust: can be used to make a Stop Thrust and also can make a follow up attack with the same weapon.

Damage*: instead of normal damage this value is applied to Grapple, Push or Disarm as listed in Special.

Damage: a modifier to Athletics (Damage) skill to deliver Damage.

Disarm: weapon is better at disarming.

Heavy: only characters with Athletics Skill 0+, Weapon Skill 0+ and Athletics (Damage) D8+ can use these weapons. Small characters can't use them.

Inject Venom: if the attack causes a Hurt it also injects Venom into the target.

Parry: modifier to weapon skill.

Pierce: if the damage roll equals or exceeds the target's Health roll then add 2 to the result.

Push: weapon is better at a Push.

Ranged Parry: can parry ranged (missile or thrown) attacks.

Recoil n: add n to result to see if the target recoils.

Save: on a D10 to avoid breaking.

Skill Pn: when carrying this weapon these penalties apply to skills.

Thrust: can be used to make a Stop Thrust.

Trip: weapon is better at Trip.

Unarmed Skill: this ability uses the Unarmed skill.

The only two-handed weapons that can be used when mounted are Spear and Composite Bow plus a Self Bow dealing D8 damage or less.

Armour

Armour provides protection by increasing the character's skill when making Health rolls to resist damage.

Armour has a break save of 6+.

| Armour | Resist Damage | Gymnastics, Stealth | Running | Water Life (Swimming) | Examples |
|-------------|---------------|---------------------|---------|-----------------------|--|
| Light | B1 | 0 | 0 | -1 | Leather Lamellar Cuirass and Conical Helm or a Linen Cuirass and leather cap |
| Medium | +1 B1 | -1 | 0 | -2 | Linen Cuirass, Hard Leather Vambraces, Conical Helm |
| Heavy | +1 B2 | -2 | 0 | -4 | Metal Scale Hauberk or metal breastplate, Hard Leather Vambraces, Open Helm |
| Extra-Heavy | +2 B2 | -3 | -1 | -5 | Metal Cuirass, Full Helmet, Metal Greaves and Vambraces |

Materials for Weapons and Armour

Copper: When enchanted an axe made of copper has a 1 better save. Enchanted copper armour has a 1 better Gymnastics and Running modifier (no better than 0).

Gold: usually just gilded bronze rather than solid gold. A light magic cast on an enchanted gold item illuminates a one higher area. Enchanted gold weapons deal B1 to creatures tied to the Darkness rune (e.g Uz). A character wearing enchanted gold armour has B1 athletics to resist recoil.

Iron: doubles the number of Hurts caused by a weapon to Uz or Aldryami. Can damage creatures which are immune to normal weapons. Each unenchanted iron weapon makes it gives a -1 modifier to runes when casting magic and gives +1 to runes for resisting magic. Heavy unenchanted iron armour gives a -4 modifier to runes when casting magic and gives +4 to runes for resisting magic. Extra Heavy unenchanted iron armour gives a -7 modifier to runes when casting magic and gives +7 to runes for resisting magic. Enchanted iron weapons deal +1 damage. Enchanted iron swords have 1 better save. Enchanted iron armour proves +1 Armour and weapons other than those of enchanted iron have AP-1 against it.

Lead: an enacted lead mace or maul has Damage B1 and Recoil +1. A light mace becomes Heavy and a Heavy Mace or a Maul requires D10+ Athletics to use. Heavy or Extra-Heavy Armour has -1 Stealth instead of -3 but a wearer who is not Large has an addition -1 Gymnastics and Running.

Quicksilver (Aluminium): a flail or trident made of enchanted quicksilver can be use without penalty in water or underwater. Enchanted Quicksilver armour has no Water Life (Swimming) Penalty.

Silver: enchanted silver weapons deal damage to creatures immune to normal weapons. Enchanted silver armour protects the wearer against attacks which normally ignore armour.

Stone/Flint: weapons have AP-1.

Wood: weapons deal P1 damage and have AP-1.

Weapon Material

1. Hands, feet, flesh
2. Wood, Claws, Biters, Stingers and other natural weapons
3. Stone or Flint
4. Non-Enchanted rune metal other than iron
5. Bronze, enchanted rune metal and raw iron
6. Enchanted Iron

Harder (higher number) swords and daggers don't have to make a break save against softer materials when parrying.

Facing, Threat and Engaged

Each individual can face one square either orthogonally or diagonally. The square faced and those on either side are the individual's front and the figure's front extends directly outward from these. The squares directly behind the individual (one square for a 1 square individual) is the rear. Others are flanks. An individual threatens all squares to the front and in range of a melee attack. Each individual can engage one opponent in a threatened square. If there are opponents directly in front of the individual the closest is engaged, otherwise the closest opponent to the right front and finally the closest opponent to the left front. An individual's arc is the entire area 180 degree arc starting from the square/s immediately in front of it.

Move Action

The individual makes a Movement roll on 2D6 and moves the result modified by Running, Athletics and Gymnastics. Wearing Armour reduces skills and hence movement. Normal land creatures have B4 to Movement Running. Fast land creatures like riding animals and four legged predators have B8 when running. Flying animals have B12 when Flying. Non-aquatic bipeds have B1 when Swimming, aquatic creatures have B3 and other creatures no bonus. Movement must be either directly forward for 1 point per square, diagonally forward for 1.5 points per square or up to a 90 degree turn for 2 points (or 4 if for a fast 4 legged creature). Rough going costs x2 or x3 if mounted. A whole move action can be used to move 1 square in any direction maintaining the same facing. If an individual moves into a threatened square of an opponent and doesn't stop then they risk taking an **Opportunity Attack**. If an individual moves into a threatened square of an opponent who has a ready weapon with a Thrust action they risk taking a **Stop Thrust**.

Move Through

An individual can try to move through an opponent's square. This usually means moving through a threatened space unless approaching from the flank. The whole move must be in a straight line. The move through includes a Move Through attack as part of the same action. After the attack unless the move through hit or some other consequence stopped it the rest of the move continues to its conclusion.

Move By (Mounted)

An individual can try to move by an opponent's square. This usually means moving through a threatened space unless approaching from the flank. The user can make an attack at some point during the Move By and then the mount completes the move after the attack/attacks. When making a Move By only one attack is allowed per square which is adjacent to the enemy within the move so this restricts the number of Follow Ups allowed.

Tackle

An individual can end a move action with a grapple.

Response to a Move

If an individual starts a move in arc of an unengaged target and finishes its move outside the arc then the target can turn to face the mover if it wishes if it can detect the moving individual.

Attack Action with a Weapon or Unarmed

If a character is lying down then it can only attack at range 0 (Hand to Hand) or using a crossbow. The individual picks a target within range and rolls a simple test against the target using weapon skill. The target can choose to resist with a Parry or Dodge. A shield Parry can only be used to the Front or shielded Flank. A

weapon Parry can only be used to the Front or flank of the weapon hand. A Move Through can't be resisted with any Parry except using a shield. The following modifiers apply to the Weapon Skill of the attacker:

- With a melee attack per extra individual threatening the target who is not themselves engaged: B1
- Melee attack against a target attacker isn't engaging (an individual usually attacks the target it is engaging): P2
- Attacking from above in melee (uphill, higher upstairs, defending a wall, mounted vs foot): B1
- Attacking (at R1) against a target which isn't Spotted: P2
- Making a bow attack from a mount: P1 unless using Mounted Bow skill. P1 worse if the mount is moving.
- Making a spear attack from a mount: P1 unless using Mounted Spear skill.

The following modifiers apply to Parry or Dodge:

- Lying down: P2
- Attack came from the flank: P2
- Attack came from the rear: P3
- Opposing an attacker which isn't spotted: P2 and if also not Detected an additional P2.
- Shield or Weapon Parry against opponent on the opposite front (e.g. using a shield in the left hand to parry to the right front) P1.
- Parrying with a spear, sword or trident against a grapple B2.

Compare the results with the defence chosen by the defender. Some results are defined as hits but this can be cancelled by a later result (e.g. by the damage result).

Against a dodge:

- Major Success. The attack hits and the result is B2.
- Draw or Success. The attack hits.
- Failure. A melee attack misses if the target has the room and ability to move one square back and does so. A ranged attack misses if the target has the room and ability to move one square to either side of the attack and does so.
- Major Failure. The attack misses and the target can choose to move one square in any direction if it has the ability to.

Against a parry.

- Major Success. The attack hits and the result is B2.
- Draw or Success. The attack hits.
- Failure. The attack hits the weapon/shield. If parrying with hands this means the attack hits unless it was unarmed.
- Major Failure. The attack misses (is deflected – no damage roll) and the target can choose to move one square in any direction if it has the ability to do so.

Disarm Attack

Uses weapon or unarmed attack vs weapon parry.

- Major Success. The disarm hits and the result is B2.
- Draw or Success. The disarm hits.
- Failure. The disarm misses.
- Major Failure. The target countered and gets a disarm result against the attacker (if the attacker was using a weapon).

Attack Action with Magic

The effect of attacking with magic is lasted for the different magic abilities on the magic section.

Evade

A target in an area that is being attacked (for example by a physical agent) can evade using Gymnastics (Dodge) resisted by D6 +1 per square to reach the nearest square that is even partly outside the template. An evade is 1 easier against an opponent who is engaged (for example if an engaged opponent is knocked back into the target or an opponent attempts a move through from an engaged position).

- Major Success: target moves outside the area.
- Success or Draw: target can move outside the area. Unless the evade was against an engaged opponent then fall down.
- Failure: target is hit.
- Major Failure: target falls down and is hit.

Status Markers or Records

The status of an individual can be shown using markers or another record. The following status markers/records are possible. More than one different status stacks if possible but a character can't have two the same unless noted. All these can be repaired using healing magic but some can be removed in other ways as noted:

- Befuddled. Each action can only move in a random direction at half move. Wears off in 5 minutes. If the character is attacked the effect ends to the extent that s/he will assume that the attacker is an enemy as are those on its side.
- Blinded. The character cannot use Vision or Night Vision. Wears off after 12 turns (2 minutes) and the character is then Dazzled.
- Bound. The character can't move. Wears off after 5 minutes.
- Calmed. The character is P1 with any attack. Wears off after 5 minutes.
- Confused. At the start of each turn the character must save on 6+ or each action can only move in a random direction at half move. Wears off after 5 minutes. If the character is attacked the effect ends to the extent that s/he assumes the attacker and its allies are the enemy and can move and attack bearing this in mind.
- Dazed. The character is at P1 Arts, Craft, Customs, Healing, Knowledge, Persuasion, Stealth, Streetwise, Survival, Tactics, Water Life, Weapons and using Runes. Wears off in an hour.
- Dazzled. The character has P1 in Craft, Devices, Gymnastics, Healing, Perception, Running, Stealth, Survival and Weapons if targeted with Vision or Night Vision. Wears off after 12 turns (2 minutes).
- Disabled. The character can take no actions at all and lies on the floor unconscious unless a roll on the wound table has said otherwise. Can be treated with Healing (First Aid).
- Drained. The character is P2 Athletics, Health, Gymnastics, Running and Weapons. Wears off after 1 hour.
- Frightened: The character is P1 at Bravery, Weapon Attack and Movement if toward an enemy. Can be removed by Leadership and Oratory from another character otherwise wears off after 5 minutes of peace and quiet.
- Grappled. Individual can only act to resist the grapple or make an unarmed attack against the grappler at P2 attack and P2 damage.
- Grappling. Individual can only make an Unarmed Trip attack, other Unarmed attacks at P1 attack and damage, ready a R0 weapon which requires another grapple outcome roll or attack with an R0 weapon and can't take any other action without breaking the grapple.
- Hurt (-1 Health). An individual can have several of these. An individual whose Health dice is D1 is Disabled and must roll on the Wound Table. Recovers in 2 hours. Can be treated with Healing (First Aid).
- Pacified. The character can't attack. Wears off after 5 minutes or if the character is attacked by an enemy.
- Paralysed. The character stands absolutely still and takes no actions. No parry. S/he defends against physical attacks with a Dodge of 1. Wears off after 5 minutes.

- **Poisoned.** The character is P1 Athletics, Health, Gymnastics, Running and Weapons. Wears off after 12 hours.
- **Power Drained (-1 Magical Resistance).** An individual can have several of these. An individual with D1 in Magical Resistance is Disabled. At the end of each hour the character removes one Power Drain.
- **Routed.** The character must try to escape the situation and can't take any further actions to try to win. The character flees to the nearest reasonably safe place. Can be removed by Leadership and Oratory from another character otherwise wears off after 5 minutes of peace and quiet.
- **Slowed.** The characters running is -4. Wears off after 5 minutes.
- **Soul Blasted (-1 Runes).** An individual can have several of these. An individual with D1 in all runes is Disabled. At the end of each week the character removes one Soul Blasted.
- **Stunned.** Whilst an individual has a stun marker it can take no actions except to Recover. Recovery removes Stun after a variable period of time.
- **Stupefied.** The character is mindless. In each action s/he makes a half move in a random direction. S/he can't defend him/herself against physical attack and resists with 1 dodge and no parry. Wears off in an hour.
- **Weakened.** The character is P1 Athletics, Health, Gymnastics, Running and Weapons. Wears off after 1 hour.

Attack Results

Weapon Break or Drop

If any held weapon D result (the D without and Bonusses or Penalties – an Augment would mean both D must get 1) gets a 1 then a Break Save must be made or the weapon breaks. Using the same Save if it isn't 6+ the weapon is dropped.

Damage against an individual

Damage vs Health (Resist Damage) modified by Armour.

- **Catastrophic Damage (Triple).** If equal to or greater than Wound Number target drops to D1 Health and is Disabled. Possible recoil.
- **Major Success.** Target takes one Hurt plus one Hurt per multiple of Wound Number and is Stunned.*
- **Draw or Success.** Target is Hurt. Possible recoil.
- **Failure or Major Failure.** The target is unhurt. Possible recoil.

*E.g. against a target with a wound number of 4 then 3 hits would be 1 Hurt, 4 Hurts would be 2 hits and 8 hits would be 3 Hurts.

Damage against a shield parry

Shield Resist is its average damage and shields have a better value when resisting listed on the weapon table.

Weapon Damage vs Shield Resist.

- **Catastrophic Damage (Triple).** The attack goes through the shield with its damage reduced by 3. Unless it was a piercing attack the shield is broken. Possible recoil.
- **Major Success.** Using a spear or pike the weapon is stuck in the shield. The weapon and shield are useless until it is removed. Usually the shield is dropped and it will take 2 actions with the shield on the floor to pull it out. Against an arrow or bolt the arrow sticks in the shield – every 3 put the shield at P1 Skill. Against other weapons the shield must make a break save. Possible recoil.
- **Draw or Success.** Against a non-piercing attack the shield must make a break save at B2. Possible recoil.
- **Failure:** Possible recoil. Unless the target recoils this counts as a miss and stops Follow Up Attacks.
- **Major Failure:** the shield is undamaged and no recoil occurs. This counts as a miss for Follow Up Attacks.

Damage against a weapon

Weapon Resist is its average damage.

Weapon Damage vs Weapon Resist.

- Catastrophic Damage (Triple). If the attack was not Piercing and not from a lower hardness weapon then the parrying weapon must make a break save. Broken or not the parrying weapon is dropped. The damage is reduced by 3 and hits the target. Possible recoil.
- Major Success: If the attack was not Piercing and not from a lower hardness weapon then the parrying weapon must make a break save. The target must make save on 5+ or drop the weapon. Possible recoil.
- Draw or Success: The target must make save on 3+ or drop the weapon. Possible recoil.
- Failure: Possible recoil. Unless the target recoils this counts as a miss and stops Follow Up Attacks.
- Major Failure: No further consequences. No recoil occurs. This counts as a miss for Follow Up Attacks.

Recoil

The recoil result uses the same result as the damage modified by the Recoil of the weapon. It happens unless the damage result says it doesn't. Push actions just cause recoil. It is resisted by the target's Stand Firm (average Athletics (Stand Firm)). If the target is mounted adjust with Riding skill. E.g. a character with Riding (1) would have B1 to resist recoil when mounted. A target with Riding (-1) would have P1. Also a mounted target has B2 to resist recoil. If the target has an ally immediately behind it with a shield (forming a phalanx) then add B2 to resist. Four or more footed animals have B4 to resist recoil.

- Major Success: If on foot target recoils one square and falls down. If mounted target recoils one square falling off the mount and is Hurt. The attacker can move one square forward if it wishes and there is space to do so. Counts as a hit for allowing Follow Up Attacks.
- Draw or Success: Target recoils one square if on foot. If mounted the target falls off the mount in the same square and the mount moves 1 square away into an empty square if possible. The attacker can move one square forward if it wishes and there is space to do so. Counts as a hit for allowing Follow Up Attacks.
- Failure or Major Failure: No further consequences. No recoil occurs. Doesn't alter the current situation for Follow Up Attacks (if currently a Hit stays a Hit, if currently a Miss stays a Miss).

If the individual recoils into an object then the recoiling individual must make a Gymnastics test vs 4. If the result is a failure or major failure the individual falls over. If the recoiler hits another individual then that individual can choose to either:

- Evade the recoiler. If this fails resist the recoil.
- Resist the same recoil result with B2.
- If part of a phalanx (shielded and helped to resist the recoil) recoil 1 square with the whole file of the phalanx doing the same.

Disarm against a weapon or shield

Weapon Damage vs Weapon Resist.

- Major Success: Target must save on 8+ or target weapon is dropped. Target must save on 6+ or target shield is dropped.
- Draw or Success: Target must make save on 6+ target weapon is dropped. Target must save on 4+ or target shield is dropped.
- Failure or Major Failure: no effect. Counts a Miss for follow up attacks.

Trip

Athletics (Strength) vs either targets Athletics (Stand Firm) or Gymnastics.

- Major Success: The target falls down and is Hurt. If the attacker was Grappling breaks the grapple unless the attacker falls too.
- Draw or Success: The target falls down. If the attacker was Grappling breaks the grapple unless the attacker falls too.
- Failure or Major Failure: No further consequences. Counts a Miss for follow up attacks.

Move Through

Athletics (Damage) adjusted by Running vs Athletics (Stand Fast). When making or receiving a move through a character can lead or receive it with a large shield which will take any damage first. Some weapons can be used with a move through.

- Major Success: The target recoils one square and falls down. The target suffers damage equal to the Move Through but with no further recoil. Unless the attacker is mounted or is a 4+ footed creature it must make a Gymnastics test vs 4: and on a failure or major failure the attacker falls over in the same square as the target.
- Success: The target recoils one square and takes damage equal to the move through though with no further recoil and the attacker can follow up one square and then must stop.
- Draw or Failure: the attacker stops. Both take damage equal to the move through possibly with a recoil. Counts as a miss for follow up attacks unless the target recoils and the attacker doesn't.
- Major Failure: the attacker recoils, falls down, stops and takes damage equal to the move through though with no further recoil. Counts as a miss for follow up attacks.

Grapple Hits an Individual

Athletics (Strength) modified by Unarmed Skill vs Athletics (Strength) modified by Unarmed Skill as a Bonus or Penalty. If the grapple was the result of a Tackle the attacker always falls down but makes an immediate Trip attack on any success. If the target doesn't fall the grapple is broken.

- Major Success, Success or Draw: Target is Grappled.
- Failure or Major Failure: No further consequences.

Grappled targets can't take any actions except to resist the grapple or make unarmed attacks against the grappler at P2 attack and P2 damage until it is broken. Resisting a grapple requires the attacker make a grapple result roll again as above (i.e. the grappler is still the active side). Without breaking the grapple the grappler can make an Unarmed Trip attack (this will break the grapple if it knocks the target down unless the attacker falls too), make other Unarmed attacks at P1 attack and P1 damage, ready a range 0 weapon (this can't have been in hand when the grappled occurred because grapple requires 2H) but this requires another grapple result roll because the target could escape or attack with a R0 weapon.

Grapple Hits a Weapon or Shield

Athletics (Strength) adjusted by Unarmed Skill vs Athletics (Strength) adjusted by Weapon Skill. If the grapple was the result of a Tackle the attacker always falls down.

- Major Success: weapon is disarmed.
- Success: any weapon except a sword or shield is disarmed. A shield is held.
- Draw or Failure: weapon except a sword is held.
- Major Failure: No further consequences unless weapon is a sword. Against a sword the sword user rolls damage against the grappler.

If a weapon is held and the grappler chooses to keep hold then the target cannot use it whilst it is held. It can use an action to try to throw the grappler off which allows the grappler to roll again as above. The target can also get the grappler off by attacking with its other hand for example or its feet. The grappler can choose to roll again as above for an action. The grappler's dodge against the target is P2 and the grappler can't parry.

Acid

Resisted by Health modified by Armour.

- Catastrophic Damage (Triple Resistance). Target drops to D1 Health and is Disabled.
- Major Success. Target takes one Hurt per multiple of resistance and is Stunned. Armour makes a break save. Roll result again at the same point next turn.
- Draw or Success. Target is Hurt. Armour makes a break save at B2. Roll result again at the same point next turn.
- Failure or Major Failure. The target is unhurt.

Wound Tables

In general an individual must roll on a wound table when reduced to D1 Health. If the target was reduced to D1 Health because of Massive Damage then subtract 2 from the result. A PC can spend a HP when rolling on any wound table to roll another D10 and take its result if it is higher than the previous roll. Any number of HP can be spent in this way.

| D10 | Wound Table |
|------------|---------------|
| 1 or fewer | Dead |
| 2-3 | Mortal Wound |
| 4-6 | Serious Wound |
| 7+ | Minor Wound |

The following table shows how long an individual remains disabled (or unconscious) as a result of wounds.

| D10 | Time Disabled for Mortal Wound | Time Disabled for Serious Wound or Minor Wound |
|-----|--------------------------------|--|
| 1 | D30 Hours | D30 Hours |
| 2 | D24 Hours | D20 Hours |
| 3 | D20 Hours | D6 Hours |
| 4 | D8 Hours | D30 Minutes |
| 5 | D6 Hours | D20 Minutes |
| 6 | D30 Minutes | D6 Minutes |
| 7 | D20 Minutes | D20 Turns |
| 8 | D10 Minutes | D12 Turns |
| 9 | D6 Minutes | D6 Turns |
| 10+ | D20 Turns | 1 Turn |

The following table shows how long the injury lasts without healing:

| D10 | Mortal Wound Table | Serious Wound Table |
|-----|---|--|
| 1 | Blinded in one eye. With one eye Perception (Vision) and Ranged Attacks P3. Serious change to appearance. All skill P2. (Permanent but after 6 weeks penalty for one eye drops to P2 and P2 to all skills goes) | Broken leg. Untreated can't walk. Treated Running Athletics and Gymnastics are P3. (12 weeks but without healing victim will always limp at P1 Gymnastics and Athletics (Using Leg)) |
| 2 | Lost an ear. Perception Hearing P2. All Skill P1. (Permanent but after 6 weeks penalty to all skills goes) | Broken arm. The arm can't be used untreated. Treated it is at P3. (12 weeks but without healing using the arm will always be P1 when used) |
| 3 | Brain injury P4 Knowledge, Customs, Literacy, Leadership and Oratory. P2 to all other skills. (Permanent but every 16 weeks the Penalty gets 1 better until it reaches P1) | One eye closed – useless until healed. Perception (Vision) and Ranged Attacks P3 (4 days). |

| D10 | Mortal Wound Table | Serious Wound Table |
|-----|---|---|
| 4 | Serious damage to jaw: can't eat solid food or talk easily. Health P2, Persuasion P2, Leadership and Oratory P2, Survival P2. All other skills P1 (Permanent but after 6 weeks penalty to all skills goes and others improve to P1) | Broken nose P1 to all skills (2 weeks but without healing won't be straight so appearance altered) |
| 5 | Neck injury: can't turn neck, P2 Perception, Gymnastics, Weapons (Permanent but after 6 weeks improves to P1) | Concussed: P2 to all skills for D30 hours after the injury |
| 6 | Severed or shattered arm. It can't be used at all. All Skills P1 (Permanent but after 12 weeks penalty to all skills goes) | Hit in the mouth: lost some teeth. P1 to all skills. (7 days for the injury but the teeth aren't coming back so appearance altered and finds it harder to eat). |
| 7 | Severed or shattered leg. Can't walk. All skills P1. (Permanent but after 12 weeks loses the P1. Only if treated then after 4 weeks can walk at P3 with a crutch and/or peg-leg) | Body injury: P1 Athletics and Health (8 days) |
| 8 | Body injury: P3 Athletics, Gymnastics, Health (Permanent but after 6 weeks goes to P2) | Ankle or foot injury – Untreated can't walk. Treated Running Athletics and Gymnastics are P2. (8 weeks) |
| 9 | Shattered or severed hand It can't be used at all. All Skills P1 (Permanent but after 8 weeks penalty to all skills goes) | Hand or wrist injury- Untreated the hand can't be used. Treated it is at P2. (8 weeks) |
| 10 | Shattered or severed foot. Can't walk at all. All skills P1 (Permanent but after 8 weeks loses the P1. Only if treated then after 4 weeks can walk at P2 with a crutch and/or peg) | Serious cuts or bruises: P1 Health (4 weeks) |
| 11+ | Roll on Serious Wound table for effect (though still counts as a Mortal Wound for risk of dying) | |

Dead: individual killed outright immediately.

Mortal Wound: individual has 2D10 (highest) turns to live. If not halted by magic or mundane healing in this time s/he will die. After ceasing to be unconscious or disabled the individual can crawl or limp slowly away but can't fight or do strenuous activities at all until some healing has occurred. The other effects are permanent without magic healing.

Serious Wound: After ceasing to be unconscious or disabled the individual can crawl or limp slowly away but can't fight or do strenuous activities at all until some healing has occurred. The other effects have a healing time which is reduced by healing.

Minor Wound: After ceasing to be disabled is then at P1 Health for 2 weeks.

Follow Up Attack

If an individual makes an attack which doesn't miss (a miss is defined as certain results on the attack and result tables) then it can make a follow up attack as long as this is using a different weapon (this can be a different arrow, another thrown weapon, a weapon currently sheathed or slung or a weapon in the other hand, using another hand or another foot). Cut and Thrust weapons allow one additional attack with the same weapon. If the target of the attack is still standing up and able to fight on (not Disabled, Paralysed etc.) then the follow up attack must be against the same target if it is in reach of any attack. In other circumstances the attack can be against any enemy within reach. An individual can carry on making follow up attacks until it runs out of different weapons/attacks or one misses. If the original attack being followed up was in the individual's first action this turn then it is possible to make a follow up attack after the second action so for example the second action could be used to draw another weapon or make a move before the follow up attack. An individual is also allowed one additional move immediately before a follow up attack which must be used to get into range to use an attack but only one such move per turn.

E.g.1. In the first action of the turn Iddi throws a JLS hitting his target. He uses his second action to ready a second JLS and then follows up by throwing it at the same target who is disabled. Now with no weapon in his right hand Iddi follows up again by closing with a second enemy (using his free follow up move) and attacks with a shield bash knocking his opponent down and steps forward into range again (for free using the one square move allowed after a recoil). He then tries to follow up again by kicking his enemy on the floor but misses and is then not allowed another follow up.

E.g.2. In the first action of the turn Iddi throws a JLS hitting his enemy. He uses his second action to draw his broadsword and then closes with his opponent using his free follow up move. He attacks with the broadsword making his opponent recoil. He steps forward one square for free following the recoil and attacks with the broadsword again (because it is Cut and Thrust he can do this) and hits again. He then tries to shield bash his opponent and though it initially hits his opponent's shield the result counts as a miss and thus can't follow up again.

Sometimes an attacker has more than two hands and is allowed to attack twice in the same action. If one of these attacks hits follow ups are allowed even if the other misses. An attacker can use up to two arms for each follow up if s/he has two that weren't used already.

E.g. 3. Ameatha the Yara Aranis cultists currently has four arms each holding a kopis. She attacks with two arms getting two hits. S/he is then allowed to follow up and follows up with two more arms getting another hit and a miss. She can still follow up with a kick after this.

Stop Thrust

An individual armed with a weapon with the Thrust special ability can immediately make an attack on an enemy moving into range and to the front breaking into the opponent's turn to do so. No follow ups are allowed after a Stop Thrust. Only one Stop Thrust is allowed per turn. If the target recoils it can't move any further this action.

Opportunity Attack

An individual can make an opportunity attack if an opponent is in a threatened space:

- Having moved into or out of such as space doesn't stop moving.
- Tries to make a missile or thrown attack.
- Tries to use magic that targets something other than itself or something it is wearing or carrying or the individual threatening it.
- Tries to load a bow or crossbow.
- Tries to pick something up.

An opportunity attack must be with a melee attack. No follow ups are allowed after an opportunity attack. An opportunity attack made immediately after a Stop Thrust must be with a different weapon. Only one opportunity attack is allowed per turn.

E.g.1. Yarna is armed with a LTS. A fierce troll tries to charge her from the front. When it reaches weapon range (2 squares) Yarna makes a Stop Thrust which hits causing a Hurt but no recoil. The troll moves on to range 1 and Yarna makes an opportunity attack but can't use her spear as she used it for a Stop Thrust. Instead she attempts a shield bash on the approaching troll.

NPCs fighting NPCs

On occasion it is necessary to see what happens when NPCs fight such as if the PC's followers fight NPCs, the PCs are caught in a fight between other factions and so on. To this end NPCs are given a combat stat which will indicate which way they fight and how good they are. This only matters when using the system against other NPCs. They can be:

| Type | Effect |
|-----------------------|----------------------------|
| Foot Skirmishers (FS) | P2 when fighting in melee. |

| | |
|--------------------|--|
| Light Mounted (LM) | P1 when fighting in melee. P1 in melee in rough terrain. |
| Medium Foot (MF) | No modifiers. |
| Heavy Mounted (HM) | B2 when fighting FS or MF in melee in good-going if moved into contact. P2 in melee in rough terrain. |
| Heavy foot (HF) | B1 in melee in good-going. P1 in melee in rough going. |

In addition they have a general classification composed of how competent, professional and well equipped they are of their kind:

| Class | Effect |
|-------|------------|
| A | Elite: B2 |
| B | Good: B1 |
| C | Average: - |
| D | Poor: P1 |
| E | Rabble: P2 |

When NPCs are attacking another NPC roll their XD with the bonuses or penalties shown above against the target's XD with the modifiers shown. Use the normal combat modifiers for attacking and defending used by other characters (e.g. above, flanks etc.). Also use P1 if attacking with thrown or missile. If the result is:

- Draw: target recoils 1 square if in melee. HM or HF follows up if it moved into contact.
- Success: FS or LH retreat a full move in melee. Others recoil 1 square. HM or HF follows up 1 square if it moved into contact.
- Major Success: target is eliminated from the fight. HM or HF follows up 1 square if it moved into contact. MF follows up 1 square.

After the conflict roll to see the status of any individual removed. B2 for LH or F:

| D10 | Status |
|-----|---------------|
| 1-4 | Killed |
| 5 | Serious Wound |
| 6 | Minor Wound |
| 7 | Hurt |
| 8+ | OK |

Recovery Action

The individual rolls Bravery vs D10.

- Major Success: The Stun marker is removed and the individual can act in this action.
- Draw or Success: The Stun marker is removed and the individual can act in its next action.
- Failure: The stun is removed and the individual can act next turn.
- Major Failure: The stun marker stays in place.

Morale Checks

In combat a Moral Check (a bravery test) is triggered by:

- Leader Routed or Disabled.
- Ambushed.
- Attacked by undead.
- Attacked by chaos.
- Odds look worse than 1:2 given the apparent power of the two sides.

- An individual on a side is Disabled or Routed and there are now less allies in action than Disabled or Routed.
- Seeing a horrific sight.
- Individual is currently Routed and is allowed to try to rally (circumstances indicated in rules).
- Individual is currently routed and odds now look better than 2:1 given the apparent power of the two sides.
- Currently Routed and Leader ceases to be Disabled or Routed.
- Currently Routed and a new leader takes over.

The individual usually rolls Bravery vs D10 though the referee can make the test more difficult for really bad cases or multiple causes.

- Major Success or Success: The individual is fine and can continue.
- Draw. The individual is worried: If already Routed s/he stays Routed and if Frightened s/he is Routed.
- Failure: The individual is Frightened or if already Frightened then Routed.
- Major Failure: The individual is Routed.

Leadership Action

The leader of a force can attempt a leadership action to inspire or rally his/her forces. S/he makes a roll of Leadership vs D10.

- Major Success: All followers within 10 squares who are Frightened or Routed make a Morale Test using the Leader's Leadership Value as well as Bravery. As a result of this their status can't get any worse.
- Success or Draw: All followers within 10 squares who are Routed or Frightened make a Morale Check. As a result of this their status can't get any worse.
- Failure: No effect.
- Major Failure: All followers within 10 squares who aren't Routed must make a Morale Check.

Tactics Action

An individual can make a Tactics roll vs the Tactics of an opponent. A leader can make a Tactics roll vs the tactics of the enemy leader. For an individual:

- Major Success: Has B1 in Attack, Parry and Dodge rolls against opponent for the rest of this turn and next turn.
- Draw or Success: Has B1 in one Attack, Parry or Dodge roll against opponent which occurs during the rest of this turn and next turn.
- Failure: No effect.
- Major Failure: Opponent has B1 in Attack, Parry and Dodge rolls against individual for the rest of this turn and next turn.

For a leader:

- Major Success: All followers within 5 squares can perform a Tactics test vs D8. On any draw or success they have B1 in Attack, Parry and Dodge rolls against opponents for the rest of this turn and next turn.
- Draw or Success: All followers within 5 squares can perform a Tactics test vs D8. On any draw or success they have B1 in one Attack, Parry or Dodge rolls against opponent occurring during the rest of this turn and next turn.
- Failure: no effect.
- Major Failure: All followers within 5 squares must make a Tactics test vs D8. On a failure or major failure they stand confused for two actions.

- Alternatively a leader can use a Success or Major Success to change the action sequence within a round for his/her side from its current status (always starts right to left & front to back) to some other sequence such as from left to right, centre to outside, flanks to centre, back to front etc.

Falling

This is the damage taken from a fall. If the figure is expected the fall it can make a gymnastics test of the indicated difficulty to take no damage. Falling causes Damage Against an Individual as for a weapon. The effects on Health (Resist Damage) for size are reversed for falling (in other words being Large reduces resistance to falling whereas being small improves it):

| Squares | Damage | Gymnastics | Notes |
|---------|---------|------------|----------------|
| 1 | D4 AP1 | D4 | |
| 2 | D6 AP1 | D6 | |
| 3 | D8 AP1 | D10 | |
| 4 | D10 AP1 | D14 | |
| 5 | D10 AP2 | D16 | |
| 6-7 | D12 AP2 | D18 | Massive Damage |
| 7-10 | D14 AP2 | D20 | Massive Damage |
| 11-20 | D16 AP2 | D22 | Massive Damage |
| 21-35 | D18 AP2 | D24 | Massive Damage |
| 36-55 | D20 AP2 | D30 | Massive Damage |
| 56-75 | D22 AP3 | D50 | Massive Damage |
| 76-105 | D24 AP3 | D50 | Massive Damage |
| 106-140 | D30 AP3 | D100 | Massive Damage |
| 141+ | D50 AP3 | D100 | Massive Damage |

Fire and Light

Fire damage depends on the kind of fire it is. Fire in Glorantha doesn't need air to burn and can burn anything as fuel. The value of light is important for resisting Darkness. Fire turns normal Night or Darkness into Twilight as long as it has a value of at least D1 and its value goes down by 1 for each square after the first away from it.

| Fire Type | Volume (Cubes) | Min Footprint (Squares) | Max Footprint (Squares) | Fire Damage (As Physical Agent) | Light |
|--------------------|----------------|-------------------------|-------------------------|---------------------------------|-------|
| Lamp or Candle | 0 | 0 | 0 | D2 | D4 |
| Torch | 0 | 0 | 0 | D4 B2 | D4 |
| Mahome (Camp Fire) | 0-8 | 0 | 4 | D6 B2 Ignores Armour | D6 |
| Gustbran (Bonfire) | 9-125 | 5 | 25 | D10 B2 Ignores Armour | D8 |
| Oakfed (Wild Fire) | 126+ | 26 | Unlimited | D14 B2 Ignores Armour | D10 |

Fire will only spread onto an element or other rune its value can get a major success against – otherwise it may damage it but it won't actually set it alight. If the fire gets a major failure against an element then that cube of the fire will go out. Any element effected by stasis has +3 resistance to fire.

| Element or Rune | Resistance | Examples not Effected by Stasis | Example Effected by Stasis | Notes |
|-----------------|------------|---------------------------------|----------------------------|---|
| Air | D18 | Air | | Air is so influenced by movement that it tends to blow away from fire which makes it fire tend not to spread through the air. |
| Animal/Man | D4 | Hair | Flesh, bone | Living creatures are usually wet as well. |

| Element or Rune | Resistance | Examples not Effected by Stasis | Example Effected by Stasis | Notes |
|-----------------|------------|---------------------------------|----------------------------|---|
| Darkness | D12 | Darkness | | Darkness lacks any real substance and tends to burn away in the presence of fire but doesn't spread much or cause damage. |
| Earth | D14 | Dust, Sand | Rock | |
| Plant | D2 | Kindling, grass and leaves | Block of wood, tree | Living plants are often wet |
| Water | D24 | Liquid Water | Ice | When another rune is wet it will add 3 to its resistance |

Magic

Magic Abilities

A magic ability is classified in two ways – its Function and its Source. Function tells you what the magic does whereas source tells you how it does it. Each magical ability is associated with a Rune and when the ability is activated a roll on the Rune gets the result for the magic.

Duration

Some magic is resisted by a Duration Dice which shows how long the magic will last. Magic with Duration -1 means the character a level higher duration e.g. 5 minutes for D6, 15 minutes for D8. Duration -1 magic is never activated for 1 Turn.

- 1 Turns: D6
- 5 Minutes: D8
- 15 Minutes: D12
- 1 Hour: D14
- 6 hours D18
- 12 hours D20

Other magic lasts until something happens. In either case multiple instances of the same function don't stack. Also the referee should rule that any magic that changes the same thing doesn't stack e.g. Hide and Carapace.

Magical Resistance

Some magical attacks are resisted by Magical Resistance. An individual or thing's Magical Resistance is equal to the value of its **weakest** rune. Everything has a magical resistance but living things and those inhabited by spirits, guardians or demons tend to have much more than inert matter which can be assumed to have 3. Conscious creatures can choose not to use their magical resistance.

Passive Resistance

Remember that a Passive resistance (the caster, something owned by the caster, an ally or something owned by an ally) uses average resistance rather than a dice throw.

Rituals

Magic can be used in a **ritual**. With time and correct ritual paraphernalia it will increase the value of the magic.

The maximum bonus available depends on the difficulty of the magic:

| Difficulty | Max Ritual Bonus |
|---------------|------------------|
| D4, D6, D8 | +1 |
| D10, D12, D14 | +2 |
| D16, D18, D20 | +3 |
| D22, D24, D30 | +4 |
| D50, D100 | +5 |

Paraphernalia can include dressing up in ritual costume, having the correct ritual objects. Decorations for the area and for the people involved. The complexity and value of the paraphernalia increases as the ritual bonus increases. Half of the value of paraphernalia is shared between rituals with the same source (e.g. Orlanth rune magic) and half is specific to the function involved. More complex paraphernalia is usually the collective property of a community such as a temple or clan. Value expended is in sacrifices, paint, incense and similar consumables:

| Ritual Bonus | Paraphernalia Value | Value Expended |
|--------------|---------------------|----------------|
| +1 | 10L | 1L |
| +2 | 1000L | 10L |
| +3 | 5000L | 100L |
| +4 | 25 000L | 1000L |
| +5 | 125 000L | 10 000L |

| Ritual Time | Bonus |
|--------------|--------|
| 15 minutes | +1 |
| Hour | +2 |
| Day | +3 |
| Week | +4 |
| Season | +5 |
| Year | +5 |
| Ritual Magic | Down 1 |

Normally a 15 minute ritual gives +1, an hour +2 and a day +3, a week +4 and a season +5. A magical function labelled as Ritual always requires a ritual with the 15 minutes as no bonus, an hour +1, a day +2, a week +3, a season +4 and a year +5.

Supporters can help in a ritual. Who these people are and how magically competent they are will depend on their role and is up to the referee. If the number of people is insufficient the ritual will take longer to produce the result.

| Difficulty | Number of People to get | | | |
|---------------|-------------------------|-----|-----|-----|
| Modifier | -2 | -1 | 0 | +1 |
| D4, D6, D8 | N/A | N/A | 1 | 3 |
| D10, D12, D14 | 1 | 3 | 7 | 21 |
| D16, D18, D20 | 1 | 7 | 21 | 63 |
| D22, D24, D30 | 1 | 21 | 63 | 147 |
| D50, D100 | 1 | 63 | 147 | 441 |

For example for a difficulty D14 function which was not necessarily a ritual the maximum bonus would be +2 which could be accomplished by 21 people (+1) working for 15 minutes (+1) or 7 people (+0) for an hour (+2) or 3 people (-1) for a day (+3) or 1 person (-2) for a week (+4). It would require 1000L of paraphernalia and 10L of sacrifice.

Concentration

Some magic requires concentration. If the individual who created it gains any status (e.g. Hurt, Stunned, Frightened) or uses an action to create another magical effect then the magic ends.

Magic Saves

A magic save is required if the caster suffers a major defeat when the magic is cast. The save depends on the type of magic. The only exception is Physical Agents which require a magical save if they roll a 1 on the result or a 1 or 2 if they have a value of D12+.

A PC can spend a HP to re-roll a magic save. Any number of HP can be spent in this way.

Recharge

Some magical functions can't necessarily be used every turn. If a function has a recharge the user save for 7+ for it to recharge and can then be used again. A PC can spend a HP to allow a function to automatically recharge.

Companions

Some cults allow devotees to have a companion. The companion is a cult spirit or daemon bound into a creature (as a familiar) or into an object. The devotee is in Mind Link (as the magical function) with the companion at all times. The companion has the same runes as the cult. It begins with the same XD as the devotee. It is capable of learning magical functions and of increasing its XD (using the character's XP). If the companion is bound into a creature it has the skills and abilities of the creature and can perceive the physical world normally. If it is bound into an object it has no extra skill or abilities but can perceive the spirit world like a disembodied spirit – noticing magical power of things whether embodied or disembodied. If a familiar is killed or an object containing a companion is broken then a ritual requiring a week is required to put it into something new. Each cult has particular creatures or objects into which they put companions.

Functions of Magic

Magic can have the following functions and difficulties. Each function is followed by a list of statistics:

- **Target:** lists what the function can be used on Self (the user), Touch (a target that is touched), LOS (Line of Sight a target that can be detected with a targeting sense).
- **Difficulty:** some abilities have a specific listed difficulty but they can instead or as well list Duration and/or Magical Resistance. A function whose difficulty has more than one component each with & then it is resisted by all the dice. Some difficulties are separated by Or – in this case use the higher of the two. If an ability has no Difficulty it always works (in the sense that it always rolls its D for results)
- **Special:** some abilities are listed as Bonus (they can be used with certain other actions as a Bonus action as long as they target the user or something s/he is wearing or carrying and can be used defensively as a Reaction – in response to something they defend against) anything else can't. Some are listed as No Actions (they require no actions and are used as part of another action). Some are listed as Ritual – they always require a ritual. Some functions have special periods of time they last listed. Functions that have neither a Duration (part of the Difficulty) or a special duration are instant (they act immediately and then end though their effects may carry on). Special things are in bold.

Augment: lets the character roll an extra D on a skill of the same type that the character would normally roll – so instead of D6 then 2D6, instead of D8 then 2D8. Augments don't stack so using two different augments doesn't mean you can roll 3D. An Augment on a resistance (e.g. Stand Firm, Shield Resistance) in effect gives B1 to it. When a character cast Augment one cast activates all the Augments a character has with the same Source and Rune e.g. all Common Magic Augments from the Stasis rune, or all Glamour Augments of the Empty Half Phase – Self, Difficulty Duration (min 5 mins), **Bonus**.

Bless: a blessing has a difficulty depending on the size of what is being blessed. Whilst the exact difficulty is up to the referee, but some examples are listed. A blessing lasts for a season but if it fails for a season it can't be

tried again without a successful placatory ritual +1 harder than the blessing which will then allow another blessing attempt. A successful blessing will remove any curses and improve the successful yield of what it blesses by 10% (e.g. Crops, Births, Production rate). Blessings from different complementary sources usually stack for the % yield only where they have a different flavour text e.g. Kill Weeds (Bless Crops), Fertile Earth (Bless Crops). Something which is Blessed is also harder to curse. When blessing an individual the yield refers to the amount of useful activity the person can do, for crops the yield of crops produced for births the proportion of births which have a successful outcome for mother and child and so on. – LOS, Difficulty – Individual D12, Household, Workshop, Garden, Shop, Stall D14, Village, Field, Marketplace D16, Town, Heroband, Regiment D18, City D20 +2 if Currently Cursed, **Ritual, Lasts 1 Season.**

Boost: uses a magic action to target a weapon or armour. On a success the item gets minor boost (B1) and on a major success a major boost (B2) for the duration. For a weapon it works for the damage result and for armour for the armour result –Touch, Difficulty Duration, **Bonus**

Call (Creature): this function is used to call creatures owned or related to the caster in some way to him/her. It comes in two parts:

- Link (Creature). Links a middle world creature that the user owns/is related to him/her allowing the Bring part of the function to be used - Touch, Difficulty D8, **Ritual.**
- Bring (Creature). Calls all or a selection of the creatures linked to the caster to come to him/her. The caster can choose if they need to come as fast as possible or normally. Animals must come but intelligent creatures instead sense the request and can come if they choose. The targets will know the direction and distance to the caster - Self, Difficulty D8, **Lasts Until All Arrive or If Intelligent Creatures refuse the by doing something other than trying to reach the caster.**

Change: uses a magical action on self and allows the user to target one of his/her own skills. On a success allows that skill to be used in place of another. Examples: Order Horse (Leadership and Oratory (Commanding Speech) for Riding (Horse)) – Self, Difficulty = Target Skill & Duration

Change Environment: targets an area or object in LOS. If it targets and object it moves with it. Once the function is active the environment created has a value equal to the rune which created it modified as follows:

- Burst Full Value
- Large Burst Value -1
- Massive Burst -3
- Diameter of 25 squares -5
- Diameter of 50 squares -7
- -1 per additional area created or maintained at the same time.
- Some environments are listed as Large which means this penalty is reduced by 1.

On any success changes the environment in the target area/s. Opposite change environments oppose one another. Environments are also may be opposed by the functions Stop, Disorder and Move. Where conflicting functions overlap roll their values in opposition and whichever gets a success works. On a draw neither works. In an area of magical environment effects produced by certain runes must roll against the value of the environment as well as any other resistances – LOS, Difficulty listed below & Duration -1

- Cloudclear – clouds are driven away above the area Opposes Rain and Torrential Downpour - Difficulty D8, Large.
- Cold – the area becomes cold. Movement, Weapons and Devices for individuals without a ☀ or ☁ rune are P1 Opposes Heat, Sandstorm, Rain, Torrential Downpour and Warm Breeze. Resists ☁ - Difficulty D8.
- Darkness – an area of total darkness. Opposes Light including that created by mundane items. Resists ☀☀. Difficulty D14 in sunlight otherwise D6.
- Fog – an area filled with Fog - Difficulty D8, Large.

- Heat – the area becomes hot and dry. Movement and Weapons for individuals without a ☉ rune are P1. Opposes Warm Breeze, Rain, Torrential Downpour, Cold and Snow. Resists ☀ - Difficulty D8.
- Light – an area of bright light like sunlight. Opposes Darkness. Resists ☀ - Difficulty D10 at night or in the underworld otherwise D6.
- Night – an area as dark as night. Opposes Light. Resists ☉ - Difficulty D8.
- Rain – heavy rain falls in the area. Movement is P1. Missile or thrown attacks and damage are P1 per 5 squares of range. Counts as Haze. Difficulty D8. Opposes Sandstorm, Torrential Downpour, Snow, Warm Breeze and Heat. Resists ☉ - Difficulty D10, Large
- Sandstorm – an area filled with a gale filled with particles of sand or dust. Only works in dry areas like deserts or plains. Any thrown or missile attack that passes through the area is at P1 per square. Movement in the area is P3. Provides concealment like Fog. Opposes Stop, Disorder, Cold, Snow, Stillness, Fog, Heat, Rain, Torrential Downpour and Warm Breeze - Difficulty D10.
- Torrential Downpour – extremely heavy rain falls in the area. Movement is P3. Missile or thrown attacks and damage are P2 per 3 squares of range. At the start of each individual in the area's turn they must resist Athletics (Strength) D6 getting a success or fall down. Counts as Haze. Opposes Rain, Warm Breeze, Snow, Sandstorm and Heat. Resists ☉ - Difficulty D12, Large.
- Snow – heavy snow falls in the area. Movement is P1. After 10 turns the snow is thick enough to count as bad going. Missile or thrown attacks are P1 per 5 squares of range. Counts as Haze. Difficulty D10. Opposes Rain, Torrential Downpour, Sandstorm, Heat and Warm Breeze. Resists ☉ - Difficulty D10, Large.
- Stillness – the air in the region is still and calm. Opposed by Wind, Sandstorm, Warm Breeze and Disorder. Resists ☸ - Difficulty D8.
- Warm Breeze – the area warm with a breeze. The temperature is comfortable. The humidity is pleasant. Difficulty D8. Opposes Disorder, Stop, Cold, Fog, Stillness, Rain, Torrential Downpour, Sandstorm, Wind Snow and Heat - Difficulty D8.
- Wind – an area filled with a howling gale. Any thrown or missile attack that passes through the area is at P1 per square. Movement in the area is P3. Anyone who enters or starts their turn standing up in the area must resist the wind value (including any area modifiers) with Athletics and get a result or be knocked down. Difficulty D8. Opposes Stop, Stillness, Disorder, Warm Breeze and Fog. Resists ☼ - Difficulty D8.

Charm (Target): targets a creature or creatures. Has -1 Val for each target after the first and for multiple target make one roll against all. On any success the target/s will act as though the caster is a friend. They won't attack the caster or his/her other friends and allies and will be as likely to respond to persuasion by the caster as a friend would. The magic ends if the caster does anything which would make the target feel s/he is unfriendly e.g. attacking. If the magic ends normally (through duration) the target will revert to its previous attitude unless it has been persuaded to be more generally friendly in the meantime. However it won't realise it was charmed. If the magic fails the target will know a charm was attempted against it -LOS, Difficulty Magical Resistance & Duration, **Recharge**

Command: targets a creature or creatures of a named type. Has -1 Val for each target after the first and for multiple target make one roll against all. If it gets any success than the creature is under the command of the caster (using mind speech) for the duration but the caster can't get it to do anything that would hurt it or put it at an unreasonable risk of harm (e.g. can't make it jump over a cliff, stand still and be hit by something). Whilst commanded the creature is immune to Fear – LOS, Difficulty Magical Resistance +2 & Duration, **Concentration**. **Recharge**.

Cure (Ghost Type) Possession: drives off a ghost (back to the spirit plane) that is possessing a target. If the attempt suffers a major defeat it can't be attempted on the same target by the same caster – Touch, Difficulty Magical Resistance & D8, **Ritual**.

Curse: has a difficulty depending on the size of what is being blessed plus the strength of any Blessing on the thing. Whilst the exact difficulty is up to the referee, but some examples are listed. A curse also requires some objects that were a significant ritual part of the target e.g. hairs for an individual, soil for a field, a boundary post or sacred totem for a village or a sacred object for a congregation. A curse lasts for a season but if it fails for a season it can't be tried again without a successful preparatory ritual requiring a week's preparation following the same sacrifice and +1 difficulty which will then allow another curse attempt. A successful curse will remove any blessing and decrease the successful yield of what it curses by 10% (e.g. Crops, Births, Production rate) and gives the cursed thing P1 to resist hostile magic including disease spirits. Curses with different flavour text stack for reducing the yield only. When cursing an individual the yield refers to the amount of useful activity the person can do, for crops the yield of crops produced for births the proportion of births which have a successful outcome for mother and child and so on. – LOS, Difficulty – Individual D12, Household, Workshop, Garden, Shop, Stall D14, Village, Field, Marketplace D16, Town, Heroband, Regiment D18, City D20 plus +2 if the target is Blessed OR Magical Resistance, **Ritual, Lasts 1 Season.**

Devour (Item): takes all knowledge from an item – Scroll, Book or Mind. The target is left blank with no knowledge at all. The caster knows any knowledge, spells or common magic contained in the target that s/he can fit in mind and can cast the magic if s/he has the appropriate runes or abilities – Touch, Difficulty is D6 for a short scroll, D10 for a book or D14 for a mind & Magical Resistance, **Ritual.**

Disorder Element: uses the disorder rune linked to an element rune to change the state of an element. Opposed by and opposes other power runes applied to the area e.g. Stasis, Harmony. Details of examples below – LOS, Difficulty depends on total volume of a bulk substance that the user is influencing at once (even with multiple casts of the magic if they are operating at once) or a single object or individual which would fit in that volume at: D6 for 1 cube, D8 for 2 cubes, D10 for 4 cubes, D12 for 8 cubes, D14 for 16 cubes, D16 for 32 cubes and so on or Magical Resistance & Duration.

- Air: the air becomes randomly turbulent and choppy. Any thrown or missile attack that passes through the area is at P1 per square. Movement, Gymnastics and Athletics (Jumping) in the area is P3. Sailing through the area isn't possible.
- Darkness: darkness in the area becomes unstable, flickering and uncertain as does cold. In the area Perception is P3, Missile or Thrown is P3 and other weapons P1 and Gymnastics is P1. Cold in the area has its value modified by D6-3 each turn (i.e. each turn it can be 3 weaker or 3 stronger).
- Earth: the earth or stone becomes broken, fractured and unstable. Once this ability has been used the earth and stone continue to move and churn for the duration. Running, Gymnastics and Athletics (Jumping) in the area is P3 and the area counts as rough going even when the magic ends. Each turn this goes on any structure in the area takes damage equal to the value.
- Fire/Sky: light in the area becomes unstable, flickering and uncertain as does fire. In the area Perception is P3, Missile or Thrown is P3 and other weapons P1 and Gymnastics is P1. Fire in the area has its value modified by D6-3 each turn (i.e. each turn it can be 3 weaker or 3 stronger).
- Water: the water becomes randomly turbulent and choppy. Movement, Gymnastics and Water Life in the area are P3. Sailing or rowing through the area required Water Life (Sailing or Boat) of difficulty equal to the value to avoid the craft swamping or capsizing.

Dismiss: targets a named type of creature. Doesn't work on a ghost which is possessing a target – only whilst it is disembodied or in the process of attacking. Can be used against several targets making one roll against all treating the rune as -1 for each target after the 1st or against an area treating the rune as -1 for a small burst, -2 for a large burst or -4 for a massive burst. Resisted by the magical resistance of the creature and Duration (only for mundane world creatures). On any success the creature is dismissed. If the creature comes from another plane it returns to it losing its connection with the mundane world (e.g. a ghost, elemental or demon) and cannot interact with it unless resummoned. For a creature which lives in the mundane world such as a living creature or an undead it cannot move closer to the caster and must use all its actions to move away from

the caster until it is at least 30 squares away or can go no further. If it cannot get 30 squares away it cannot take any actions – LOS, Difficulty Magical Resistance & Duration (middle world creatures only), **Recharge**.

Dispel: targets any magic in LOS with a Duration (had a Duration Dice when created). It can target multiple targets and has -1 Val for each target after the first and for multiple target make one roll against all. It is resisted by the value of the rune that created it. If it gets any success then the magic is cancelled. Dispel is often limited to that created by certain runes – LOS, Difficulty Value of Rune that Created Target, **Recharge**.

Divination: the caster can ask a question of a supernatural entity or entities such as a god or spirits. Often this will be of the god the caster worships for Rune Magic or for a Lunar New God for a Glamour. The being will answer in the in an appropriate form for the being such as a signs in the stars, vision, dream, augury, the characteristics of a sacrifice, speaking in tongues of a drugged priestess or some other method. The being can only tell the character things that it knows – it can't see the future and isn't omniscient. In general it knows things that have happened to its worshippers, in its sacred precincts or in its area of power at any time in the past. In order to successfully interpret the being's message the caster must make a Knowledge (Divination) skill roll of difficulty depending on the complexity of the question. Some divination is labelled as Advanced. These cults are especially good at this as their god has access to more information. Others can only provide information on small specific areas shown in brackets – Self, Difficulty D14, **Ritual**.

Enchantment: makes a magical attack on a target or targets. Has -1 to the Rune for each target after the first and for multiple target make one roll against all. If it is a Success it has an effect and it also has another effect as well for a Major Success. Actual effects listed below – LOS, Difficulty Magical Resistance (may have a minimum listed as Min MR) & Skill or Rune listed below, **Recharge**

- Attack Soul: best Rune – Power Drained/Dazed. Min MR D8.
- Befuddle: Leadership and Oratory – Confused/Befuddled
- Binding: Athletics (Strength) – Slowed/Bound
- Blinding: Perception – Confused/Blinded. Min MR D8
- Dazzle: Perception – Dazzled/Blinded. Min MR D8
- Disrupt: Health – Hurt/Stunned
- Drain: Athletics – Weakened/Drained
- Fear: Bravery – Frightened/Routed. Any success cancels the Special Effect Fanaticism but with no further effect.
- Harmonise: Gymnastics – Slowed/Paralysed. Min MR D8
- Mind Blast: Knowledge – Dazed/Stupefied. Min MR D10
- Peace: Tactics – Calmed/Pacified. Any success cancels the Special Effect Fanaticism but with no further effect. Min MR D8
- Poison: Health – Poisoned/Disabled. Min MR D8

Harmonise Element: uses the harmony rune linked to an element rune to change the state of an element. Opposed by and opposes other power runes applied to the area e.g. Stasis, Disorder, Movement. Details of examples below – LOS, Difficulty depends on total volume of a bulk substance that the user is influencing at once (even with multiple casts of the magic if they are operating at once) or a single object or individual which would fit in that volume at: D6 for 1 cube, D8 for 2 cubes, D10 for 4 cubes, D12 for 8 cubes, D14 for 16 cubes, D16 for 32 cubes and so on or Magical Resistance & Duration.

- Air: the air becomes regular, predictable and orderly. Any thrown or missile attack entirely in the area is at B1. Movement, Gymnastics and Athletics (Jumping) in the area is B1.
- Darkness/Fire/Sky: light and darkness in the area becomes balanced as does fire and cold. The area becomes a kind of twilight and anything with day or night vision can see without penalty. The temperature is equitable and heat and cold undamaging.
- Earth: the earth or stone becomes smooth, steady and reliable. Once this ability has been used the earth and stone stay like this for the duration resisting other powers and will remain in harmony

when it ends though they lose their extra resistance. The ground counts as smooth going even when the magic ends. Any structure in the area is repaired and regains any lost structural integrity.

- Water: the water becomes regular, predictable and orderly. Movement, Gymnastics and Water Life in the area are B1.

Healing: targets a status that a target has at touch range. Is resisted by a difficulty depending on the status. Will state a particular kinds of status that it works on. In brackets after the status is the difficulty. As the target is the status it always counts as using magic on a target other than the user. On a success the status is removed. If an attempt at healing suffers a major defeat it cannot be attempted again against the same target by the same caster. Healing does not work in general on otherworld creatures (such as Summoned creatures) when used in the mundane world. – Touch, Difficulty See Below, **Recharge**.

- Attach Spirit –If an individual has died within the last 30 minutes and their body is now capable of living (has been healed or they were killed by a Sever Spirit) puts the spirit back and returns them to life - Difficulty D14 or the value of a Sever Spirit.
- Cure (Name) Wound – is used alongside another Healing function against a status caused by the named source e.g. Cure Chaos Wound. Reduces the difficulty of the function by 2.
- Cure Disease: on a success removes 1 disease point. On a major success removes 2 disease points – Difficulty D12.
- Heal Chaos on Uroxi– acts as Attach Spirit, Heal Courage, Heal Hurt, Heal Mind, Heal Minor Wound, Heal Poisoned, Heal Serious Wound, Heal Strength but only when the injury has been inflicted by a chaos creature, worshipper of a chaos god or by chaos magic and the target is at least an initiate or spiritist of Urox or Storm Bull.
- Heal Courage – Frightened (- Difficulty D8), Routed (- Difficulty D12)
- Heal Earth – is used to heal wounds to the earth caused by disasters or enemies. Works on an area the size of a field. **Ritual**. (- Difficulty D18).
- Heal Hurt – Hurt (- Difficulty D8), Dazzled (- Difficulty D8), Stop Dying from Mortal Wound (- Difficulty D8)
- Heal Mind- Befuddled (- Difficulty D10), Calmed (- Difficulty D10), Confused (- Difficulty D8), Dazed (- Difficulty D10), Pacified (- Difficulty D10), Stupefied (- Difficulty D12)
- Heal Minor Wound (- Difficulty D10)
- Heal Mortal Wound (- Difficulty D16)
- Heal Poison – Poisoned (- Difficulty D8)
- Heal Serious Wound (- Difficulty D14)
- Heal Strength - Bound (- Difficulty D10), Drained (- Difficulty D10), Paralysed (- Difficulty D10), Slowed (- Difficulty D8), Stunned (- Difficulty D8), Weakened (- Difficulty D8)

Hinder (Target): makes a magical attack on the target on target/s. Rune has -1 Val for each target after the first and for multiple target make one roll against all. On a Success the target skill, damage or armour has a minor hindrance (P1) and on a Major Success a major hindrance (P2). Many hindrances work against multiple skills and if so all are effected at once – LOS, Magical Resistance & Duration

Illusion: fills an area with an illusion which fools the senses. The illusion can be over and around other objects and individuals. It can be opaque, transparent or translucent as desired. An illusion has a value depending on the modified value of the rune which created it. To detect that an illusion isn't real requires a Perception test getting any success against the value of the illusion. Only one test is allowed against a single illusion. A character can also guess an illusion isn't real by detecting it doing something impossible such as being insubstantial or not moving when it should. The caster knows an illusion isn't real and s/he can tell others this as well. Knowing an illusion isn't real doesn't cancel it, allow a character to see through it etc. The creating rune has its full value of targeting a volume of 2 cubes, -1 for 8 cubes, -2 for 16 cubes, -3 for 32 cubes, -4 for 64 cubes and so on. Making an illusion move is -2 to the rune. Its movements can be set to a repeating sequence of up to 10 minutes requiring the caster to Concentrate and take no actions except crafting the sequence for twice its length before setting it going. Alternatively a caster can keep it moving at will by Concentrating. A

moving illusion can be attached to a moving object or individual but this will require concentration unless the movement is completely predictable and can then be linked to a sequence. Attaching an illusion to an individual or something an individual wears or carries means the magic must overcome Magical Resistance on an unwilling target. Each sense an illusion applies to after the first is -1 to the rune (vision, hearing, smell and taste) except that touch is -3 (or -2 if it is the only sense affected). Illusions which fool touch have substance and thus can hurt people, be broken etc. The maximum damage an illusion can do is equal to its value and of a type appropriate to it – an illusionary fire deals heat damage, an illusionary spear does solid damage. The damage is also limited by what the illusion is so an illusionary fire cannot do more damage than a real fire would do and an illusionary trollkin does no more damage than a real one. A solid illusionary wall takes no more damage than a real wall of its kind and also no more than the value of the illusion to break. Creating a simple illusion like a smooth wall, a block of smooth ice or a block of darkness can be done in a single action. Making something more complicated takes time and concentration – for example creating a convincing individual, a rippling pool or a roaring fire. The referee can decide any penalty for complexity and in general each -1 for complexity requires a minute. A creator can create something and gradually tinker it into shape rather than imagining the whole thing and creating it in one go. Creating something in one go requires spending the creating time imagining it and then creating it all at once and doubles the complexity modifier. Examples would be a convincing individual -3, a tree -2, a pool of water -1, a fire -1, a detailed wall -1 and so on. For 1 XP a character can make an illusion which doesn't require Concentration (if static or following a predefined sequence of movements) and keeps going until cancelled – once cancelled this illusion can be used again – LOS, Difficulty D6 or Magical Resistance & Duration.

Mind Link: links the minds of the caster and any number of willing targets. The link is between the caster and each target but not between one target and another target. The caster and each member of a Mind Link:

- May speak silently and mentally to each other.
- Use any magical function known to either of them.
- If one suffers Power Drain as a result of casting a magical function s/he may instead inflict it on the other instead without consent.
- If one suffers the loss of Rune Points or Glamour Points as a result of using a magical function then s/he may inflict the loss on the other instead without consent.
- The Enchantments Befuddle, Fear, Harmonise, Mind Blast and Peace attack both individually if they attack one regardless of range, LOS etc.
- Can leave the link at any time.

- Touch, Difficulty D12 + 1 per target linked at once after the first & Duration

Move (Element): moves an instance of an element from one place to another. The magic doesn't move whatever created the element and the element's existence in the target location is still supported by its original source. When the magic ends the element moves back to its original location. Whilst the function is active the user can use an action to move the element up to D6 squares. As there will be nothing in the area the element moved out of then there is nothing to resist surrounding elements so they will try to rush into the gap if they can move (elements sometimes can't move if they have been influenced by Stasis and are solid like rock or ice). Some elements, when moved, will try to force the elements in the area they are moved into out of it. The basic value for the moving element is D4 but this can be increased. The Value of the move is resisted with D4 for an Element which is weak against the moving element or D8 for normal and D12 against which it is weak against. Pushing out an element influenced by Stasis is harder and impossible for some elements. In the volume moved through other elements not influenced by stasis will try to move in if the magic fails to resist them in the same way.

- Air: the air in the location moves. The location the air is taken from becomes Airless and breathing is impossible though surrounding air will usually quickly rush in. Air is weak against Earth and strong against Water. Pushing Stasis affected elements is +3 harder.
- Darkness: the Darkness in a location moves. The area it came from will become a kind of twilight neither Dark nor Light unless an element can flow into it. Darkness is weak against Fire/Sky/Light and Strong against Earth. Darkness only pushes Fire/Sky/Light which it is weak against but can flow into

and through any other element for example making a volume of Water or Air Dark without moving it and other elements don't resist this process.

- Fire: the Fire in a location moves. Fire is weak against Water and strong against Darkness. Pushing Stasis affected elements is +3 harder.
- Light: the Light in a location moves. The area it came from will become a kind of twilight neither Dark nor Light unless an element can flow into it. Light is Strong against Darkness and weak against Water. Light only pushes Darkness which it is Strong against but can flow into and through any other element for example making a volume of Water or Air Light without moving it if it overcomes its resistance.
- Water: the water in a location moves. Water is Weak against Air but Strong against Fire/Sky/Light. Pushing Stasis affected elements is +3 harder.

– LOS, Difficulty D4 +1 per 2 cubes moved + 1 per Value of the move or Magical Resistance & Duration.

Move (Object) with (Element): moves the target in a controlled way according to the command of the user. The element rune shows how the movement is accomplished. For example a boat could be moved with air by creating a wind that blows in its sails or with water by creating a current. The object must move on or within the element it works with so an object moved with water must stay in contact with the water. Objects move as though running (2D6). The way the object can be moved is determined by the other rune moving it. Air can lift small objects into the air and push other things along the ground or water. When pushing things along the ground the movement rate is divided by 2. Fire/Sky can lift things directly upward or bring them down again but only when the sun is in the sky and nothing bigger than a boat. The full moon and full half-moon phases can make things fly through the air at full speed under the full moon (or in the glowline), at half speed under the half-moons, at quarter speed under crescents and not at all under black or dying. The moon can only lift things with an affinity to the moon such as moon rocks, silver and moon reeds. Water can push things along on the surface or under the water like boats and individuals. Earth can slowly move things along or under the ground at 1 square per turn. Some cults have other specific functions of movement – LOS, Difficulty D8 for a small object, D10 for up to boat sized and D14 for up to ship sized +1 per B2 Movement or Magical Resistance & Duration, **Concentration**.

Physical Agent: summons an elemental force to target an Area. Roll one magic result as damage against all targets in the area. There is no resistance as such and no save is required if it suffers a major defeat but one is required on a roll of 1 or 1 o2 if it is D12+. Some allow a single target at full value (listed as Target). Some Physical Agents allow area effects using standard templates modifying the value of the rune as follows:

- Burst in LOS -1
- Line reaching from the user to LOS -1
- Cone starting from the user -1
- Large Burst in LOS -2
- Large cone starting from the user -3
- Massive burst in LOS -4
- Barrage in LOS -3

Each target in the area can make an **Evade** roll to escape the area. All physical agents cause Damage but are usually not resisted by armour. Some have a minimum rune a character must have to use them. They also have the following characteristics:

- Cold – clothing provides D4 protection, warm clothing provides an extra D6 protection and winter furs provides D8 protection. Major result also Slows target. Areas: Target, Cone, Burst, Large Burst.
- Dust Blast – P3 damage. Also result is resisted by Athletics (Stand Firm) and on any Success the target moves back 1 square per point of success and if this is more than 1 falls down. In the desert or any dusty or sandy place damage is improved to P2 also is also resisted by Perception and on a failure target is Blinded for 1 turn and on a major failure 2 turns. Areas: Burst, Large Burst, Massive Burst, Cone, Large Cone.
- Fire – Damage B2. Areas: Target, Cone, Large Cone, Burst, Large Burst, Massive Burst.
- Ice – also resisted by armour. Causes Recoil. Area: Target, Cone, Large Cone. Minimum Rune D10.
- Lightning – causes Stun on Success. Areas: Target, Line, Burst, Large Burst, Massive Burst, Barrage.

- Meteors – Different Area Modifiers: Barrage (0). Damage B2, also resisted by armour. Also result is resisted by Athletics (Stand Firm) and on any Success the target falls down. Areas: Barrage. Minimum Rune D12.
 - New Fire –Also causes Dazzled on a Success and Blinded on a Major Success. Areas: Target, Burst, Large Burst, Massive Burst.
 - Quake – Different Area Modifiers: Burst (0), Large Burst (-1), Massive Burst (-2). P2 damage. Also result is resisted by Athletics (Stand Firm) and on any Success the target falls down. Doesn't work on flying targets. Areas: Burst, Large Burst, Massive Burst. Minimum Rune D12.
 - Stones and Rocks Fly – also resisted by armour. Causes Recoil. Areas: Target, Burst, Large Burst, Massive Burst.
 - Sunspear –Target must be in direct sunlight. Damage B4. Also causes Dazzled on a Success and Blinded on a Major Success. Areas: Target, Burst, Large Burst. Minimum Rune D12.
 - Thunder – P2 damage. Also causes Recoil. Areas: Target, Cone, Large Cone, Burst, Large Burst, Massive Burst.
 - Time's Light Arrow. Also resisted by Magical Resistance and on a Success the target misses the next 4 actions and on a Major Success misses the next 8 actions. Areas: Target, Burst, Large Burst. Minimum Rune D12.
 - Water – P2 damage. Also result is resisted by Athletics (Stand Firm) and on any Success the target moves back 1 square per 2 point of success or part thereof and if this is more than 1 falls down. Areas: Burst, Large Burst, Cone, Large Cone.
 - Wind – P3 damage. Also result is resisted by Athletics (Stand Firm) and on any Success the target moves back 1 square per point of success and if this is more than 1 falls down. Areas: Burst, Large Burst, Massive Burst, Cone, Large Cone.
 - Wood Shards – P2, also resisted by armour. Causes Recoil. Areas: Target, Cone, Large Cone.
- LOS, Difficulty None, **Recharge**.

Protection Against Elements: protects the target/s against Physical Agents, Elemental Weapons, Elementals and the natural effects of the named elements. The target resists damage or other results caused by the named element with the selected difficulty in addition to any normal resistance -Touch, Difficulty Equal to Chosen Protection & Duration.

Sever Spirit: uses the death rune to target a living thing associated with a particular rune usually Animal, Plant, Dragonewt or Man but can be another element for embodied daemons or elementals. On a draw or success the creature survives but is Stunned. On a major success the magic separates the creature's spirit from its body killing it immediately but leaving its body undamaged. The spirit will wait near its body for 30 minutes before departing for the otherworld – LOS, Difficulty D14 & Magical Resistance, **Recharge**.

Special Effect: this is a section for a variety of different functions with different results. Difficulty depends on how powerful the effect is and also if it has a Duration then a Duration Dice.

- (Weapon) Trance: When using the listed weapon the user has +3 to attack, cannot use parry and has -2 Gymnastics (Dodge). It can't use magic except targeting the weapon or its skill. This magic cancels and replaces Fanaticism – Self, Difficulty D12 & Duration, **Bonus**.
- Absorption: when the target is attacked with an Enchantment by an enemy then the absorption's value resists the Enchantment as well as any other magical resistance. If the absorption gets a higher result than the Enchantment then the magic is absorbed having no effect on the target and in addition providing the caster of the absorption with 1 Power Point (as for Tap) and the caster of the Enchantment suffers 1 point of Power Drain – LOS, Difficulty D14 & Duration, **Bonus**.
- Acute Hearing: caster can hear four times further away than normal – Self, Difficulty D6 & Duration, **Bonus**.
- Aegis: creates or enhances a magical shield. Either the caster's existing shield is immune to breakage saves and has B2 damage when parrying or can create a magical shield (with otherwise normal stats

but the same special abilities) for the duration – Self, Difficulty D10 or to create a small shield D12 or a large shield D14 & Duration, **Bonus**.

- Affix Darkness: this function must be used at night. The caster chooses a volume of 70 cubes (+30 per +1 difficulty). Within the chosen area night will remain throughout the next day remaining just as dark as it would be at night – LOS, Difficulty D12 + 1 per volume increase.
- Affix Light: this function must be used during the day. The caster chooses a volume of 70 cubes (+30 per +1 difficulty). Within the chosen area day will remain throughout the next night remaining just as light as it would be by day – LOS, Difficulty D12 + 1 per volume increase.
- Analyse Magic: on a success gives one function of a magical item, entity or substance. On a major success gives all functions – Touch, Difficulty D10, **Ritual**.
- Animate Art: animates an art work such as a sculpture, painting or mosaic so it goes through a sequence of changes or movements lasting up to 5 minutes before repeating. The effect lasts a year or is permanent for 1 XP – Touch, Difficulty D14, **Ritual**
- Animate Ghoul: the caster animates a body exactly 1 week after it has killed itself or murdered someone else. The body rises as a ghoul with Experience D8. The ghoul will follow simple commands and can be set to guard an area – Touch, Difficulty D14, **Ritual**.
- Animate Skeleton: the caster animates a skeleton as an Experience D6 skeleton. The skeleton will follow simple commands and can be set to guard an area – Touch, Difficulty D12, **Ritual**.
- Animate Statue: the caster animates a statue. The statue will follow simple commands and can be set to guard an area. Costs 1 XP. – Touch, Difficulty D12 + Statue Size, **Ritual**.
- Animate Zombie: the caster animates a reasonably fresh corpse as an Experience D6 zombie. The zombie will follow simple commands and can be set to guard an area – Touch, Difficulty D12, **Ritual**.
- Appear as Uz or Human: to Uz the caster appears to be a Dark Troll to humans the caster appears human – Self, Difficulty D8 & Duration -1.
- Attract (Prey Creature): the caster targets a large blast. All prey creatures of the indicated type in the area are affected. On a success they don't move out of the area. On a major success they move towards the caster until they are within 5 squares. The effect ends if any of them are attacked – LOS, Difficulty Highest Magical Resistance & Duration.
- Attract Attention: all targets who are not worshippers of Xiola Umbar within 50 squares must resist the caster with Magical Resistance when the function is activated. If the caster gets any success against them then until the caster's next turn they can't attack anyone but the caster – Touch, Difficulty D10, **Bonus**.
- Aurora: this function can only be used when Morning Star (Theya) is visible in the sky (not to the caster – it just has to there) – this is 4 hours before dawn. A large burst (massive burst for +2 difficulty) around the caster is filled with a clear pale light as bright as day light. Whilst in the area the caster and his/her allies ignore 1 Hurt and 1 Power Drain inflicted by Darkness or Chaos creatures or worshippers. This effect ends with the function so they will get the Hurt or Power Drain back when it ends (it is in effect stored in the magic) – Self, Difficulty D8 or D12 for a Massive Burst, **Lasts Until Dawn**.
- Avenging Fury: The caster has +2 to attack. Cancels Frightened, Routed, Calmed or Pacified and the caster is immune to those statuses. Only works if the caster is trying to take deserved vengeance for him/herself or someone else or if fighting to restore the balance of a situation where the opponent has taken an unfair advantage over others – Self, Difficulty D10 & Duration, **Bonus**.
- Avert Disaster: when making a Save other than a Magic Save can re-roll a fail once and must then take the new result – Self, Difficulty D8 & Duration, **Bonus**.
- Awakening Shout: the caster shouts loud enough to wake or alert everyone in the area. The noise is as loud as a klaxon or air raid siren – Self, Difficulty D6, **Bonus**.
- Awe Crowd: caster can make a crowd be quiet and listen for a while without shouting. The magic acts instantly to allow the caster to get off a few sentences and after that it will depend on the power of his/her Leadership and Oratory – Self, Difficulty D12.

- **Bad Luck:** whenever the target takes an action s/he must roll an additional dice equal to the smallest s/he would roll normally for the action. If the result of this dice is lower than the others use it as the result of the roll – LOS, Difficulty D10 & Magical Resistance, **Until Cancelled, Recharge**
- **Balance Leap:** caster chooses a difficulty and if the magic is successful immediately leaps (in the same action) up to the difficulty chosen +2 squares and rolls 3D to determine the result. E.g. with a difficulty of D10 the leap is up to 3D14 (take the highest) squares. The leap can be in any combination of vertical and horizontal. The user does not need secure footing to leap from – it could be from a balancing rope, in a swamp etc. – Self, Difficulty Variable.
- **Banish Winter:** can be cast like a Blessing at the start of Sea Season. In the blessed area winter's effects cannot persist so crops can be planted without the risk of unseasonal weather.
- **Bargain:** used after a Fair Trade or Crooked Trade. On a success target reduces selling price by 10% or increases buying price by 10% or on a major success by 20%. The deal is sealed after the effect if successful and must be agreed. Unless the magic was a major failure the target won't realise that the ability was used without some way of detecting magic – Target of Trade (usually a few squares), Difficulty D6 & Magical Resistance.
- **Barkskin:** provides +B1 armour – Self, Difficulty D8 & Duration, **Bonus**.
- **Beak:** gives the character a beak like a predatory bird – it counts as a carnivore bite – Self, Difficulty D6 & Duration-1, **Bonus**.
- **Bear Burden:** the target's carrying capacity is doubled – Touch, Difficulty D8 & Duration -1, **Ritual**.
- **Bear Fruit:** target plant immediately produces its normal fruit – Touch, Difficulty D14, **Ritual**
- **Beautify Location:** decorates a volume of 30 cubes by 30 cubes by 30 cubes with illusionary decorations such as lights and banners and makes it look clean, new and shiny – LOS, Difficulty D10, Duration -1, **Ritual**.
- **Become Krjalki:** caster transforms from normal to Krjalki form or from Krjalki to normal form. When in normal form it has no chaotic features and no visible changes (though will still detect as chaotic if tainted by chaos). When in Krjalki form it has all its features and any physical changes – Self, Difficulty D8, **Until Cast Again**.
- **Bedazzle Enemy Gods:** when the target is attacked with any rune magic, charms or spirits then the function's value resists the magic even if it is something like a Physical Agent. If the Bedazzle Enemy Gods gets a higher result than the attacking magic it is reflected having no effect on the target and instead attacking the caster who must resist its result. – Self, Difficulty Chosen Value & Duration
- **Behold:** the caster can see a vision of another cult member is doing using a suitable piece of cult paraphernalia such as a silver mirror, bowl of water etc. The vision has no limit to range but the caste must know the person s/he is trying to see – Touch, Difficulty D12 or Magical Resistance & Duration, **Ritual**.
- **Berserker:** the caster has +3 to melee attack, cannot use parry and has -2 Gymnastics (Dodge). S/he can't cast magic except augments. S/he has B2 Running and each action s/he must either charge the nearest enemy or make a melee attack against an enemy. If no enemies are in LOS s/he must instead charge and/or attack the nearest neutral/non-combatant and if none of these are available then the nearest friend. The caster is immune to Frightened, Routed, Calmed or Pacified. Whilst the magic is active the caster does not reduce Health as a result of Hurts (i.e. always resists damage with full Health) and is only Disabled (and rolling on the Wound table) on taking 2 more Hurts than normal. They are recorded and all take effect when the magic wears off. If the caster wishes to cancel the magic s/he must roll a D6 and get a 6 to be allowed to do so. The magic also ends if the caster is Disabled. This cancels and replaces Fanaticism or Weapon Trance. – Self, Difficulty D12, Duration, **Bonus**
- **Bind Horse:** target horse/s can't take move actions. Caster's rune is -1 per target after the first – LOS, Magical Resistance & Duration
- **Bind Spirit:** binds a spirit for a function available to a Spirit tradition or School that the user is a member of. A spirit can only be used by the character who bound it. Requires 3 hours before the charm is created to make the object in which the spirit is held unless rebinding an existing spirit. If an attempt to bind a spirit gets a Major Failure the caster has -2 to the casting rune for a week. Binding a

spirit costs 1 XP. Touch, Difficulty Value of the Spirit +3 or +2 if the caster has a rune matching the spirit, **Ritual**.

- Blessing of Chaos – the willing target gains a chaotic feature (positive or negative at random) – Touch, Difficulty D12, **Ritual**.
- Blind Oathbreaker: an individual freely promises to do something within a certain time or not do something. The caster casts the function to enforce it. If the Oath is broken the target is blind until the oath is fulfilled – Touch, Difficulty D12, **Lasts Until Oath is Fulfilled**
- Blinding Shadow – any attacks against the caster targeted with normal vision have P1 to hit – Personal, Difficulty D8 & Duration.
- Bolster Morale: all allies within a large burst of the caster have B1 Bravery – Self, Difficulty D12 & Duration
- Bounty of the Thigh: food stored in a single room such as a granary or store will not spoil. Costs 1 XP per store protected. – Touch, Difficulty D12, **Until Cancelled, Ritual**.
- Bow of Dominion: the caster's bow can shoot to LOS without range penalty. Any target hit must resist the caster's with Magical Resistance or lose the power of flight for the next 5 minutes and come crashing to the ground – Personal, Difficulty D14 & Duration.
- Brew Blood Beer: caster can perform a ritual using the normal ingredients of beer plus human blood – either her own or from a captured enemy. Once the ritual is complete the beer will need to ferment for 3 days. One ritual makes 24 pints of beer. If the caster then drinks at least 4 pints of her beer then for the next 3 hours she gets B1 to Athletics (Damage), Athletics (Stand Firm) and Health (Resist Damage) but acts like a 'fighting drunk' - Difficulty D10, **Ritual**.
- Brew Pratzim: caster can perform a ritual using his/her own blood – the ritual causes 1 Hurt - plus Krashtkid spittle. Each dose can be stored inertly but can be activated by a Krasht cultist as a D6 difficulty Common Magic at Touch range. If it activates the caster attacks with it like a rock. If it hits instead of any damage the target is entangled in D10 value sticky strands. Whilst entangled the target can take no actions except to try to remove it using Athletics (Strength) as a Task with each roll requiring 1 action. If the target suffers a defeat by the task it is hopelessly entangled and can't try again. Others can pull it off but this involves starting a separate task and they count as entangled too whilst doing it but if they succeed they free the original target too. Cutting it doesn't work as blades just stick to the web – Touch, Difficulty D12. **Ritual**.
- Burn (Target): named kind of creature takes fire damage equal to the result directly to their Health (Resist Damage), Rune is -1 per target after the first. Requires a magic save on a roll of on 1-2. Has the same results as normal fire damage – LOS, Difficulty -, **Recharge**.
- Calm of the Disordered Stomach: creates an area equal to a large blast in which Disorder magic is blocked. Any such magic with a duration in the area is also affected. The rune that created or is trying to create the magic must perform a task against D12 or the magic is countered, dismissed or cancelled – Self, Difficulty D12 & Duration, **Concentration**.
- Calm of the Shoulder: creates an area equal to a large blast in which violent Air magic is blocked. Magic which moves air, causes lightning or Thunder, helps weapon attacks and summons air elementals are all effected. Any such magic with a duration in the area is also affected. The rune that created or is trying to create the magic must perform a task against D12 or the magic is countered, dismissed or cancelled – Self, Difficulty D12 & Duration, **Concentration**.
- Captain Souls: each willing target is linked to the caster and they can communicate mentally. The caster can see through the eyes each target switching views from one to another as an action. The caster can use magic on the targets as though at touch range or using them as the point to begin LOS. The caster can only have one such magic active at a time – Touch, Difficulty D6+1 per target after the first & Duration -1
- Capture Slave Spirit: a Spirit function belonging to the target can't be used by the target and can instead be used by the caster for the duration and is then released. The caster will need to rebind it to use it again – LOS, Magical Resistance & Duration
- Carapace: provides B2 armour – Self, Difficulty D8 & Duration

- Carry Companion: can be used as a bonus action at the same time as any other movement magic. If successful companions adjacent to the caster travel with him/her during the movement magic. If this ability fails the caster leaves them behind – Self and Adjacent Companions, Difficulty D6 +1 per companion, **Bonus**.
- Carry Disease: target does not suffer any attacks from the Disease Ghost/s they are possessed by. The disease ghost can still infect others – Touch, Difficulty D10, **Lasts Until All Diseases Cured**.
- Cattle Thief: all cattle which don't belong to the caster within 30 squares will silently and obediently follow the caster for the duration. The magic ends when s/he is back on his/her own land and 'owns' the cattle – Self, Difficulty D12 & Duration-1.
- Celebrate Suffering: can be used for no actions when the caster inflicts a Hurt on a target. The caster heals a Hurt on itself – Self, Difficulty D8.
- Celestial Servant: target has B3 to Personality Trait tests, to resist Charm, Command magic and other mind affecting magic if failure would stop him/her obeying the orders of a lawful superior – LOS, Duration -1, Difficulty D10
- Chameleon: caster has +2 Stealth (Sneak, Hide, Ambush) – Self, Difficulty D10 & Duration.
- Change Sex: the caster changes sex. S/he retains all compatible characteristics and abilities but is otherwise completely of the other sex and indistinguishable from someone who was always that sex. S/he modifies features, hair and so on accordingly. The same ability can be used to change back again – Self, Difficulty D10, **Permanent**.
- Chaos Conversion: only works on a willing target that is not a creature of chaos, does not detect as tainted by chaos and is not an illuminate. The target gains a random beneficial chaos feature, does not detect as chaotic to any ability and gains no visible change (re-roll anything which has do this like gaining a limb). Roll D20 when the ability is used and if the number is equal to or lower than the number of features the target will then have from this ability then roll D6 on the following table in addition to the normal effect:
 1. Turn into a broo.
 2. Undergo effect of the Corruption function.
 3. Tainted by chaos.
 4. Gain a negative chaos feature which can be obvious and tainted by chaos.
 5. Gain a negative chaos feature without any obvious change but still not tainted by chaos.
 6. Gain D6 x 3 chaos features (positive or negative, can be obvious) for D6 days but still not tainted by chaos and doesn't detect as chaotic.
- Chaos Rift: a chaotic rift opens in the fabric of the world the size of a small burst template. Any creature cast into this void is completely destroyed and from the void comes a chaos creature of a similar kind D4 minutes later e.g. for a humanoid a broo, for an animal a gorp, for a ghost a chaos ghost – Touch, Difficulty D12 & Duration
- Chaos Slime: caster is covered in dripping green slime. It inflicts D6 acid damage on anyone touching the caster or in the same square as it. The caster is immune but things it is wearing or carrying aren't – Self, Difficulty D6 & Duration, **Bonus**.
- Chaotic Boils: the casters skin is covered in suppurating chaotic sores. If struck by a sharp weapon some of these will burst spraying chaotic ichor. All within a small burst are attacked on a roll of 1-4 on D10. They must then evade 1 square or take D8 Acid damage – Self, Difficulty D6 & Duration, **Bonus**.
- Chaotic Madness: the caster has +2 to Attack, Athletics (Damage) and Health (Resist Damage), cannot use parry and has -2 Gymnastics (Dodge). It can't use protective magic, is immune to Frightened, Routed, Calmed and Pacified. Every action the caster must either move as fast as possible towards the nearest enemy that it can attack or attack an enemy. If no enemies are available s/he must beat any bodies of enemies to a pulp or destroy inanimate objects. – Self, Difficulty D10 & Duration.
- Charge of the Ram: used as a bonus action along with a move to contact. This turn the caster has B2 for causing recoil, B4 Athletics (Stand Firm) and B4 Health (Resist Damage) for resisting opportunity attacks or stop thrusts, causes B2 weapon damage. – Self, Difficulty D10, **Bonus**

- Charge: caster has an extra action each turn which can only be used to charge to contact or make a move through. The caster has B2 for causing recoil after a move through or charge to contact and whilst making such a move has B2 Gymnastics (Dodge) for resisting opportunity attacks or stop thrusts. – Self, Difficulty D6 & Duration, **Bonus**
- Charisma: the caster seems extremely attractive and charming with a sparkling and magnetic presence. S/he has B1 to Persuasion or B2 with the opposite sex – Self, Difficulty D6 & Duration -1
- Chill: cools an inanimate object as though it was on packed in ice – Touch, Difficulty D6 & Duration-1
- City Harmony: only works in the city (or one of the cities) controlled by the cult e.g. the city of a city cult like Pavis or anywhere in Sylilla for Hwarin Dalthippa. Removes functions which make targets aggressive such as Fanaticism and Berserk. Also removes the following statuses Frightened or Routed from citizens in the area. All targets in the area are Pacified – Self, Difficulty D12 & Highest Magical Resistance in Area.
- Clairvoyance Block: Creates a block against Clairvoyance (or similar functions which allow remote sensing of a location such as Behold) in a volume of 200 cubes with the corners marked by appropriate ritual objects. Within the volume any attempt to use, move or create a view point must overcome the value of the block getting a success. If the attempt fails the user of remote sensing function cannot try again for a day. Also an alarm sounds indicating the location of the view point whilst in is in the area and if the attempt to enter fails those within the block know the location of the caster of the vision magic. The block lasts until the markers are removed. A caster must pay 1 XP for every instance of warding s/he wants to be able to maintain – Touch, Difficulty D14.
- Clairvoyance: for the duration the caster can see as though his/her view point was up to 150 squares away. When first created the view point must be in LOS. S/he can use an action to move this view point up to 20 squares. The view point can be moved through solid objects. The viewpoint is visible though not especially obtrusive such as a small ball of faint light or darkness. It cannot be damaged. Enchantments cast at the view point effect the user as though s/he as standing at the view point. Hiding magics work against this function and the caster will need to resist the magic to see the concealed thing (or even know that something is concealed). Any sacred space such as a temple will have a big resistance to this magic – equal to the magical resistance of its best priest. At any given time the caster must be looking from the view point or from his/her own location and switching perception takes 1 action. LOS, Difficulty D16 & Duration.
- Claws: gives the character claws – Self, Difficulty D6 & Duration-1, **Bonus**.
- Clear Sight: caster can see any illusion for what it is and through and concealing magic such as Conceal Object or Invisibility. The caster has B2 on Perception. Only works if the caster is able to look directly at the target in direct sunlight – elf, Difficulty D12 & Duration.
- Cloak of Fog: the caster is surrounded by a cloak of fog. This counts as Fog with a small blast template which moves with the caster - Self, Difficulty D8 & Duration.
- Coin Wheel: turns raw cold in Wheels (Coins) of the same weight – Touch, Difficulty D8, **Ritual**.
- Combat Healer: the caster can use any Healing ability s/he knows at a range of 5 – Self, Difficulty D8 & Duration.
- Command Gustbran: the caster can make Gustbran (bonfire) move up to 2D8. S/he can make Gustbran spread (up to its maximum size) or move out of the previous cubes entirely – LOS, Difficulty D16.
- Command Mahome: the caster can make Mahome (campfire) move up to 2D6. S/he can make Mahome spread (up to its maximum size) or move out of the previous cubes entirely – LOS, Difficulty D10.
- Command Oakfed: the caster can make Oakfed (wildfire) move up to 2D10. S/he can make Oakfed spread or move out of the previous cubes entirely – LOS, Difficulty D22.
- Community: all members of the same community (any social group or class with common interests such as people in a village, worshippers at a shrine) within 100 of the caster have +1 B2 at Persuasion (Reason) and Leadership and Oratory (Persuasive Speech) - Self, Duration, Difficulty D12
- Compress Actions: the caster has an extra action each turn of any kind – Self, Difficulty D18 & Duration

- Confuse Time Sense: confuses target's sense of time. The caster can choose an observation or event and move it in the target's memory to any time period. The target will do his/her best to make sense of the change but this may be impossible if it is too jarring. It works best for fairly straight forward things like a particular object was already missing or still there at a certain time, altering the date and time that an individual was first seen or met or changing when exactly the target did something - LOS, Difficulty D10 & Magical Resistance
- Confusing Fog: fills a large blast template or a massive blast for +1 difficulty with fog. – LOS, Difficulty D10 & Duration.
- Consume Soul: whilst devouring at least 5% of a human victim that has been killed within the last hour the caster also consumes his/her soul. On a success the caster heals 1 Power Drain or if the caster has no Power Drain then gains 1 Power Point. On a major success the caster heals 2 points of Power Drain or gains 2 Power Points. A Power Point can be spent to counter 1 point of Power Drain and a character can have a maximum of ½ a Power Point per max result of his/her spirit rune rounded up – Touch, Difficulty D12, **Ritual**.
- Consume: on any Success the target takes a Hurt. In the caster's subsequent turns the target the magic acts again. This continues until the magic fails to get any Success. Once the target is reduced to D1 Health it always causes a Disabled and Serious Wound. Roll to see which body part is disabled on D6: 1: Head, 2: Body, 3: Left Arm, 4: Right Arm, 5: Left Leg, 6: Right Leg. If the resistance is failed the following turn then the area effected is transformed into grey slime - this is fatal for head or body and otherwise a limb is lost. This ends the magic - LOS, Difficulty D8 (only when first used) & Magical Resistance, **Recharge**.
- Contract: two individuals agree to a written contract by signing it, sealing it or making their mark. Half of the contract is taken by each. The user casts the function to enforce the contract. If the contract is broken the other party to the contract is immediately alerted as is the caster - Touch, Difficulty D8 & Duration.
- Control Flood: the caster can force water back into its proper place. This can include rivers back into their banks and sea water back to its normal shore. As this involves overcoming the magical resistance of the body of water in question this often involves a ritual with many participants or a very powerful individual – LOS, Magical Resistance.
- Cool: keeps an individual cool as though in the shade – Touch, Difficulty D6 & Duration-1
- Co-ordinate Forces: allows the caster to speak silently and mentally with the target and at will see through their eyes. Target must be within 20 miles to maintain the link. All targets must be willing – Touch, Difficulty D8 + 1 per extra person linked to after the first & Duration-1.
- Corruption: the target is warped into a hideous chaos monster over a period of D10 rounds during which time it is disabled. It gains the disadvantage Hideous. Roll D4 for each skill and if it is odd subtract it from the skill and if even add it on. No skill can ever be better than +2 as a result – Touch, Difficulty D12 & Magical Resistance
- Counter Chaos: target's chaos features (random not built in) don't function for the duration. Any physical manifestations disappear and any game effects, positive or negative, no longer apply. Doesn't hide the taint of chaos - LOS, Difficulty D8 or Magical Resistance & Duration.
- Couvade: cast on pregnant mother and father. All the discomfort, sickness and pain of pregnancy and birth are experienced by the father instead of the mother but cause him no damage. The safety of mother can child/ren is assured – Touch, Difficulty D14, Last Whole of Pregnancy and Birth, **Ritual**.
- Create Bone Arrow: creates an arrow tipped with bone. When fired by a worshipper of Urengerum it deals the same damage as a bone tipped arrow. If the arrow hits an undead it has B4 damage and will damage an undead which is normally immune to solid damage. If it hits a ghost it deals normal damage against the XD of the ghost and on a success the ghost is power drained and on a major success destroyed – Touch, Difficulty D12, **Ritual**.
- Create Bound Head: the caster kills an intelligent victim and severs its head. The victim's mind and spirit are trapped in the head. The victim now has no will of its own and must obey the caster. It cannot take any actions or speak. Performing the ritual the first time has a 1 in 20 chance of giving the caster a chaos feature increasing by 1 each time it is used but no more than one can be gained in this

way. Once a chaos feature (positive or negative) has been gained subsequent uses have a non-cumulative 1 in 20 chance of giving a negative chaos feature. Heads need no food, drink or sleep. They do not recover from damage other than by magic. They have a Health of D6. If a head is killed the spirit is still bound to the skull and acts as a Vampire Ghost with a range of 15 squares from the skull which will attack any none worshipper of Thanatar, Tien or Aytar. The caster is in Mind Link with the head if it is within 5 squares and can use its magic. Once it has lost any Rune or Glamour Points though they are lost permanently – Touch, Difficulty D14, Magical Resistance, **Ritual**.

- Create Charm: creates a charm for any function of a single rune. If created by a shaman the charm can be created for anyone. A spirit society member can make a charm only for him/herself. Requires 3 hours before the charm is created to make the object in which the spirit is held unless rebinding an existing charm– Touch, Difficulty D12 for a D6 charm, D14 for a D8 charm, -1 if the charm is of a rune the caster has, **Ritual**.
- Create Fissure: the caster stamps and a fissure starting from that point spreads out. The fissure will be of length equal to twice the result – this is for each section separately if it divides – not in total. Its width will be equal to 1/10 of the result rounded up. Its depth will be equal to the result. It goes 3 squares out away from the caster (in a direction chosen by the caster) and then roll D6 on 1-2 it turns left 45 degrees, 3 it goes straight on, 4 it divides into two – roll again for each – they can't go in the same direction but can divide again, 5-6 it turns right 45 degrees. Roll again for another change of direction every D6 squares. Anyone who fails to evade the fissure will fall to the bottom and any building may collapse if it destroys enough of its support. After 2D6 (highest) turns the fissure closes again crushing anyone still down it – Touch, Difficulty Variable but D12 minimum.
- Create Gorp: creates a gorp out of a volume of earth - Touch, Difficulty D6+1 per 2 size of the gorp starting at -3, **Ritual**
- Create Market: protects a rectangle surrounding up to 64 squares (+1 difficulty per extra 64 squares) with 4 rods carved in the likeness of the god set up at the corners. The market is 4 squares high. The basic difficulty (which is then modified by area) is the same as the value chosen for the market. Any hostile magic which would be resisted by magical resistance cast from the outside to a target inside the market is resisted by the value of the market in addition to normal resistance. Any ghost or other insubstantial entity with hostile intent must resist the ward with its power and get a success to be able to cross the boundary. If it tries and fails it suffers a points of Power Drain cannot try again for 5 turns. Any embodied creature hostile to the market's purpose (thieves or raiders) crossing the boundary receives a Disrupt Enchantment with the value of the market and if stunned fails to cross. An alarm sounds if a hostile entity tries to cross the boundary. The market lasts until the rods are removed. Anyone removing the rods other than the caster suffers the Disruption. A caster must pay 1 XP for every instance of market s/he wants to be able to maintain – Touch, Difficulty D10 + 1 per extra 64 squares, **Until Cancelled, Ritual**
- Create Matrix: always a spell. Creates an object (which must be appropriate to the spell) containing a spell known by the caster. The spell can then be used by anyone wearing or holding the matrix. Requires 6 hours and 1 XP before the matrix is created to prepare the object – Touch, Difficulty D16, **Ritual**.
- Create Tornado: creates a tornado in the target area. Anyone in the target area (Massive Blast if value of magic D20+, Large Blast if D14+, otherwise Blast) must resist the val of the magic with Athletics (Stand Firm) or be thrown into the air landing one turn later a number of squares away equal to a result roll of the val magic and taking the same in falling damage. Anyone within ½ times the maximum result of the magic in squares must resist the magic with Athletics (Stand Firm). On a success or draw for the magic the target must move one square closer to the centre and not make any other move this turn. On a major success the move is three squares. At the start of each turn the tornado moves D10 squares in a random direction – Difficulty Value of Magic & Duration.
- Cut Otherworld Entity: caster's attacks with bladed weapons inflict full damage on anything which doesn't normally reside in this world no matter if it normally ignores such damage or reduces it. If the creature doesn't normally take physical damage (such as a ghost) it takes Power Drain from the attack as though it was damage – Self, Difficulty D8 & Duration, **Bonus**.

- Cut Stone: the caster can cut through stone using his/her hands touching the stone like a saw cutting through wood – Self, Difficulty D10 & Duration
- Cut Through Ice or Stone: the caster's axe can cut through solid stone or ice without breaking or blunting. The caster can chop through it as though it were wood – Touch, Difficulty D8 & Duration.
- Damage Shield: blocks one Hurt and is then cancelled. User can't attack in a turn when it is cast. – Self, Difficulty D10 & Duration
- Dance of Allure: the caster can use Arts (Dance) as well whenever rolling on Persuasion (Seduction) – Self, Difficulty D8 & Duration.
- Dance of Rule: the caster can use Arts (Dance) as well whenever rolling on Leadership and Oratory – Self, Difficulty D8 & Duration, **Bonus**.
- Dance of Slaying: the caster can use Arts (Dance) as well whenever rolling on Weapon (Attack) – Self, Difficulty D8, Duration, **Bonus**.
- Dance of Victory: the caster can use Arts (Dance) as well whenever rolling on Bravery or Strategy and Tactics – Self, Difficulty D8, Duration, **Bonus**.
- Dance Otherworld Path: the caster can use Arts (Dance) when rolling on Perception or Knowledge when in the otherworld – Self, Difficulty D8, Duration, **Bonus**.
- Dance Past Blades: the caster can use Arts (Dance) as well whenever rolling on Gymnastics (Dodge) – Self, Difficulty D8 & Duration, **Bonus**.
- Darksee: allows caster to see normally in darkness as though light or in light as though darkness whichever is more advantageous. Ignore any penalty for being in light. The caster is immune to the statuses Dazzled and Blinded – Self, Difficulty D12 & Duration -1.
- Deadly Distraction: target is at P2 to all action – LOS, Difficulty Magical Resistance & Duration
- Death Paint Ritual: the caster performs a ritual involving painting herself with sacred patterns and signs. She then can't wear any armour but her skin counts a medium armour with no penalties. She has P2 to Dodge and Parry and B2 to Athletics (Damage) and Weapon – Axe – Self, Difficulty D10, Duration 1 hour, **Ritual**.
- Decay Magic: within a Large Burst all magic with a Duration acts as though a number of turns of the caster's choosing has passed pushing the function further toward ending because of Duration or ending them completely – LOS, Difficulty D12.
- Defender Against Monsters: caster has B1 to any Weapons, Magical Resistance, Bravery or Health rolls when fighting chaos creatures, underworld demons, uz, dwarfs, elves, barbarians, fire elementals and demons, cannibals and cultists of the cold earth. At the end of the duration s/he takes a Minor Wound – Self, Difficulty D12 & Duration, **Bonus**.
- Deflect Missile: when the target is hit with a missile or thrown weapon then the deflection's value resists the damage as well as any other resistance. If the deflection gets a higher result than the damage (even if other resistance was higher) then the attack counts as a miss having no effect on the target. – LOS, Difficulty Deflection Value & Duration, **Bonus**.
- Desiccate: target water creature or elemental must resist the caster's rune using Health. If the magic gets a major success the target takes two hurts and on a minor success or draw 1 hurt – LOS, Difficulty D8, **Recharge**.
- Destroy Undead: target undead are destroyed. Can be used against several targets making one roll against all treating the rune as -1 for each target after the 1st or against an area at -1 for a small burst, -2 for a large burst or -4 for a massive burst – LOS, Difficulty D10 & Magical Resistance, **Recharge**.
- Detect Detection: the caster is alerted mentally if detection magic detects or attempts to detect the target individual or object –LOS, Difficulty D8 & Duration -1
- Detect: Detecting a particular substance or kind of individual or action with magic within 40 squares. The caster knows each instance of the thing, its approximate size and power. Usually set to ignore tiny amounts. Where it detects a class of things e.g. metals, undead gives what type the thing is within the class. Detects but doesn't spot. If the caster is visible it is clear that s/he is using magic but if not the target (if conscious) won't automatically know that the detection has been used. Examples – Detect Gold, Detect Life, Detect Uz, Detect Undead, Detect Enemies – Self, Difficulty D8 or if concealed by magic the value of the concealing magic.

- Detect Lie: detects if a particular short statement made by the target is untrue. Can be used within a minute of the statement being heard. On a major success it detects if the statement is a complete lie , an evasion or a partial truth. On a success or a draw it detects that a statement is untrue but not to what degree. On a failure the caster can't tell if the statement is true. On a major failure the caster thinks the statement is true or untrue to whatever degree the target chooses. Only on a major failure will the target automatically know that the magic has been used. This magic is never obvious to bystanders. It can only be use once against a particular statement. – LOS, Difficulty MR min. D8 +2.
- Detection Blank: Provides concealment against magical detection equal to its value – LOS, Difficulty As Value & Duration.
- Determine Gambling Odds: caster knows the odds in any gambling game. The magic sorts through the various factors of the rules – LOS, Difficulty D8.
- Devastating Riposte: if the caster defends with a sword parry and an attack gets a major failure s/he can immediately (with no actions) riposte making an attack at B2 to hit and damage – Self, Difficulty D8 & Duration, **Bonus**.
- Dew: this function summons Dew Maid. She departs after 15 minutes leaving a well moistened area for 75 squares around the point she was summoned – Touch, Difficulty D10 +2 per additional 75 square radius, **Ritual**.
- Direct Soldiers or Dancers: target dancers have B1 to Arts (Dance). Target soldiers have B1 Athletics (Stand Firm) and B1 to all attempts to maintain formation – LOS, Difficulty D8 for 1 target, D10 for 10 targets, D12 for 100 targets and D14 for 1000 targets & Duration.
- Dismiss Confusion: remove any of the following statuses from a target: Befuddled; Confused; Dazed or Pacified. If the target is possessed by a Madness Ghost then it is dismissed and the possession ended – LOS, Difficulty D12 & Magical Resistance (for a Madness Ghost)
- Distort Time: within the target Massive Burst time seems either speeded up or slowed down at the caster's option. If time is slowed then each individual in the area misses every other turn starting from when the function is cast. If time is speeded up each individual in the area gets another complete turn (in their normal turn order) in-between normal turns. Anyone trying to move across the boundary of the effect must perform an Athletics (Stand Firm) task with a difficulty of D10. On any failure they fail to move through and their action ends. On a draw or success they take 2D10 damage directly to Health (Resist Damage) and move through. Any missile or thrown attack coming out of an area of fast time or entering an area of slow time is P3 to hit (the distortion makes it hard to be accurate). Missiles or thrown attacks coming out of an area of fast time deal B3 damage (is going fast). Any missile or thrown attack coming out of an area of slow time or entering an area of fast time is P3 to hit (easy to dodge) and deals P3 damage (going slow). Any Physical Agent coming out of an area of slow time or into an area of fast time is B3 easier to dodge. Any Physical Agent coming into an area of slow time or out of an area of fast time is P3 harder to dodge – LOS, Difficulty D14 (Note any Duration for Slow Time will be doubled from the point of view of those outside it), Duration.
- Divination Block: the caster chooses a fact or event to conceal from Divination. Any Divination about the event or fact will fail unless it overcomes the block – Difficulty as the value of the block, **Permanent until overcome**.
- Drown Chaos: this ability works on chaos creatures which can't survive underwater. The value of the magic starts as D3 and goes up by 1 each turn. Each turn at the end of its turn the creature must resist the value with Health getting at least a draw or take a hurt – LOS, Magical Resistance, **Concentration, Recharge**.
- Drown: this ability works on creatures which can't survive underwater. The value of the magic starts as D3 and goes up by 1 each turn. Each turn at the end of its turn the creature must resist the value with Health getting at least a draw or take a hurt – LOS, Magical Resistance, **Concentration, Recharge**.
- Eat Person: a scorpion man uses this function whilst eating another intelligent being. The scorpion man gets +1 (up to a total of 1) in any skill in which the victim was better than it and any common magic or spell that it knew that the scorpion man can remember and has the runes/abilities to use – Touch, Difficulty D12. **Ritual**.
- Echolocation: sense with active sound as Darksense – Self, Difficulty D8 & Duration-1

- Ecstatic Communion: the target will look at being drained by a vampire as a wonderful experience and not resist or cry out – Range 5, Difficulty D10 & Magical Resistance, **Concentration**.
- Elemental Weapon (Kind): causes a weapon to deal to replace its normal damage with an effect like that of a physical agent on whoever it hits. The physical agent value is equal to the rune rather than the normal damage of the weapon. – Held Weapon, Difficulty D10 & Duration, **Concentration, Bonus**.
- Enchant (Rune Metal): makes a rune metal except iron as hard as bronze. Enchants iron so that a character using it can also use magic and makes it harder than bronze – Touch, Difficulty D14, Permanent, **Ritual**.
- End Feud: when used at the beginning of negotiations to end a feud this ability augments everyone who is trying to compromise and reach a settlement's Persuasion skills – Targets All in the Negotiation, Difficulty Augment+4 & Duration -2, **Ritual**.
- Endurance: caster can go without sleep, drink or food for 2 days without suffering any ill effects. S/he takes 1 more Hurt to Disable than normal. Can only be used once per week (from full moon to full moon) – Self, Difficulty D12
- Enhance Ghost: target ghost has B2 when fighting in spirit combat – LOS, Difficulty D10 & Duration.
- Enhance Quake: this ritual is performed before a Physical Agent Quake. If successful a quake cast immediately afterwards covers a greater area – Physical Agent, Difficulty D16 +1 per doubling of the diameter (i.e. +1 for x2, +2 for x4, +3 for x 8, +4 for x16 etc.), **Ritual**.
- Enter Protected Place: any magic protecting a space and any magical guardian must overcome this magic or fail to detect the caster. For example warding might not detect the caster and therefore not damage him/her or set off an alarm – Self, Difficulty as chosen & Duration.
- Erotocomatose Lucidity: function producing ecstatic oneness in participants engaged in erotic congress – Touch, Duration, Difficulty D8.
- Escape Combat: caster does not trigger opportunity attacks when moving out of range of an enemy-Self, Difficulty D6 & Duration, **Bonus**.
- Escape From Harm: the caster does not trigger opportunity attacks as long as s/he doesn't attack and doesn't move into contact other than as part of a move out of contact – Self, Difficulty D6 & Duration, **Bonus**.
- Eternal Peace: all targets in a large blast radius must resist or their souls are given to the embrace of Gark the Calm and each is of their bodies is animated as a zombie with their experience dice. The zombies will obey simple orders and can be set to guard areas – LOS, Difficulty D8 & Magical Resistance, **Ritual**.
- Extension: targets magic with a Duration. Increases how long the magic lasts and if it required Concentration it no longer does. LOS, Difficulty – 1 hour D12, 6 hours D16, 1 week D20.
- Extinguish: puts out a fire up to the size of a campfire (Mahome) - LOS, Difficulty D8
- Extra Attack: Gain an extra targeted action to make a physical attack per turn – Self, Difficulty D16 & Duration, **Bonus**.
- Extra Personal Action: Gain an extra personal action per turn to perform any action other than cast magic or move –Self, Difficulty D14 & Duration, **Bonus**.
- Face of Lanbril: caster including his/her clothes appears extremely ordinary and forgettable. Doesn't create a particular appearance just a randomly boring one. Without magic the disguise can't be seen through. Any magic which enhances perception allows it to be seen through but only if it overcomes the user's rune – Self, Difficulty D6 & Duration -1.
- Fall Down: target falls down – LOS, Magical Resistance.
- Falling Wind – target cannot use any air rune magic which summons, creates or strengthens the wind or summons air elementals – LOS, Magical Resistance & Duration
- False Form: the value of the function magically conceals the true nature of the caster (an ogre) to all senses and magic so that s/he appears entirely as a normal human – Self, Difficulty As Value, Duration 8 weeks.
- Fanaticism: the target has +2 to attack, cannot use parry and has -2 Gymnastics (Dodge). It can't use protective magic. If the target is currently Frightened, Routed, Calmed or Pacified then instead it

cancels that status immediately (with no Duration) – LOS, Difficulty Magical Resistance (for unwilling target) or D8 & Duration

- Fang of Wachaza: this ability is cast on the user's trident. If a target is hit by the user's trident then, as well as the normal effects of damage, it must resist the total damage result minus the resistance to the damage using its full Health (not including any penalty for Hurts). On any success the target's spirit immediately leaves its body as for a Sever Spirit. E.g. a trident attack deals a damage result of 7. The victim gets a result of 4 on the resistance and takes a Hurt. The victim must resist $7-4 = 3$ with its full Health. If the magic gets any success the victim dies – Own Trident, Difficulty D14 & Duration.
- Farsee: the target has the ability to see like with x10 binoculars at will. Treat range for spotting with vision as 1/10 of actual – Touch, Difficulty D8 & Duration -1.

- Fight With Blinding Speed: any parry or dodge against the caster when s/he is attacking with a melee weapon is P1 – Self, Difficulty D10 & Duration
- Fix Intelligence: target creature becomes an unintelligent animal ruled by instinct without Knowledge skills or non-intrinsic magical abilities – Touch, Difficulty D12 & Magical Resistance, **Ritual**.
- Flame Skin: The character's skin is wreathed in flames. S/he is immune to fire damage and anyone or anything touching or being touched by him takes D8 B2 Fire damage. Flammable weapons make a breakage save when used on the caster – Self, Difficulty D12 & Duration
- Flight: caster can fly with a movement bonus equal to rune value (e.g. a D12 rune is B12) – Self, Difficulty with only light equipment D12, with medium equipment D20 & Duration.
- Float – the target volume of a substance floats in water – LOS, Difficulty D6 + 1 per cube of the object & Duration-1.
- Flowers: for the duration the caster can make pretty flowers appear where she walks or touches. If the location is suitable – Self, Difficulty D6 & Duration.
- Forget: target forgets events taking place within 2 minutes of being effected by the magic. The memories fade about 5 minutes after the magic takes effect – LOS, Difficulty D8 & Magical Resistance,
- Fortune: when making any roll for a task or test (not a save) then if the caster can roll again using the original dice -2 and must take the new result – Self, Difficulty D8 & Duration.
- Freeze Ground: an area of ground freezes solid. It counts as difficult going and resists attempts to tunnel or dig it – LOS, Difficulty D6 for 3 x 3 and +1 per +1 x 1, lasts until melted.
- Friendly Greeting – user determines the correct form of greeting ritual to use for a particular target individual or group. As long as such a ritual exists s/he knows the proper form which will usually let some kind of negotiation to at least begin – Self, Difficulty D8.
- Gather Hunters– caster can link a group of allies into a hunting band. Once the link is established as long as they are within 30 miles of each other they will know each other's location and distance and can communicate simple messages such as "come here", "move north", "prey sighted", "bear sighted", "enemy to north" to each other mentally – Touch, Difficulty D8 & Duration-1, **Ritual**.
- Ghost Dart: caster's attacks with missile or thrown weapons can be used to attack ghosts. The ghost takes Power Drain from the attack as though it was damage – Self, Difficulty D8 & Duration, **Bonus**.
- Ghost Shield: caster uses the function's rune alongside Magical Resistance (weakest rune) when fighting in ghost combat as a test or task. If the rune is the weakest rune it is rolled twice. – Self, Difficulty D8 & Duration, **Bonus**.
- Glowspot: the caster and anyone within a small burst of him/her can cast magic as though the moon was full – Self, Difficulty D16 & Duration
- Glue: creates a patch of glue with strength equal to the value of the magic. Only effects non-living things. Breaking the glue requires rolling Athletics (Strength) and getting a success against the glue, Creates enough to glue a fix a glove to a weapon, a boot to the ground, a sword to a scabbard – LOS, Difficulty Strength & Duration.
- Go Without Water: target can survive without drinking any water at all for up to three days without ill effects. After doing so it must drink enough water to equal the water it should have drunk for the

missed days (which it can do so without ill effects such as bloating) or suffer all the consequences at once. The function can't be used again until it has drunk – Touch, Difficulty D6, **Lasts Up to 3 days.**

- Grounding: target cannot fly by any means and immediately descends (gently) to the ground – LOS, Magical Resistance, Duration
- Group Defence: Creates a shimmering barrier in a radius of 3 squares around where the caster is standing. It then remains still. The caster and all within the area when the function is activated suffer one point of Power Drain. Each 2 difficulty added to the function increases the radius by 2 and increases the Power Drain by 1. Any target which wishes to do so may resist the caster with Magical Resistance to avoid taking the Power Drain. Any creature trying to pass the barrier receives an attack with value equal to the total power drain inflicted by the function as a Dice (rounded up) against Health (Resist Damage) ignoring armour causing a Hurt on a Success and on a Major Success Stun and an extra Hurt for a result of 10-14, +2 Hurts for 15-20 and so on. E.g. if the function has inflicted 9 power drain the damage is D10 – Touch, Difficulty D12 +2 per increase, Until Cancelled
- Grow Arms: the caster grows extra arms which can be used normally as off-hands. Someone with this ability must wear clothing/armour that allows this process – Self, Difficulty D10 for 2 arms, D14 for 4 arms, D18 for 6 arms, Duration.
- Grow Legs: the caster grows extra legs which can be used normally. Someone with this ability must wear clothing/armour that allows this process. Each pair of legs gives B1 Running, B1 Athletics (Stand Firm, Climbing), B1 Health (Resist Damage). – Self, Difficulty D10 for 2 legs, D14 for 4 legs, D18 for 6 legs, Duration.
- Guard (Kind of Individuals): this function protects the named kind of individual against any kind of attack as long as they remain within 5 squares of the caster. Any attack including hostile magic aimed at a protected individual instead counts as aimed at the caster. No ability is allowed to attack both the caster and one of the protected individuals at the same time. If an attack would normally be against the caster and a protected individual (e.g. a physical agent that would put both the area) it attacks the caster first and only effects other if this causes the function to end. The function ends if the caster is Disabled, Routed or Stupefied – Self, Difficulty D12 & Duration.
- Heal Self Beforehand: if the caster takes one or more Hurts immediately roll the value of the rune in test of difficulty D8. On any success 1 Hurt is cancelled – Self, Difficulty D10 & Duration.
- Heal What I Hurt: the caster can heal any status or wound which s/he caused – Touch, Difficulty D8.
- Healing Trance: the target and the caster fall into a trance in which the target's healing rate (natural or magical) is increased by a factor of 8. Both the caster and the target must still be fed and cared for whilst this goes on – Touch, Difficulty D10, Lasts Until Healing Completed.
- Heart Seizure: can only be cast on a target that has already been seduced during congress. Target has a heart attack and dies – Touch, Difficulty D10 and Magical Resistance.
- Heat: heats up an inanimate object as though it was on a cooking fire – Touch, Difficulty D6 & Duration-1.
- Hibernate: the caster goes into hibernation like a bear. S/he will wake up if disturbed or when a specific trigger is met which is set by the caster e.g. the temperature reaches a particular level or after a certain time – Self, Difficulty D8, **Ritual.**
- Hide Fact: the target forgets one specific fact chosen by the caster e.g. that the caster was here, that an object existed, someone's name – LOS, Difficulty Magical Resistance.
- Hide Individual: Concealing an individual with magic against magical searches – Touch, Difficulty As the value of the concealment +1 per extra individual concealed at the same time by the user (even if in separate uses of the function), **Until Cancelled.**
- Hide Object: Concealing an object with magic against mundane and magical searches – Touch, Difficulty As the value of the concealment +1 per extra object concealed at the same time by the user (even in separate uses of the function), **Until Cancelled.**
- Hide: the caster has thick hide. Provides B1 armour – Self, Difficulty D6 & Duration.
- Hold Moment: the caster forms a small bubble of compressed time around him/herself and anything s/he is wearing or carrying. Outside the bubble everything else apparently stops still from the caster's point of view. Whilst the magic is active the caster can move and take actions which target only

him/herself and items carried or worn. The caster can't target other things so can't attack anyone, open a door or steal something for example. The caster does not act in the turn the magic ends and s/he re-enters normal time – Self, Difficulty D12 + 1 per personal turn experienced, **Bonus**.

- Human Sacrifice: when used as part of another ritual makes the user's rune count as +1 per human victim sacrificed.
- Identify Magic: caster can detect the cause and source of any magical effect – LOS, Difficulty D8.
- Identify Otherworld Entity: caster knows exactly what target otherworld entity is and what powers and properties such an entity has – LOS, Difficulty D10.
- Identify Runic Power: caster knows which runes are associated with target magic, otherworld entity or item - LOS, Difficulty D10
- Identify Scent: caster can sniff the ground or an object and identify what kind of creature has passed or touched it like a cat could do – Self, Difficulty D8 & Duration.

- Ignite: sets an inanimate flammable object alight (like an instant fire-lighter)– LOS, Difficulty D6.
- Ignore Pain: target is allowed to ignore penalties to movement and skills except Health as a result of Serious Wounds. Target ignores Disabled if caused by reaching D1 Health but still rolls on the Wound Table. Target and has +2 to recover from Stunned. The referee should decide how much extra damage the character is doing to him/herself by walking on a broken leg for example – Touch, Difficulty D8 & Duration-1
- Illusionary Appearance: the caster changes his/her appearance to the desired form using an illusion. The new appearance must be broadly the same shape (same number of consciously controlled limbs etc.) and the caster must fit entirely within the new form. The appearance fools all senses. It can only be detected using magic or by making a successful Perception roll which is resisted by the magic. Only one attempt is allowed initially at the Perception roll and another if the caster does something very unlikely for the appearance giving reason for doubt – Self, Difficulty As Value of Magic & Duration -1
- Increase Size: the caster (but not objects worn or carried) becomes larger – Self, Difficulty Size +1 for D6 and +1 per size thereafter & Duration.
- Infect Source: can be used to allows a summoned disease spirit to secretly occupy a source such as a well, pool, food supply etc. Whenever people use the source they risk being infected with a disease spirit as though coming into contact with an infected individual – Touch, Difficulty D10, **Lasts Until Ghost is removed**.
- Invisibility (may list circumstance): provides Concealment against Vision and Night Vision. The magic ends if the caster attacks - Self, D8 for 1 Concealment and then +1 per +1 & Duration, **Concentration**.
- Invisible Light – illuminates a radius of 10 squares with a type of magic which allows worshippers of the same god to see normally but has no benefits for others – Touch, Difficulty D6 & Duration -1.
- Item Knowledge: on a success gives a brief history of an item. On a major success gives a full history – Touch, Difficulty D10, **Ritual**
- Jabber: replaces a arm with a jabber which attacks like a JLS which can't be thrown using Unarmed skill and doesn't count as an off-hand– Self, Difficult D6 & Duration -1 **Bonus**.
- Jigger: the caster's mace has B4 damage. Anything hit by it must resist the damage with Athletics (Stand Firm) or be knocked down. If the target is flying it is knocked to the ground falling immediately –Self, Difficulty D14 & Duration.
- Kill Foreigner: this function does not work on non-intelligent creatures, Praxians of any kind (including Morakanth, Basmoli, Broos from Prax, any member of a major or lesser tribe). It otherwise acts as a Sever Spirit - on a draw or success the creature survives but is Stunned. On a major success the magic separates the creature's spirt from its body killing it immediately but leaving its body undamaged. The spirit will wait near its body for 30 minutes before departing for the otherworld – LOS, Difficulty D14 & Magical Resistance, **Recharge**.
- Kill Scent: caster does not smell of anything, can't be detected by scent and leaves no scent trail – Self, Difficulty D6 & Duration -1.
- Leap (B): caster can use a move action to leap 2D6 B6 squares – Self, Difficulty D8 & Duration

- Levitate: the caster can rise and descend using a move action to move upward or downward up to 10 squares. Lateral movement can be no more than 1 square per move – Self, Difficulty D12 & Duration
- Light in the Darkness: an area equal to a large blast around the caster is illuminated as bright as day. All darkness creatures and those with a darkness rune are at P1 to all actions within the area and the caster and all the caster's allies have B1 to Bravery and Health (Resist Damage) – Self, Difficulty D10 & Duration.
- Light of Wisdom: caster is granted wisdom and has +1 to Arts, Craft, Customs, Devices, Healing, Knowledge, Leadership and Oratory, Perception, Literacy or Tactics for a single test or task. The magic lapses at the end of the test or task or when the duration runs out – Self, Difficulty D10 & Duration, **Ritual**.
- Light: illuminates a Large Blast like day light – LOS, Difficulty D6 & Duration-1.
- Logical Thinking: for the duration the caster has B1 on Knowledge tests and tasks – Self, Difficulty D10 & Duration.
- Long Reach Spear: caster's spear is treated as having a range of 3 – Self. Difficulty D8 & Duration
- Lower or Raise River: the caster chooses a location within the river and either draws river water toward the target location raising the river in the area or forces water away hence lowering the river. The river will rise or lower the chosen number of squares in the target square and squares within 5 squares of it. In the next 5 squares the change will be one less, the next 5 two less and so on. In effect this creates either a dome of water or a basin of water. The maximum change is equal to the depth of the river at the target point – LOS, Difficulty D10 + 1 per square of change, Concentration.
- Magic Rope: allows a rope or some other similar substance to act like a ladder. It can be put up like a ladder and climbed as easily – Touch, Difficulty D8 & Duration-1.
- Magical Dance: this ability is used alongside any ritual of the cult or an allied cult gives +1 chance of success – Self, Difficulty D12.
- Magnify Command: this ability is used along with Command magic. It changes the Duration to -1.
- Make Love Potion: this caster makes a single dose of a love potion which is a colourless odourless liquid and has a volume of 1 drachm (about 3.5 ml). If someone drinks the potion s/he must resist the magic of the potion using magical resistance next time s/he sees a target of the correct race and gender or fall in love hopelessly with that individual – Touch, Difficulty D16 & Strength of the Potion, **Ritual**.
- Make (Object): if the caster has all the materials needed to make the named object in any form (raw and unshaped, scraps and pieces) s/he can make the indicated object like a standard new item – Touch, Difficulty D10 for something that can be easily carried, D14 for something that could be moved in a boat or cart, D18 for something bigger, **Ritual**.
- Mask of Command: caster has B2 to Leadership and Oratory (Commanding Speech) and Strategy and Tactics – Self, Difficulty D14 & Duration – 1, **Ritual**.
- Memorize Text: caster memorizes the entire content of a document up to the size of a book as s/he reads it. She can recite or rewrite it perfectly. At any time the caster can memorize a number of books equal to the maximum of his/her Knowledge Skill result – Self, Difficulty D8.
- Mile Eater: the caster or his/her mount can travel at full movement rate without tiring – Touch, Difficulty D6 & Duration -1
- Mind Read: allows the caster to read the conscious thoughts of the target. The target will know this is happening – LOS, Difficulty D14 or Magic Resistance & Duration.
- Mindbridge: allows mind to mind communication between two people consisting of voluntary transmission of conscious thought. When cast one party must think of the other but doesn't need to be able to see them. A character cannot take part in more than one Mindbridge at a time. The magic ends if the range exceeds the limit created when it was cast. The two characters are visibly connected by a rainbow arcing across the sky – Difficulty D10 + 1 mile of range after the 1st, **Until Cancelled**.
- Mindspeech: allows the caster to speak silently and mentally with a target within 100 squares as though they were speaking the same language – LOS, Difficulty D10 + 1 per extra person linked to after the first & Duration-1.
- Mobility: target has B6 Movement – LOS, Difficulty D6 & Duration, **Bonus**.

- Moulder: a suitable target begins to sprout a chosen type of fungus – Touch, Difficulty D10, **Recharge**.
- Multimissile: when the target missile (arrow, bolt, slingshot, JLS etc.) is shot it creates a number of other missiles. All of the missiles must be aimed at targets within a small blast template but otherwise act entirely normally. The extra missiles vanish once any damage has been dealt and the effect ends once the missile has been shot. The magic can't be used with Elemental Weapon – Touch, Difficulty D8 for 1 extra missile +1 per extra missile & Duration, **Bonus**.
- Multispell: Allows the user to have an extra action to cast magic each turn –Self, Difficulty D18 & Duration
- Never Stuck: when cast immediately cancels the statuses Bound, Slowed, Grappled or Trapped. Caster can ignore Glue, sticky mid etc. – Self, Difficulty D8 & Duration, **Bonus**.
- Night Vision: see in the dark as the sense Night Vision – Self, Difficulty D6 & Duration-1, **Bonus**
- No Retreat: caster cannot be moved from the location s/he is in involuntarily – Self, Difficulty D12 & Duration, **Bonus**
- No Sleep: When cast allows the user to go for another day without sleep with no ill effects. If the magic fails it can't be used again today – Self, Difficulty D10, Duration – 1 day.
- Oath: an individual freely promises to do something within a certain time or not do something. The caster casts the function to enforce it along with another function s/he possess e.g. Physical Agent, Sever Spirit, Mind Blast. If the Oath is broken the second function goes each time (once per day if s/he promised to do something) effecting only the oath breaker. A physical agent can't be dodged. The second function also goes off immediately if an attempt is made to dispel the oath but will not go off again if the dispel was successful – Touch, Difficulty D12.
- Olfaction: sense with smell – character can use scent like an animal with a good sense of smell like a dog or bear – Self, Difficulty D6 & Duration-1, **Bonus**.
- Open or Close Gate: a gate or door opens or closes no matter what it weighs or if it jammed or blocked. It won't open a locked or barred gate or door unless the caster has the authority to do so (e.g. owns it, has the key, is entitled to enter a city or town. It will work on something which no one owns such as in a ruin). Again it only locks or bars that if the caster has the authority to do so – LOS, Difficulty D8.
- Open Trench: a volume of ground drops. Anything in the area which doesn't get out of the way will fall over, be carried to the bottom, takes D6 AP2 damage and is trapped under D6 debris requiring a Athletics (Strength) test to escape. Buildings will collapse if enough of their support is lost – LOS, Difficulty D10 for 1 cube +1 per 2 more cubes.
- Opening Ritual: target ship can sail out onto the open sea without being destroyed by the Closing – Touch, Difficulty D8, **Ritual**.
- Oracle: when cast the user receives visions predicting possible results of actions – Self, Difficulty D16, **Ritual**.
- Overawe Barbarian: Target barbarian has P1 to any action or resistance against the caster – LOS, Magical Resistance, Duration.
- Pain Blow: when cast on a weapon that weapon has B2 damage for determining if it causes Stun only – Touch, Difficulty D8 & Duration, **Bonus**.
- Paradisal Aviator: the caster can fly at B18 taking a number of targets with him/her. The targets must be within 5 squares to remain flying. Whilst this function is active the caster may use an attack action to target any other flying creature within LOS using rune vs magical resistance. The target instantly loses the ability to fly and plummets to the ground. It will not regain the ability to fly until out of LOS of the caster – Self, Difficulty D16 & Duration-1.
- Parry Other Blow: the user can use a sword parry to parry attacks against people within 3 squares of him/her. If the protected target is not adjacent then the user must move so as to be adjacent by the shortest possible route. If there is no available square adjacent to the target then the ability can't be used. Both the parry and the move interrupt the attacker's action and no opportunity attacks are triggered during the move – Self, Difficulty D10 & Duration.
- Pass Through Barrier: the caster can transform unto water to flow through a gate or barrier. The ability requires the portal not to be water tight. To use it the caster must start in contact with the

barrier and at the end of the magic will re-solidify on the other side. How long it takes to go through will depend on how long it would take for water (in the form of a rushing river) to flow through so in 1 action for a portcullis but taking a few actions for a door. The caster can't do anything else whilst the magic is working. If the portal is magically sealed then the caster must also resist that magic as part of the difficulty – Self, Difficulty D12 + Possibly Magical resistance.

- Path Watch: is cast on a path or road. As long as the caster remains on it he can Detect Enemies, Detect Ambush, Detect Traps constantly – Touch, Difficulty D12, **Ritual**.
- Pen: means the caster can use a pencil like stick as though it was a fountain pen – Self, Difficulty D6, Duration 4 hours.
- Perfect Balance: caster can balance on anything no matter how narrow. For example, s/he can walk a tightrope or set a rod on the ground, climb it and balance on the top – Self, Difficulty D8 & Duration, **Bonus**.
- Phalanx: targets a phalanx of adjacent hoplites up to 100 in number. Each hoplite target gets B1 Large Shield Parry and B1 Stand Firm as long as s/he is adjacent to another two hoplites in the same phalanx – LOS, Difficulty D12 & Duration.
- Point to (Thing): the caster can point at will to the nearest instance of the listed thing that exceeds a specified size – Self, Difficulty D6 & Duration.
- Pounce: caster can leap up to 6 squares from a standing start or up to 10 squares after a move. S/he can leap into contact with an enemy and any opportunity attack or stop thrust this produces is at P2 – Self, Difficulty D8, **Bonus**.
- Prayer: the caster has +1 to a skill or rune to resist the next hostile action against him/her. This works against a single test or task and then ends. For example could be the next roll to hit. Ends after the duration or after the roll – Self, Difficulty D8, Duration.
- Predict Action: the caster can predict a little while into the future seeing probabilities. S/he can roll an extra D6 skill dice and use it if it is higher than another skill dice s/he throws – Self, Difficulty D12, Duration.
- Propel Boat: the caster can propel a river boat. It can go about 14 mph - faster downriver and slower upriver or into a headwind – Touch, Difficulty D10, **Concentration**.
- Protect Document: target book, scroll or document is very hard to break or tear, won't burn and is waterproof. The caster can choose to protect it with a password and if it is opened without saying the password it will appear blank – Touch, Difficulty D12, Duration – 1 or permanent for 1 XP, **Ritual**
- Protective Circle: the caster creates an invisible barrier in a small blast template. If any magic is cast across the boundary in either direction the value of the circle makes a test against the rune which created it. On a draw or any success the magic stops at the edge. This only applies to magic which is cast across the edge not magic with a duration which is carried across. It does work on Physical Agents. Any otherworld creature attempting to cross the boundary must resist the value of the circle with Magical Resistance. On a draw or any success it cannot cross the boundary and suffers Power Drain. If a otherworld creature or any magic succeeds in crossing the circle the circle is dispelled – Touch, Difficulty Value -2 +2 per instance of the spell the caster maintains after the first, **Until Cancelled**.
- Purify Food and Water: cleans a volume of food or water up to 1 cube in size destroying dangerous containments and removing any disease in it – Touch, Difficulty D8, **Ritual**
- Purify Gold : extracts all the gold from a target object up to 1 ton in weight. This could be rock, an alloy or a manufactured object for example – Touch, Difficulty D10, **Ritual**.
- Purify Water: extracts all contaminants from a volume of water up to 6 cubes in size. All the dirt, salt etc. is moved out of the volume and placed adjacent to it so it only really works if the water is contained in some way – Touch, Difficulty D8, **Ritual**
- Raise Ground: target square rises and the surrounding squares also rise to maintain a slope to that summit. The caster can choose a gentle or steep slope (up to 1 up for 1 across). Anyone who is on the rising ground must resist the magic with Athletics (Stand Firm) or fall. Any building on the ground must resist the magic or be damaged on a defeat or destroyed on a major defeat – LOS, Difficulty D8 +

1 per square rise plus possibly magical resistance if the land or any building on it have magical resistance.

- Ram: gives the character a ram attack – Self, Difficulty D6 & Duration-1
- Range Arrow: the caster can shoot arrows to LOS with no range penalty – Self, Difficulty D12 & Duration.
- Rapture: can only be cast on a target that has already been seduced at the end of congress. Target is completely enthralled. S/he has no will power, cannot speak coherently and can be lead about at the will of the caster – Touch, Difficulty Magical Resistance & Duration -1.
- Rebirth of Chaos: the target gains a chaos feature. On a roll of 1-3 on D10 it is a negative feature, otherwise it is positive. If the target is not a broo roll D10. If the score is equal to or less than the number of chaos features they have they turn into a broo. If the target is a broo roll D20. If the result is less than or equal to the number of chaos features the target has it dies – Touch, Difficulty D12 & Magical Resistance, **Ritual**
- Recite Message: caster can listen to a message which lasts for the duration. S/he will be able to reproduce it perfectly for its intended recipient but not for anyone else. If the magic fails when s/he comes to recite it s/he must rely on normal memory. – Self, Difficulty D6 & Duration.
- Recognize Otherworld: caster knows which otherworld s/he is in, looking at or which otherworld target entity is from - LOS, Difficulty D10.
- Reconstruction: allows a sequence of events from the past to replay for the caster's senses as long as the caster is in the same physical location. The caster must state the time and date to begin – Self, Difficulty D18 & Duration+1
- Red Armour: caster's armour (or skin if wearing no armour) glows with pulsing red moonlight. It is B2 – Self, Duration & Difficulty D12.
- Red Mask of Terror: the caster's enemies find him/her terrifying. If they attempt to move closer to the caster or attack the caster then they must make a Bravery tests vs D10. On a draw of failure they can't move closer or attack and on a major failure they must instead make at least a half move away and can't attack – Self, Difficulty D14 & Duration.
- Reflect Magic: when the target is attacked with an Enchantment by an enemy then the rune resists the Enchantment as well as any other magical resistance. If the reflecting rune gets a higher result than the Enchantment (even if magical resistance was higher) then the magic is reflected having no effect on the target and instead attacking the caster who must resist it. – LOS, Difficulty D14 & Duration, **Bonus**.
- Reflect Missile: when the target is hit with a missile or thrown weapon then the reflection's value resists the damage as well as any other resistance. If the reflection gets a higher result than the damage (even if other resistance was higher) then the attack is reflected having no effect on the target and instead flying back to try to hit the attacker – LOS, Difficulty D14, Duration
- Rekindle: the caster can make the target object that was every burning glow producing all the light it once did but with no heat and no smoke. The glowing object can be used to light other objects as though it was burning but again they glow without heat. The glowing object or its fuel is consumed at only 1/10 of the rate of if it was burning normally. The ability can also be used on such a glowing object to immediately make it burn normally – LOS, Difficulty D8.
- Release Intelligence: target creature becomes intelligent ruled by reason with Knowledge skills and can use magical abilities – Touch, Difficulty D12, Magical Resistance, **Ritual**
- Remove Chaos Taint: the caster removes once chaos feature s/he has. If the caster has no chaos features this can be used to turn the caster from a broo into a human. If the caster now has no chaos features and is not a chaos creature this removes the taint of chaos. If the caster fails in this ritual s/he suffers a Serious Wound and on a major failure a Mortal Wound – Self, Difficulty D18, **Ritual**.
- Remove Fungus (on target): target fungus is removed from whatever it is growing on – Touch, Difficulty D10.
- Renew Life: the target is physically restored to the prime of life removing all physical and mental signs of aging. This ability can only be used six times on a single target. Actual age remains the same. Costs 1 XP from the caster or target – Touch, Difficulty D18, **Ritual**.

- **Repair:** repairs a broken object of the sort that can be easily carried. Examples include weapons, tools, a pot, torn clothing etc. The caster must have all the pieces that need to be reattached. The function can't create anything or improve it – just repair it to its former state. If every piece was available the fix will be invisible but it is rare that every tiny bit is actually present so some marking is almost inevitable – Touch, Difficulty D8.
- **Repair Stone:** repairs broken stonework such as a cracked stone, reattaching a piece from a broken stature etc. The stone can be up to 10 tons in weight but must originally have been one continuous piece. The caster must have all the pieces which need to be reattached. If every piece was available the fix will be invisible but it is rare that every tiny bit is actually present so some marking is almost inevitable. – Touch, Difficulty D8.
- **Reproduce:** target living thing will reproduce to the maximum possible the next time it does so. For example a plant will produce as many fruits of the largest size it can possibly do without damaging itself, an animal will produce as many young as it can do and still have them healthy and of normal size e.g. a human will have twins. If the target is a victim of a curse then if the caster overcomes the magic that caused the curse then it is cancelled – Touch, Difficulty D16, **Ritual**.
- **Reproduce With Man Rune Creature:** target is capable of reproducing with another man rune creature e.g. a human with an Aldryami or Uz and producing viable offspring with half of the characteristics of each race. The offspring must be conceived during the duration. – Touch, Difficulty D12 & Duration-1.
- **Resist Magic:** Allows the Rune used to add to magic resistance when resisting magical functions or abilities (not ghost combat) alongside weakest rune (if it is the weakest rune roll it twice) – Self, Difficulty D8 & Duration
- **Resist Temptation:** target has B2 to make personality trait tests, resist seduction, resist charm, control and other mind affecting magic which would cause him/her to act against the moral code of his/her religion or to act against his/her own will – Touch, Difficulty D8, Duration -1.
- **Restore Youth:** the target has his/her physical age reduced by 1-2 years whilst retaining all skills, knowledge and abilities. Costs 1 XP either from the caster or target whether the magic succeeds or not– Touch, Difficulty D10 for target's actual age beyond 20 (+1 for 21-40, +2 for 41-60, +3 for 61-80 etc.), **Ritual**.
- **Resurrection:** Resurrection of someone who died in the last week and whose body is now healed – Touch, Difficulty D20, **Ritual**.
- **Return to Earth:** if the caster is not in contact with the ground (e.g. s/he is on top of a building, in the sky, in the air, in the water) s/he teleports instantly to the nearest area of earth on which s/he can stand. S/he has a certain amount of flexibility (about 5 squares laterally) as to the landing point but this can't be used to go through walls etc. if there is a choice. It can be used for example to choose when falling whether to go back to the location the caster fell from or to the bottom of the fall. The aim of the function is to get the caster to the nearest reasonably safe location. It removes any motion the caster had (such as from falling). It can be used instantly for no actions as response to an involuntary move such as being recoiled, pushed, falling etc. – Self, Difficulty D12, **Bonus**.
- **Return to Life:** if the caster has been killed s/he can automatically attempt this function 3 days later. If it succeeds s/he returns to life with no injuries. If the function fails s/he is dead and can't retry – Self, D16.
- **Return to Moon from Otherworld:** if the caster is anywhere in the otherworld s/he teleports to the area of the moon associated with his/her Lunar Cult. – Self, Difficulty D16, **Bonus**.
- **Reveal Secret:** caster knows a secret the target has concealed from him/her. The caster must be able to state what the secret concerns e.g. 'Where have you hidden the book?', 'Where did you find this object?'. If the spell fails the caster can't use it again on the same secret and the target will sense the attempt. If the spell succeeds the target won't know it succeeded. – LOS, Difficulty D12 & magical Resistance.
- **Reverse Chaos:** target gains a negative chaos feature for the duration without being permanently tainted by chaos – LOS, Magical Resistance & Duration, Recharge.

- Ride Addi: when cast on a throwstick the caster can then throw it (either as an attack or not) and immediately fly to the square it reached or short of that square if it is occupied – Touch, Difficulty D12 & Duration, **Bonus**.
- Ride River Horse: cast as the headwaters of a river summons a spirit river horse with the forebody of a horse and the hindquarters of a fish. It can be mounted and ridden from one river headwaters to another. The trip takes a few minutes. It can carry up to ten people – Touch, Difficulty D12, **Ritual**.
- Rites of the Dance: the second part of Valare Addi's path to illumination following the Way to Poveria. Successful accomplishment of the Great Dance followed by the Return to the Koverian Priestess allows the next step (Entekosiad p100)– The Road to Hagu – Self, Difficulty D14, **Ritual**.
- Rolling Thunder: the caster calls up a magnificent storm horse. This has stats like an air elemental except instead of being able to attack in can be ridden by the caster over any terrain or through the air. It always has a size of 3 and an XD of D10 – Touch, Difficulty D14 & Duration, **Ritual**.
- Room Without Doors: if outside the room the caster and everyone within a small blast is transported into the room and if the caster is in the room then the caster and everyone and everything he brought in is transported out to a location the s/he is familiar with in Pavis. It also takes anything people are wearing and small objects (like weapons) they are carrying. It won't take big items, vehicles, furniture, chests, sacks of goods and so on. The room is in a short world. It has no entrances or exits and no windows. It is a 30 square cube illuminated like day and of a reasonable temperature. It is usually empty apart from anything or anyone the caster brought in. However it is possible that some other Pavis sorcerer is present with anyone s/he brought in – Self, Difficulty D12.
- Sacred Band: links a number of willing individuals together. Whilst the magic lasts any Hurts inflicted on any one of them are distributed as evenly as possible between them so that as far as possible each has the same number of Hurts at a given time. Where an uneven number of Hurts have been gained the caster chooses the distribution. To stay in the band all participants must remain within 20 squares of all others – 20 Squares, Difficulty D14 & Duration.
- Safe: cast on a door or container. Whenever someone other than the caster opens the door or container it must resist the value of the magic with magic resistance or take a Hurt and Recoil. Lasts for 8 weeks or for 1 XP is permanent – Touch, Difficulty Selected Val.
- Saggitus Shot: the user suffers no penalty when shooting from horseback for being on a moving mount using Mounted Bow. – Touch, Duration, Difficulty D6, **Bonus**
- Sail Into Wind: the caster can sail a boat or ship as though the wind direction is up to 90 degrees from its actual direction – Self, Difficulty D10 & Duration -1, **Ritual**.
- Sail West: as long as a the target ship is sailing west it does so it will travel 15 mph faster than it would normally for the conditions (including travelling at 15 mph if it would normally be becalmed) – Touch, Difficulty D10 & Duration - 1.
- Sea Strength: the user must be in contact with sea water when the function is used. Gives the caster B2 on Athletics (Strength, Damage, Stand Firm) – Self, Difficulty D10 & Duration.
- Seal Wound: hurts and wounds inflicted by the target weapon can't be healed by magic whilst the wound remains sealed. The magic lasts from when the wound is inflicted until the wound has healed naturally or until the magic is dispelled. Any attempt to dispel the magic which fails inflicts the same wound on the caster of the dispel – Touch, Difficulty D14 & Duration, **Bonus**
- Second Mouth: woman's genitals are transformed with sharp and useable fangs – Self, Duration -2, **Bonus**.
- Secure Grave: any attempt to raise a body buried using this ritual as an undead must overcome this magic – Touch, Difficulty As Selected, **Permanent, Ritual**.
- See Through Fog: the character is immune to concealment provided by Fog or Smoke – Self, Difficulty D6 & Duration -1.
- Sense Weakness in Foe: target has P1 to resist anything done by the caster – LOS, Magical Resistance & Duration.
- Shape (Substance): the caster can mould the substance with his/her hands like it was clay. Can be used to join two pieces of exactly the same substance together. – Self, Difficulty D12 & Duration.
- Shatter: weapon must make a breakage save at -1 – LOS, Difficulty D10, **Recharge**.

- Shield of Darkness: caster has B2 Gymnastics (Dodge) against attacks targeting with Vision or Night Vision and has B2 Armour – Self, Difficulty D10 & Duration.
- Shift Stone: the caster can move cut stone with telekinesis. The spell won't break anything – LOS, Difficulty D10 for 1 cube of stone + 1 per cube & Duration.
- Shoot Otherworld Entity: caster's attacks with a bow inflict full damage on anything which doesn't normally reside in this world no matter if it normally ignores such damage or reduces it. If the creature doesn't normally take physical damage (such as a ghost) it takes Power Drain from the attack as though it was damage – Self, Duration & Difficulty D8, **Bonus**.
- Shooting Star: when the target arrow is shot it counts as a shooting star it creates multiple shooting star effects. All can be aimed at a single target or multiple targets each of which is within a large blast template within LOS (no other range restrictions). Each target is attacked individually with the shooter's weapon bow ability as normal. On a hit the target takes fire damage (like a physical agent) equal to the character's fire/sky rune – Touch, Difficulty D10 for 1 missile and +1 per extra missile, Duration, **Concentration, Recharge**.
- Shroud of Darkness: the caster is surrounded by an area like Night in a small blast template which moves with him/her - Self, Difficulty D8 & Duration.
- Sickening Stench: the caster's stench is so sickening that the first time on any day non-broos come within a large burst must make a D8 Health test or be at P2 to all actions due to nausea for 5 mins. In addition if they suffer a major defeat on the test they are incapacitated by vomiting and have no actions are at -3 to all skills for 2 turns – Self, Difficulty D12 & Duration.
- Silence: the target and its equipment makes no involuntary noise so armour doesn't clank when sneaking and causes no stealth penalty– Touch, Difficulty D6, **Bonus**.
- Silent as a Cat: when moving caster makes no more sound than a cat padding across a smooth floor – Self, Duration, Difficulty D6, **Bonus**.
- Silver Track: the caster can see a glowing track showing the route that a target took as long as it is night and stars are visible in the sky above. Once the function is activated the user must use a conventional Survival (Tracking) skill roll augmented by her fire/sky rune to find the beginning of the trail and correctly identify which track to follow. If this is successful the trail will be illuminated for as long as the magic lasts (and the stars remain visible) – Touch, Duration & Difficulty D12.
- Skyspear: attacks target being with a ☉ or ☿ rune who is not a worshipper of Yelm. On a Success the target is Stunned and Hurt. On a Major Success the target dies and their spirit plunges directly and immediately to the underworld so Attach Spirit will not help them. – LOS, Difficulty D14 & Magical Resistance, **Recharge**.
- Slashing Sword Blow: when caster attacks with a sword s/he can attack any number of targets who are adjacent to him/her with the same action – Self, Difficulty D8 & Duration, **Bonus**.
- Slay With Mace: this ability can be used for no actions when a target is hit with a mace. On a major success the target's spirit immediately leaves its body as for a Sever Spirit. On a minor success the target is Stunned. The attack still does damage normally – Touch, Difficulty D14 & Magical Resistance, **Recharge**.
- Sleep Anywhere: caster can sleep comfortably when perched on a tree branch, curled up under a bush or anywhere where a cat could sleep – Self, Difficulty D6, **Duration up to 20 hours**.
- Sleep With One Eye Open: caster can sleep all night with one eye open and make Perception rolls to spot approaching enemies without penalty – Self, Difficulty D6, **Duration up to 12 hours**.
- Sneeze: target starts sneezing uncontrollably. It is at -2 to all skills – LOS, Difficulty Magical Resistance, Lasts 2 turns.
- Solidify Darkness: a volume of darkness becomes solid. It has a strength equal to the chosen value and anyone trapped in it must resist it with Athletics (Strength) to get out. It resists damage with the chosen value as well. The caster can choose a simple shape for the volume – LOS, Difficulty equal to the value of the solid darkness + 1 per cube after the first & Duration.
- Solidify Dust: a volume of loose material such as earth or dust is transformed into rock – LOS, Difficulty D10 for 1 cube + 1 per cube.

- Song of Laughter: the caster plays the harp and every creature intelligent or not within hearing range must use resist the caster's rune with Magical Resistance. If the caster gets any success targets cannot take any violent actions as long as the caster plays – Self, Difficulty D16, **Concentration**.
- Sooth the Dyspeptic Stomach: creates an area equal to a large blast in which Darkness magic is blocked. Magic which summons darkness elementals is also affected. Any such magic with a duration in the area is also affected. The rune that created or is trying to create the magic must perform a task against D12 or the magic is countered, dismissed or cancelled – Self, Difficulty D12 & Duration, **Concentration**.
- Soul Dart: the caster's attacks with missile or thrown weapons cause 1 Power Drain if they inflict at least 1 Hurt – Self, Difficulty D8 & Duration, **Bonus**.
- Spawn of Porcharngo: creates a Crawling Hand, Manling, Purple Frog, Slime Rat, Lead Eater, Fog Bug or any other example of spawn. The spawn will have XD6. Each shrine of Porcharngo will know a different example. The spawn will serve its creator – Touch, Difficulty D12, **Ritual**.
- Speak Language: the caster can speak and understand the language of the target – Self – Language User in Hearing Distance, Difficulty D12 & Duration-1
- Speak to the Dead: caster can speak to a dead person whose spirit is somewhere accessible in the otherworld (not re-incarnated, imprisoned in some foreign hell, completely destroyed by chaos etc.). Caster must have some connection to the dead person e.g. something they owned, their grave, body, somewhere they lived, a relative and so on. Difficulty increases with how long ago they died, how important they were and decreases with the degree of connection established and if they are particularly likely to want to talk to the caster. The magic doesn't persuade them to actually talk or answer questions – just makes it possible. The magic lasts until the conversation is ended. – Touch, Difficult D12-D30, **Ritual**.
- Speed Movement: Gain an extra move action per turn – LOS, Difficulty D12 & Duration, **Bonus**.
- Speed Weapon: Allows an extra follow up with same weapon – LOS, Difficulty D8 & Duration, **Bonus**.
- Speedy Current: the caster can call a current to propel a ship on the sea. It can go about 10 mph faster than it would normally in the circumstances – Touch, Difficulty D12, **Concentration**.
- Spell of Summons: the caster names a target. The target will mentally receive the caster's summons and knows where the caster is and the direction to that location. It doesn't make them come or give them the power to do so – Difficulty D10, **Unlimited Range**.
- Split Shield in Two: can be used without any additional actions if caster hits a shield with a sword or dagger. The shield makes a breakage save at -1 or splits exactly into two equal pieces – Self, Difficulty D10.
- Spy (Object): Enchants an object to act as a spy for the caster. The caster can see and hear normally from the object at any range. Whilst concentrating on the spy s/he can't see or hear normally and it takes an action to switch attention from the spy to a normal point of view. Normally can only have one spy active but for each 1 XP spent another is allowed – Touch, Difficulty D12, **Until Cancelled, Ritual**.
- Squeeze Through: the caster can squeeze and wriggle quickly through a narrow gap that looks a little too small to fit through by twisting and contorting – Self, Difficulty D6, **Bonus**.
- Stability of the Left Leg: any attempt to use magical or physical force to move the target object or individual other than a creature moving of its own free will is blocked. It cannot be knocked back, recoiled, forced to move or collapsed. It will still fall if completely unsupported but won't overbalance or topple. The target is a single individual, object or building. The effect ends if a target creature moves voluntarily. – LOS, Difficulty D12 & Duration.
- Stamina (Self if Target not Indicated): target does not suffer from exhaustion and can move at full speed throughout – Touch, Difficulty D6 & Duration -1
- Star Wards: protects a rectangle surrounding up to 36 squares (+1 difficulty per extra 36 squares) with 4 silver rods set up at the corners. A star ward is 2 squares high. The basic difficulty (which is then modified by area) is the same as the value chosen for the star ward. Any hostile magic which would be resisted by magical resistance cast from the outside to a target inside the ward into the ward is resisted by the value of the ward in addition to normal resistance. Any ghost or other insubstantial

entity must resist the ward with its power and get a success to be able to cross the boundary. If it tries and fails it suffers a points of Power Drain cannot try again for 5 turns. Any embodied creature hostile to the caster crossing the boundary receives a Disrupt Enchantment with the value of the ward and if stunned fails to cross. Any missile fired from outside the ward into the ward is P2 to hit. An alarm sounds if an enemy crosses the boundary. The warding lasts until the rods are removed. Anyone removing the rods other than the caster suffers the Disruption. A caster must pay 1 XP for every instance of warding s/he wants to be able to maintain – Difficulty Value of Ward, **Until Cancelled, Ritual.**

- **Sting:** gives the character a sting which injects Paralyzing Poison of the value of the magic – Self, Difficult As Selected (Poison Potency) at least D6 & Duration -1, **Bonus.**
- **Stone Weapon:** creates a hardened stone axe or mace from a stone of suitable size. Counts as being as hard as bronze for the caster or as a normal stone weapon for others – Touch, Difficulty D10 & Duration -1
- **Stoneskin:** provides +1 B2 armour any puts the caster at Gymnastics -2, Running P2, Water Life (Swimming) -3 – Self, Difficulty D10 & Duration, **Bonus.**
- **Stonewall:** Targets a phalanx of up to 100 hoplites. Each hoplite target gets B2 Courage, B2 Large Shield Parry and B2 Stand Firm as long as s/he is adjacent to another two hoplites in the same phalanx and doesn't move – LOS, Difficulty D12 & Duration.
- **Stop Breath:** this ability works on targets with an Air rune who follow a god of the moving air e.g. Orlanth. The value of the magic starts as D3 and goes up by 1 each turn. Each turn at the end of its turn the creature must resist the value with Health getting at least a draw or take a Hurt. Whilst the magic is active the target cannot use any Air rune magic – LOS, Magical Resistance, **Concentration.**
- **Strengthen Sail:** target sail will not tear as a result of wind – LOS, Difficulty D10 & Duration - 1
- **Strike Ghost:** if caster's weapon hits a ghost then the ghost must resist the damage with its magical resistance suffering 1 Power Drain on a Draw or Success or 2 on a Major Success – Self, Difficulty D12 & Duration.
- **Strike Otherworld Entity:** caster's attacks inflict full damage on anything which doesn't normally reside in this world no matter if it normally ignores such damage or reduces it. If the creature doesn't normally take physical damage (such as a ghost) it takes Power Drain from the attack as though it was damage – Self, Difficulty D10 & Duration, **Bonus.**
- **Submerge:** Removes all buoyancy from one object – a person, ship or creature. A ship will sink, a person will need to swim vigorously to stay on the surface etc. – LOS, Magical Resistance & Duration.
- **Summon Gustbran:** creates a fire the size of a bonfire (Gustbran) which will burn whilst it has fuel. Whether it burns will depend on the resistance of what it is created on - LOS, Difficulty D14
- **Summon Mahome:** creates a fire the size of a campfire (Mahome) which will burn whilst it has fuel. Whether it burns will depend on the resistance of what it is created on - LOS, Difficulty D10
- **Summon Oakfed:** creates a fire the size of a wildfire (Oakfed) which will burn whilst it has fuel. Whether it burns will depend on the resistance of what it is created on - LOS, Difficulty D20
- **Sun Shield:** caster's shield glows like the sun. It illuminates the area to the user's front out to 20 squares as bright as day and up to 40 squares like twilight. Any target without a ☉ or ☾ rune attacking the caster from his/her front using vision, night vision or dark vision has P1 to attack rolls with weapons or unarmed– Self, Duration & Difficulty D10
- **Sunbright:** the caster emits a bright light illuminating an area equal to a large blast as bright as day. Any darkness creature, underworld creature or undead in the area has P1 to all its abilities – Self, Difficulty D12 & Duration

- Support Stonework: target stone structure is supported as though held up by scaffolding. It won't collapse even if its physical supports are removed. It can't be collapsed by shaking – LOS, Difficulty D8 for up to 10 cubes + 1 per 10 cubes thereafter & Duration - 1
- Supporter: the caster can use the abilities Augment Athletics (Strength, Stand Firm) and Augment Health (Endurance, Resist Damage) on any target within LOS – Self, Difficulty D12 & Duration.
- Suppress Gustbran: puts out a fire up to the size of a bonfire (Gustbran) - LOS, Difficulty D12
- Suppress Light: when cast makes a small blast area as dark as night. Any individual with a Fire/Sky or Light rune must resist the magic's value or take a Hurt if s/he crosses the boundary in either direction. Any Fire/Sky or Light magic which crosses the boundary must overcome the value of the magic or fail- LOS, Difficulty As Value & Duration.
- Suppress Oakfed: puts out a fire up to the size of a wildfire (Oakfed) - LOS, Difficulty D18
- Survive Environment: survive a normal environment such as cold or underwater – Touch, Difficulty D10 & Duration -1
- Survive on Goat Food: the caster can eat anything a goat could eat and survive on it as a goat would – Self, Difficulty D6 & Duration -1
- Sweat Acid: the target sweats acid of potency equal to difficulty -2. This doesn't effect it but does effect anything touching it including weapons, armour, clothes etc – LOS, Difficulty Magical Resistance (if unwilling) & Potency +2 & Duration, **Recharge**.
- Swim Up River: the caster can swim up river at the same speed as though swimming down river – Self, Difficulty D6 & Duration -1, **Bonus**
- Teach Magic: teaches the (willing) target a Common Magic ability that the caster knows. The target must have the right rune for the ability. Costs the target 1 XP. Once the magic has been taught it will takes 3 hours to prepare the focus – Touch, Difficulty D14. **Ritual**.
- Teeth: gives the character a carnivore bite – Self, Difficulty D6 & Duration-1, **Bonus**.
- Teleport: Teleporting by LOS – Self, Difficulty D16
- Terrify (Creature): enemies of the listed kind find the caster terrifying. If they attempt to move closer to the caster or attack the caster then they must make a Bravery tests vs D10. On a draw of failure they can't move closer or attack and on a major failure they must instead make at least a half move away and can't attack – Self, Difficulty D12 & Duration.
- The Road to Hagu: the third part of Valare Addi's path to illumination following the Way to Poveria and the Rites of the Dance. Successful accomplishment of the Road to Hagu (Entekosiad p101) leads to Illumination – Self, Difficulty D16, **Ritual**.
- Thick Carapace: provides +1 B1 armour with Gymnastics -2 and Running P2 – Self, Difficulty D10 & Duration, **Bonus**.
- Thick Fur: provides B1 Armour and protects the user against cold as thick winter clothing– Self, Difficulty D6, Duration, **Bonus**.
- Thick Hide: provides B2 armour – Self, Difficulty D8, Duration, **Bonus**.
- Throw Far: target javelin or rock has a range of LOS with no range penalties. Lapses after it has been used – Touch, Difficulty D10 & Duration, **Bonus**.
- Thunderstone: target slingshot becomes a Thunderstone for the duration or until it is shot. When it hits it deals B2 damage and causes Stun on a success – Touch, Difficulty D10 & Duration. -Touch, Difficulty D14, **Ritual**
- Trade Magic: the caster also casts a rune magic ability as does the willing target. Instead of having their normal effect the caster of the Trade Magic immediately attempts this ability. If successful each uses 1 Rune Point and each can use the traded magic ability once at some time in the future as though s/he was able to use it normally. The original owner of the ability can't regain the Rune Point until the traded ability has been used by the other – Touch, Difficulty D12. **Ritual**.
- Trample Barbarian: when the caster makes a move through action against a barbarian target then the barbarian must resist the caster's rune with Magical Resistance or be unable to make an Opportunity Attack or Evade to avoid it – Self, Duration, Difficulty D10.
- Transform: Shifting into the form of a the named thing – Self, Difficulty D10 & Duration.

- Translate: translates all words the user touches at the user's normal reading speed into his/her mind – Touch, Difficulty D12, **Concentration, Ritual**.
- Travel Home: is cast before the user sets off home. Guides the caster along the best route and whilst on the route the caster can Detect Enemies, Detect Ambush, Detect Traps constantly – Touch, Difficulty D8, **Ritual**.
- Travel Into the West: the user travels due west. S/he speeds across the surface of the ground dodging to the side or up into the air by a small amount and the minimum necessary to avoid being blocked by individuals or objects. Each use of the magic moves the user D100 miles (not more – not less) and will end up in front of something which couldn't be dodged by the small amount allowed by the magic. The user will then need to get into position to travel onwards – Self, Difficulty D14.
- Trickster: anything chosen by the user which is bizarre, ridiculous and not very useful – Varies.
- Truespeak: target is compelled to speak nothing but the truth and answer questions in a literal manner. It can however say nothing. Works for one question – Touch, Difficulty D10 & Magical Resistance, **Ritual**.
- Turn Blow: anyone who hits the caster with an attack which causes damage resist the rune with Magical Resistance or take the damage instead of the caster – Self, Difficulty D16, Last 2 turns.
- Tusks: gives the caster tusks – Self, Difficulty D6 & Duration-1, **Bonus**.
- Unbreakable Line: targets a phalanx of Yelmatio initiates or devotees all standing within 1 square of each other. Each member of the phalanx is immune to recoil and knockback as long as s/he is in good standing with the cult and has not broken any geases – LOS, Difficulty D14 & Duration.
- Uncover Secret: caster can use a magical action instead of Perception to find any object containing secret information or to get someone to reveal a secret as long as they are friendly to the caster such as a result of Persuasion (Seduction) or general carousing – Self, Difficulty D14 & Duration
- Venom Bite: caster's bite injects poison like blade venom with potency equal to difficulty -1 – Self, Difficulty Variable & Duration -1, **Bonus**.
- Vex: target/s must move as fast as possible to be in range to make melee attacks against the caster. Once in range they cannot move deliberately out of range to make melee attacks, Caster's rune is -1 per target after the first – LOS, Magical Resistance & Duration
- View From Heaven: Gain a view as though looking down from above the current location from anywhere up to the sky-dome. Can shift from normal to this view. – Self, Difficulty D10 & Duration, **Ritual**.
- View from Shadow: for the duration the caster can see as though his/her view point was up to 300 squares away. The view point must be in an area of shadow. The caster can mentally search to find a suitable view point in range. Hiding magics work against the function and the caster will need to resist the magic to see the concealed thing (or even know that something is concealed). Any sacred space such as a temple will have a big resistance to this magic – equal to the magical resistance of its best priest. At any given time the caster must be looking from the view point or from his/her own location and switching perception takes 1 action. 300 Squares, Difficulty D16 & Duration.
- Vision of the Eyes: for the duration the caster can see as though his/her view point was somewhere else in Pavis. The caster can mentally search to find a suitable view point in range. Hiding magics work against the function and the caster will need to resist the magic to see the concealed thing (or even know that something is concealed). Any sacred space such as a temple will have a big resistance to this magic – equal to the magical resistance of its best priest. At any given time the caster must be looking from the view point or from his/her own location and switching perception takes 1 action. Anywhere in Pavis, Difficulty D16 & Duration.
- Vomit Acid: an area of four squares starting with 1 square next to the caster and spreading out to 3 squares 2 squares from the caster. Anything in the area which fails to Evade will be attacked by acid equal to the result. Requires a magic save on 1 or 2 – 4 squares next to caster, Difficulty -, **Recharge**.
- Walk on (Environment): the caster can walk and run on the environment as though it was flat, level ground- Self, Difficulty D6 & Duration-1, **Bonus**.
- Walk on Moonbeams: the caster can walk directly toward or away from the moon as though walking on flat level ground rising into the air as necessary – Self, Difficulty D12 & Duration, **Bonus**.

- Walk on Water: the caster can walk on the surface of water or swamp ground as though it is solid ground. What kind of terrain it counts as will depend on how rough the water is but the user is lifted by waves for example without overbalancing. S/he is still wet by spray for example – Self, Difficulty D8 & Duration-1, **Bonus**.
- Warding: protects a rectangle surrounding up to 36 squares (+1 difficulty per extra 36 squares) with 4 rods set up at the corners. A warding is 2 squares high. The basic difficulty (which is then modified by area) is the same as the value chosen for the ward. Any hostile magic which would be resisted by magical resistance cast from the outside to a target inside the ward into the ward is resisted by the value of the ward in addition to normal resistance. Any ghost or other insubstantial entity must resist the ward with its power and get a success to be able to cross the boundary. If it tries and fails it suffers a points of Power Drain cannot try again for 5 turns. Any embodied creature hostile to the caster crossing the boundary receives a Disrupt Enchantment with the value of the ward and if stunned fails to cross. An alarm sounds if an enemy crosses the boundary. The warding lasts until the rods are removed. Anyone removing the rods other than the caster suffers the Disruption. A caster must pay 1 XP for every instance of warding s/he wants to be able to maintain – Difficulty Value of Ward, **Until Cancelled, Ritual**.
- Warm: keeps an individual warm as though wrapped in a thick blanket – Touch, Difficulty D6 & Duration-1
- Wash Enemy Down River: roll the value of the magic against once effecting each target selected. Each target must be in a river or within three times the result of its banks. The target/s must resist the result of the magic with Athletics (Stand Firm). If the magic gets at least a success the target is washed into the middle of the river and carried five times the result in squares down it. Any small boat would resist with D6, a large boat with D8 or a ship with D12. Any boat or ship doubled by the magic would also capsize. After this they will just be in the river's normal flow – LOS, Difficulty equal to chosen value +1 per target after the first, **Recharge**.
- Waste Loins: target's genitals wither, seal up and become totally useless for as long as the magic persists – LOS, Magic Resistance, **Until Cancelled**.
- Waterspout: creates a waterspout 1 square in diameter and 3 squares high with a value equal to the difficulty of the magic. Each +2 difficulty also adds 1 to the diameter and 2 to the height. Anything in the waterspout must resist with Water Life of the appropriate type for how they are moving e.g. Swimming, Boat Handling or be thrown to the top of the waterspout if it is big enough for the size of the thing (e.g. if a ship is 10 squares long then it requires a 10 square diameter waterspout to lift it). It will then move to the edge of the spout and dropped back into the water next turn. Ships partially in a waterspout will often be flipped. This process often wrecks or capsizes boats and ships. Each turn the waterspout moved D6 squares in a random direction– LOS, Difficulty D6 (can be increased) & Duration.
- Way to Poveria: the first part of Valare Addi's path to illumination. Begins the Wendarian Dance Journey. See Entekosiad p100. Allows the next step – Rites of the Dance – Self, Difficulty D12, **Ritual**.
- Web: user can attack with web using Unarmed at range 1-6 as for a missile attack. Whatever is hit – individual or shield is entangled in web of strength equal to the caster's rune. Breaking the web requires an Athletics (Strength) success against the value of the web by the victim or someone else. A major failure results in the individual trying to break the web being stuck too. It can also be cut with a cutting weapon in the same way resisting damage in the same way. It is vulnerable to fire having -2 resistance to it. An entangled weapon or shield can't be used to parry or attack and the user can't move or dodge without dropping it. An entangled individual can't act except to try to break the web. – Self, Difficulty D8 & Duration
- Weigh Gold: caster knows the exact weight of the gold s/he chooses. This can be a block of gold, gold nugget, a set of coins or a gold object. It tells the caster about the purity by giving him/her the weight of pure gold only and hence also its value in wheels – LOS, Difficulty D8
- Whirlpool: creates a whirlpool 1 square in diameter and 3 squares deep with a value equal to the difficulty of the magic. Each +2 difficulty also adds 1 to the diameter and 2 to the depth. Anything in the whirlpool must resist with Water Life of the appropriate type for how they are moving e.g.

Swimming, Boat Handling or be sucked down the whirlpool if it is big enough for the size of the thing. (e.g. if a ship is 10 squares long then it requires a 10 square diameter whirlpool to sink it). It is necessary to double the whirlpool to move away from it at 3 movement points per square. Anything within a distance of the whirlpool equal to its diameter must resist its value getting a success or be unable to move away. If doubled it moves 2 closer to the whirlpool – LOS, Difficulty D6 (can be increased) & Duration.

- **Wielder of Age:** the target's physical age becomes older or younger. S/he retains all knowledge and skills (though may not have the physical ability to perform them). The target can't be made younger than a new-born or older than the maximum possible age for their species – LOS, Difficulty D12 or Magical Resistance if this is higher + 1 per 5 years of change & Duration-1.
- **Wings:** the caster has wings (or something like it – could be a feathered cloak etc.) and can fly at the speed of Running ability +6 in no more than light armour and equipment or at +1 in medium – Self, Difficulty D8 & Duration, **Bonus.**
- **Winning Smile:** caster smiles sweetly and gains B1 on any Persuasion task against anything which can appreciate a smile – Self, Difficulty D6 & Duration.
- **Wood Weapon:** creates a hardened wooden spear, sword or bow from a piece of wood of suitable size. Counts as being as hard as stone or flint for the caster or as a normal wooden weapon for others – Touch, Difficulty D8, Duration -1
- **Write Sacred Script:** caster can write one of Lhankhor Mhy's sacred scripts – Self, Difficulty D8 for Cat or Dog Scratchings, D12 for Elasa Secrets, Duration.

Stop Object: stops the target completely. A creature can't move, a vehicle can't be moved, a fire stays fixed in place unmoving, water or air becomes still and unmoving (beyond just a normal lack of wind, waves or current actually stationary are hard to move). Always uses the stasis rune but combines it with an element rune which shows what is made stationary. Objects of stone or metal are Earth. Objects of animal materials and Animal are Animal and plants and plant products are Plant. Any attempt to move the object or area of substance is resisted by the value of the magic. If air is stopped doing anything in it requires a successful Health test because it is hard to breathe. If water is stopped an Athletics (Strength) test is required to move in it. Stopped fire doesn't burn. If an object is stopped it requires Athletics (Strength) or equivalent to make it move – LOS, Difficulty depends on total volume of a bulk substance that the user is influencing at once (even with multiple casts of the magic if they are operating at once) or a single object or individual which would fit in that volume at: D6 for 1 cube, D8 for 2 cubes, D10 for 4 cubes, D12 for 8 cubes, D14 for 16 cubes, D16 for 32 cubes and so on or Magical Resistance & Duration, **Concentration.**

Summon (Creature): this function comes in two parts.

Bind (Creature): The caster binds a creature to his/her service. If it is from the otherworld it just appears at the end of the ritual. If it is from the mundane world it starts to come to the caster at the end of the ritual but may take some time to arrive. The referee can rule that the ritual for a mundane world creature fails because there are no examples nearby. The function does not break a binding or controlling connection that someone already has with a creature – it must be uncontrolled. When the creature appears the caster must spend 1 XP to complete the binding ritual. The caster can then choose to send the creature away. In this case an otherworld creature returns to the otherworld or a mundane world creature goes off about its normal activities. If the creature is a mundane world creature the caster can have it follow him/her about closely though the summon part of the function would still be needed to issue commands to it. In this case the Summon part of the function can be used on the creature to bring it back in future. A mundane creature will remain fairly near the caster when it can usually within a mile or so. Even when not controlled with the Summon part of the function the creature will follow the caster and not attack him/her. Alternatively, the caster can bind the creature to his/her current location. It will remain there protecting an area up to the size of a large room against enemies of the caster. How good it is at identifying enemies depends on how intelligent it is as the precision of the caster's instructions. Once it is bound to a location the caster cannot use the Summon part of the function on it whilst it is bound to the location. If an otherworld creature is Dismissed or Disabled it disappears and cannot be Summoned

again for one whole day after it left. It does not break the link to the caster so no XP or ritual will be required to Bind it again. When it reappears, or comes back it will be fully healed. A mundane world creature that is Disabled or wounded is affected like any other mundane world creature and will need to heal or be healed. Also being bound doesn't stop a mundane creature needing to eat and drink (if it would normally do so). If a bound mundane world creature is killed it is lost and another XP would be required to bind another. – Self, Difficulty Creatures XD (minimum may be listed) + 2 + modifier listed for type, **Ritual**. **Summon (Creature)**: a bound creature comes to and is commanded by the user using mind speech. An otherworld creature will appear immediately. A mundane world creature that is following the caster will be controlled immediately. Other mundane world creatures will take D20 turns to appear. If the summoning magic is Dispelled or lapses as a result of Duration then an otherworld creature will return to the otherworld or the link commanding a mundane world creature will be broken. When the link to a mundane world creature is broken it can no longer obey orders and will start acting according to its nature (though still not attacking the binder). In either case the Summon can be used again immediately but the summoned creature will remain in the same state (e.g., it retains any damage or statuses it had). If a summoned otherworld creature is Dismissed or Disabled it cannot be summoned again for 1 day but will then reappear fully healed. The user can voluntarily Dismiss an otherworld creature in order to allow it to heal (it won't heal naturally otherwise and only specialised Heal functions work on otherworld creatures). A summoned creature can be bound to guard a particular location (as in binding above) – LOS, Difficulty Creatures XD (minimum may be listed) + modifier listed for type + 2 per extra creature summoned at the same time & Duration (maybe modified by type).

- Summon Animal (Kind) – A mundane world creature - XD +1, Duration-2.
- Summon Animated Tree: Requires a normal tree which is first turned into an animated tree. The tree does not follow the caster around but instead remains in place until activated. Any animated tree can be activated using a summon, not just those created by the caster – XD & Duration. Min XD8.
- Summon Certamus: a sky world warrior - XD+2. Min XD12.
- Summon Chaos Monster: this refers to a bizarre warped and random otherworld chaos monster - XD+1. Min XD8.
- Summon Choncon: XD +1. Min XD8.
- Summon Elemental (Kind): requires a small amount of the element to be present e.g. a flask of water, a flaming torch etc - XD+2. Min XD8.
- Summon Ghost (Kind): summons a particular kind of ghost - XD+1. If a ghost possesses a target it will remain occupying the victim even if the Summon function lapses. Min XD6.
- Summon Hag: a darkness monster - XD+1. Min XD8.
- Summon Hell Demon: a monster of the underworld – XD+1. Min XD10.
- Summon Daimon (Kind): a minor deity XD+1. Min XD10.
- Summon Krashtkid: an underground creature of chaos -XD+1. Min XD10.
- Summon Lamia: a kind of darkness monster - XD+1. Min XD10.
- Summon Lune: a lunar elemental. Requires a bit of moon rock or the light of the red moon – XD+2.
- Summon Naiad: a kind of water daimon - XD+1. Min XD10.
- Summon Sea Monster: a large fierce sea creature - XD +1. Min XD10.
- Summon Skeleton: an animated skeleton. Doesn't animate the skeleton so it must already be animated – Duration -2. Min XD6.
- Summon Wraith: a kind of ghost - XD+1. Min XD10.
- Summon Zombie: an animated corpse. Doesn't animate the zombie so it must already be animated – Duration -2. Min XD6.

Supernatural Action: allows the user to use the rune instead a normal skill in a supernatural manner. Doesn't require a magic action and is activated as the thing is attempted. Instead of being resisted by the mundane world it is resisted by the magical strength of the thing it effects. It doesn't change which side is active so if used defensively it is still the user who is resisting. The target opposing the supernatural action should use whichever rune is most closely associated with the action it is taking. It uses it at full value if that rune is

magically supporting the action in some way or the rune -1 otherwise. Supernatural Actions don't require a Magic Save on a major failure. For results when using a supernatural action:

- Major Success for active side: good success. Does what the active side wished. If there is a result (such as damage) add the value of the active side to the result (i.e. the rune or rune -1).
- Success or Draw for the active side: success – does what was wanted.
- Failure or Major Failure: doesn't do what was wanted, miss.

Examples:

- Turn Arrow (Supernatural Action to stop user or mount being hit with an arrow): when attacked with an arrow the attacker must use the value of a rune instead of his/her normal skill. If that rune is supporting the skill in some way (e.g. Boost, Augment) it is at full value otherwise -1. The caster resists with his/her rune instead of resisting normally.

Tap: On a success the target is Power Drained and the caster heals 1 Power Drain or if the caster has no Power Drain then gains 1 Power Point. On a major success the target suffers 1 point of Soul Blast and the caster heals 2 points of Power Drain or gains 2 Power Points. A Power Point can be spent to counter 1 point of Power Drain and a character can have a maximum of $\frac{1}{2}$ a Power Point per max result of his/her moon or law rune rounded up – Touch, Magical Resistance, **Recharge**.

Targeted Magic: these magic abilities have a specific target but not a specific function. This kind of magic can do multiple things to a particular kind of target or resisting something that that type of target does. Each use of the magic produces one of the available effects. Targets will usually be a particular kind of creature or a worshipper of a particular kind of cult.

- Fight – allows the following abilities: Augment (Weapon Skill), Boost (Weapon), Enchantment (Disrupt, Drain), Hinder (Skill, Armour or Damage)
- Resist – allows the following abilities: Augment (Parry), Augment (Gymnastics (Dodge), Augment (Health (Resist Damage), Boost (Armour), Resist Magic, Protection Against Elements

Wall: targets a line in LOS. Use the full value if targeting a line of 8 squares long and 2 high and 6 cm thick unless the type says otherwise, or -1 per extra 4 squares long or 1 high. Also -1 per additional area created or maintained at the same time. On any success creates a barrier of the listed kind with a Value of the rune creating it modified by area. Opposite walls oppose one another – where they overlap roll to the runes that created them in opposition (modified by area) and whichever gets a success works. On a draw neither works. A caster must pay 1 XP to have an instance of a wall which lasts until cancelled instead of having a duration and can have any number of such instances – LOS, Difficulty Varies & Duration (+2 per extra instance with a Duration the user has going at once) or **Until Cancelled** per 1 XP paid.

- Air (Lightning) – blocks LOS through it. Anything passing through it takes damage as for a Physical Agent equal to its value. Also causes a Stun on Success. Difficulty D14
- Air (Wind) – no missile or thrown attack is possible through it. Anyone entering it must resist its value with Athletics (Stand Firm) and on any Success the target moves back 1 square and falls down. Difficulty D10.
- Dark – blocks LOS even to creatures that can see in the dark. Light doesn't pass through it. Once created the caster can use an action to move it 2 squares. Difficulty D6.
- Darkness (Cold) – Anything passing through it takes damage as for a Physical Agent equal to its value (modified by size). Clothing provides D4 protection, warm clothing provides an extra D6 protection and winter furs provides D8 protection. Major result also Slows target. Difficulty D12.
- Earth – creates a smooth, solid barrier of earth and stone 1 square thick. Blocks LOS like a mundane wall. Can be climbed with a difficulty of D10. When breaking through it resists damage with its Value (modified by Area) +2. Duration mod is -1 or for -4 the effect can be made permanent. Difficulty D12.
- Fire – blocks LOS through it. Anything passing through it takes damage as for a Physical Agent equal to its value (modified by size) Damage B2. Difficulty D14.

- Ice – creates a smooth, solid barrier of ice 1 square thick. Blocks LOS like a mundane wall. Can be climbed with a difficulty of D14. When breaking through it resists damage with its Value (modified by Area). Difficulty D10.
- Light – the caster chooses one side which blocks LOS and one side that doesn't (the glare goes this way). Illuminates 3 squares on the non-glare side and 10 squares on the glare side. Once created the caster can use an action to move it 2 squares. Difficulty D10.
- Thorns – creates a thick hedge of thorns 1 square thick. Blocks LOS like a mundane wall. Can be climbed with a difficulty of D10 causing D6 Piercing damage per turn climbing it. When breaking through it resists damage with its Value (modified by Area) against fire or its Value +2 against cutting - other attacks don't damage it. Can be pushed through by using Athletics (Strength) against its Value. Whether this is successful or unsuccessful it causes its value in piercing damage. Duration mod is -1 or for -4 the effect can be made permanent (as long as the thorn plants can grow). Difficulty D12.
- Water – no missile or thrown attack is possible through it. Anyone entering it must resist its value (modified by size) with Athletics (Stand Firm) and on any Success the target moves back 1 square and falls down. Difficulty D12.

Source of Magic

Runes

Magic is always associated with a particular rune. The rune table lists the magical functions associated with each rune. In addition cults have functions associated with them though still tied to a rune. Some magical sources can only use certain functions and have a maximum value. Some magical functions require two runes and the character will use the lower of these when casting the magic.

Common Magic

Anyone can use common magic. Each common magic is associated with one of the character's runes. A character can have a number of common magic abilities in mind at once equal to the maximum result of his/her Experience Dice up to a maximum of 20. For example a character with a D8 experience Dice could have 8. These may be divided between his/her runes as wished. A character can have any number of other common magical abilities available and it takes an hour to swap from one to another in mind. The magic save of Common Magic is 6+ and a failure causes Power Drain. Any character can have common magic. Each common magic must have a focus which will show its main rune and a number of minor runes associated with it. This can be an item such as a wand, bracelet, ring, piece of armour, amulet or it can be a tattoo. Common Magic is learned from other people who know the magic using the Special Effect (Teach Magic) function. It also costs 1 XP to learn a new Common Magic and some kind of exchange in cash or kind to the teacher – around 20L or half that to a fellow cultist or other person with a good relationship to the learner.

Charms

Anyone who is not a devotee of a Rune Cult can have charms. A charm is a ritual object holding a spirit which performs the magical function. It is created by a Shaman using a spirit with the Create Charm function. In exchange the shaman will expect around 20L worth in exchange or half that for someone the shaman has a close relationship with such as a fellow spirit society member and the character will end up spending around a day with the shaman. Recreating a lost charm would require around 5L and about 2 hours. Each has a taboo associated with it which must be followed to keep the spirit happy so for example an Ignite Charm might hate water. If the taboo is broken the charm will be lost. Each charm is tied to a particular rune. A charm has its own rune and its own value which is always D6 or D8. A shaman or spirit society member can create charms belonging to a spirit society or spirit tradition s/he is a member of. The magic save of a charm is 5+ and a failure means the charm must be re-created. A character who is a member of a Spirit Society can re-create his/her own charms but not those to be used by others. A character can have up to six charms. A Charm with a **Duration** or **Until Cancelled** cannot be used again whilst it is active on a target as the spirit is busy doing the action of its magic. However Charms ignore the **Concentration** modifier because the spirit is doing the concentrating.

Spirits

Anyone who is a member of a spirit society or is a shaman can have spirits. A spirit is contained in a ritual object holding a spirit which performs the magical function. It is created by a member of a spirit society or a shaman using the Bind Spirit ritual and can only be used by the binder. They have a taboo associated with it which must be followed to keep the spirit happy so for example an Ignite Spirit might hate water. If the taboo is broken the spirit will be lost. Each spirit is tied to a particular rune which comes from the spirit society of the character who bound it. A spirit has its own value which is chosen when it is bound. A character will not usually have spirits with a greater value than his/her own Spirit rune but this is possible. The magic save of a spirit is 5+ and a failure means the spirit must be re-bound. Binding (but not re-binding) a spirit costs 1 XP. A character can't have more spirits than the maximum result of his/her spirit rune. A Spirit with a **Duration** or **Until Cancelled cannot be used again whilst it is active on a target** as the spirit is busy doing the action of its magic. However Spirits **ignore** the **Concentration** modifier because the spirit is doing the concentrating.

Create Charm and Bind Spirit

These abilities are gained automatically by members of Spirit Societies. They always use the Spirit Rune or Dying Moon Rune. These abilities have a magic save of 5+ and a failure causes offence to the spirits and means the ability can't be used again until a 3 day purification ritual costing 20L has been completed.

Rune Magic

A character who is an Initiate or Devotee of a Rune Cult, Ancient Moon Goddess or Lunar New God can perform Rune Magic. A character must have at least 1 Rune Point to use Rune Magic. A rune point allows any rune magic functions to be used. Each point costs 3 XP. Characters can use any rune magic function of their cult. A character with Rune Points starts 2D6 functions which matches any of their cults. Each rune point gained also allows the character to choose one new rune magic function from all those available to them. The rune abilities s/he has chosen can be used at the normal value of the runes.

The Magic save for rune magic is 6+ and on a failure the character loses 1 Rune Point. After using a function (and paying any compulsory lost Rune Point) a character can spend a Rune Point try to attempt the function again replacing the initial result but must accept the second result.

An initiate can regain his/her rune points by spending a day of worship and 20L on sacrifices with the supervision of a priest or devotee in a shrine or temple of his/her cult or by taking part in a seasonal holy day ceremony in a shrine or temple. A devotee regains his/her Rune Points by spending a day in worship at a shrine or temple of his/her cult or by taking part in a weekly or seasonal holy day ceremony.

Spells

Spells are held in grimoires. A character who is a sorcerer starts with some spells in their grimoire copied from grimoires to which they have access. Lunar sorcerers have access to every function of a moon phase plus any function listed as a Glamour of a cult of which they are a member. Other sorcery schools have particular grimoires listed. An independent sorcerer starts with his/her own grimoire but then must discover further spells in play. If a character gains access to a grimoire through a cult then the copy of the grimoire will belong to the cult and be kept by it. However a character will make a copy themselves in their own grimoire. Each grimoire can contain spells associated with its rune or its rune combined with another and any extra functions associated with the cult it comes from (if any) plus the Tap function. Adding an extra spell to a character's existing grimoire costs 1 XP. Creating a new grimoire (with a different rune) costs 4 XP and this can then have spells added to it.

Spells have a magic save of 5+ and failure causes Power Drain. After using a spell (and suffering any compulsory Power Drain) a character can voluntarily take a point of Power Drain to roll again to for a spell outcome replacing the original outcome but must accept the second result.

Spells have B1 to their result or B2 if the character possesses the rune (or both runes if it uses two) of the spell.

A character can have a number of spells in mind at once equal to the maximum result of his/her Law Rune or Lunar Phase up to a maximum of 20. A character can have any number of spells available in grimoires and it takes an hour to swap from one to another in mind.

Glamours

Glamours can be created by a character with a moon phase rune who is an Initiate or Devotee of a Lunar New God or an Ancient Moon Goddess approached in the Modern Lunar Way. A character must have at least 1 Glamour Point to use Glamours. S/he can buy Glamour Points at 3 XP each. Any Glamour function listed for the character's cult is used at full value. Other Glamours of the character's moon phase or phases can be used at - 2. An initiate or devotee gets all available augments. On initiation a character with Glamour Points will have chosen 2D6 Glamours plus 1 per Glamour Point. S/he subsequently gains another per Glamour point bought.

The Magic save for Glamours is 6+ and on a failure the character loses 1 Glamour Point. After using a function (and paying any compulsory lost Glamour Point) a character can spend a Glamour Point can attempt to roll again to replace the outcome of a glamour but must accept the second result. An initiate can regain his/her Glamour Points by spending a day of prayer and meditation at a shrine or temple with the supervision of a priest or devotee or by taking part in a weekly or seasonal holy day ceremony. A devotee regains his/her Glamour by spending a day of prayer and meditation at a shrine or temple or by taking part in a weekly or seasonal holy day ceremony. A devotee's Glamours are B1.

Chaos Magic

Chaos Magic can be used by any character with a Chaos Rune or a character with a Moon Phase Rune who is an Initiate or Devotee of a Lunar New God or an Ancient Moon Goddess approached in the Modern Lunar Way. It can be used to perform any function of the Chaos Rune. It uses the character's Chaos rune or moon phase. In addition a character can pay 1 XP per function to gain the function of another rune s/he possesses and use it with Chaos Magic. Chaos Magic has B2 to its result. It has a Magic Save of 7+ or 5+ for an Illuminate. On a failed save:

- A non-illuminate who was using a moon phase swaps the moon phase for a Chaos Rune and gains a chaos feature.
- A character using a chaos rune saves again or gets a chaos feature. S/he cannot use chaos magic again until after the next midnight.
- An illuminate using a moon phase must succeed in a task of difficulty D14 using Knowledge (Philosophy) trying once per day of prayer and meditation. If s/he tries to use chaos magic again before completing this process they will count as a non-illuminate and hence risk getting a chaos rune and a chaos feature.

Chaos Magic is not subject to the Lunar Cycle.

Lunar Cycle

All Lunar Magic (magic gained through an Ancient Moon Goddess approached in the Modern Lunar Way or of a Lunar New God) is subject to the Lunar Cycle whether it is Rune Magic, Glamours, Spells, Charms or Spirits:

- Using Lunar magic on the full moon or in the glowline or glowspot: B1
- Using Lunar magic on the crescent moons: P1
- Using Lunar magic on the dead or dying moons: P2

Common Magic, Charms, Glammers and Spells for Runes

This is a guide to the magic associated with each rune for these kinds of magical sources. Characters can choose from any of the functions in the Common Magic column if they have the right runes. Charms and Spirits are usually gained from those available to a Spirit Tradition or Society listed later. However the kind of functions available as Spirits and Charms are listed as a guide to other Spirit Societies not described in detail and also for the minor independent spirits that characters can contact. For spells magic shown in any of the columns can be included in a grimoire of that rune. Independent sorcerers start with grimoires like this and all sorcerers with a law rune can discover them. Lunar sorcerers have access to all the functions listed for the moon phase runes. Members of Sorcery Schools and Lunar magicians also have access to special grimoires of their cult. If a second rune is shown, then both runes are required in combination when the function is used as a spell. Such spells are only listed with their main rune (which would be the rune of their grimoire). Any function not listed as a standard type is a Special Effect.

Glamours and Lunar Sorcery by Cult

Characters can use any of the listed augments as Glamours at full value. They choose 2D6 Glamours from all those available from their cults on initiation and gain an extra glamour for each Glamour Point they buy. They can use other Augments of their moon phase at -2. All these functions are available in grimoires of Lunar Sorcery.

Heroic Return

A PC who is an initiate or devotee of a Rune Cult, Ancient Moon Goddess, the lunar goddess or a Lunar New God may return from the otherworld if killed. To do so the character must choose a rune through which the cult is approached and is worth at least D8 and roll its result. If the result is 8+ the character will come back D4 days later with a permanent -1 in the rune used (this can be regained for 4 XP). Note that whilst important NPCs come back from the dead too this is a narrative effect rather than a roll and is a lot less common than this.

Poison

When an individual is poisoned there will be a delay of a certain number of turns before the poison starts to take effect. After this the victim must resist the poison with Health (Resist Poison) at the start of each turn until the poison has had its ultimate effect, the poison has suffered a major or minor defeat (and hence stopped working) or be cured in some other way. On a Draw the poison doesn't go away but doesn't have any other effect. The following are examples of typical poisons:

| Poison | Poison Value | Minimum Delay | Effect Major Success | Effect Minor Success | Ultimate Effect |
|------------------------------------|--------------|---------------|--|------------------------------------|-----------------|
| Blade Venom or Other Lethal Poison | D6 to D14 | 3 Turns | 2 Hurts. If Disabled no roll on the Wound table instead automatic general Mortal Wound. If survives the Mortal Wound is at P2 to all physical skills and will recover by 1 per week. | Hurt. See Major for other effects. | Mortal Wound |
| Paralysing Poison | D4 to D20 | 2 Turns | Poisoned and Paralysed for 2 hours. | Poisoned | Paralysed |

Healing

Injuries and status on characters can be healed using the correct magical function. Otherwise mundane healing can help. The following indicates the difficulty of the healing task and assumes the character has suitable healing equipment. It also shows how long is required to perform each task roll. If a healing task is failed then the injury is beyond the character/s skill. Up to three characters can support each other in a healing task.

| Injury | Treatment Task (Difficulty) |
|---------------|--|
| Disease | Difficulty as the magical resistance of the disease ghost (15 minutes) – victim can use the healer's skill as well on next roll to resist disease. |
| Mortal Wound | Stabilised: D8 (1 Turn), Disabled Removed: 2D12 (12 Turns), Treated – gain any treated benefits after the listed time. Other recovery time halved: 2D12 (1 hour) |
| Serious Wound | Disabled: 2D10 (6 Turns), Treated – gain any treated benefits and recovery time halved: 2D10 (15 minutes). |

| Injury | Treatment Task (Difficulty) |
|-------------|--|
| Minor Wound | Disabled: 2D8 (3 Turns), Treated – half recovery time: 2D8 (5 minutes). |
| Hurt | Treated – each treated hurt will recover after an hour: 2D6 (5 minutes). |
| Poisoned | Treated – half recovery time: 2D10 (5 minutes). |

Training and Practise

To improve a skill characters can use practise and if possible training as well. When receiving training a character can go to a training school if one exists for the skill. It is also possible to receive training from another character who is better than you at a skill (or as good for when moving from Skill 1 to 2). Characters often receive training 'on the job' by working with a more skilled mentor.

Each character can choose up two 2 skills that they are working on improving at a time (either as a teacher or learner). For each a learner must either attend a training school or have a character mentor teaching them as they are learning 'on the job'. A character must have talent (an advantage) to get to Skill 2.

| Skill Attempting to Reach | Difficulty | Cost Per Week for Training from a School | Cost Per Week for an Exceptional Teacher | Hours Practise/Day |
|---------------------------|------------|--|--|--------------------|
| -1 | D10 | 2L | 4L | ½ |
| 0 | D14 | 3L | 6L | 1 |
| +1 | D18 | 4L | 8L | 1.5 |
| +2 | D22 | 5L | 10L | 2 |

At the end of every season the character can roll a test of Training vs Difficulty. The difficulty is reduced by 2 for an exceptional teacher (either a PC with the unusual characteristic or paying an exceptional teacher). Results as follows:

- Major failure: no benefit. Any cumulative improvement to the test is lost.
- Failure: test becomes 1 easier next season (cumulative).
- Draw or Success: skill learned.
- Major Success: skill learned and test to learn the next skill level (if continued) is 1 easier (cumulative) next season.

Prices and Wages

| Profession | Pay per Day |
|--|-------------|
| Labourer, Unskilled worker. | 5C. |
| Skilled Worker, Mercenary, Guard | 1L |
| Supervisor, File Leader, Skilled Mercenary | 2L |
| Master | 4L |

When buying items or services Poor quality is x ½, Good quality is x3 and Excellent x 5. The minimum base price for good or excellent items is 20L. To get a weapon silvered adds 5L to the price of an arrow, 20L to a JLS, 40L to a dagger, axe or mace, 80L for example.

Weapons marked (B) use bronze where appropriate others are of flint, bone, stone, obsidian and wood.
